Take off what will make a nice size biscuit, knead it in the hands until smooth, prick with a fork and bake about twenty minutes in a good oven. Then the government troops poured a deadly volley into the rioters that scattered them in confusion.

RAILWAY RUMBLINGS.

The New Model Locomotive for the Intercolonial Road. The famous new model locomotive which Consulting Engineer Davis purchased for the Intercolonial will go on the road next week. It is said that Mr. Blair believes the giant locomotive will work a revolution in the affairs of the I. C. R. Several engines of the same model are to be made in Kingston. The new engine is so constructed as to permit continuous running for 60 days, and instead of changing at every divisional point, as at present on the Intercolonial, the new model will be able to make the through trip from Halifax to Montreal. It now takes twenty engines to handle the passenger trains on the I. C. R., but Mr. Davis states that eight like the new one will do the work. In the Dominion Parliament railway committee a bill to incorporate the Smith's Falls, Rideau and Southern Railway was passed. The capital stock of the company will be \$200,000. The road will run from Smith's Falls to Portland, Rideau, Lake Toledo, Meriville, Oxford Mills and North Augusta. The C. P. R. has issued the new tariff of freight rates to the Northwest and Kootenay, making reductions as required by the government when the contract for building Crow's Nest Pass Railway was given to the C. P. R. The reductions range from 10 to 33 1/2 per cent.

Japan's Press Speaks Plainly.

Gravity of the Eastern Situation Recognized. Scathing Arrangement of Germany's Course—A Resolute Policy Demanded. Washington, Dec. 31.—A high state of public feeling in Japan over the complications of the far east, centering in China, is shown by the last press advices received here from Japan. That the government itself has an eye to the gravity of the question is shown by a statement of the prime minister, made in the course of a reply to a delegation. He said: "With affairs tending to dangerous developments, as is not the case in the east, we shall not hesitate to ask the Diet for 20,000,000 or 40,000,000 yen if necessary." The Jiji Shimpo, the most influential paper in Japan, contains a scathing arraignment of Germany's course, declaring that the occupation of Kiaoo Chau shows that the tenets of international morality have ceased to be anything more than a specious pretence by European powers, and that the rule by which their conduct is really regulated is "The flesh of the weak is the food of the strong." After declaring that Germany has thrown off the mask and taken the lead of western powers in a greedy struggle to devour China, the paper adds as to the attitude of Japan: "The conflagration is on the other side of the river, but the river is burning, and the flames are easily spread across. The lesson for Japan is that a country's security depends solely upon its strength to resist aggression, and that aggression must be almost to her own gates. It will not suffice that she should be merely on the defensive. To preserve what she has already, it is sometimes necessary to add more. A crisis in the Orient now confronts Japan, and her individual strength must be devoted to guarding against the perils that menace her." The Nichi Nichi Shimbun takes a similar view, declaring that it is part of the plan of encroachment of European nations upon the Orient. It says: "Japan has the greatest interest at stake in these things, and the Japanese foreign office should lose no time in obtaining from Germany a clear exposure of her purposes." The Nippon says the crisis calls for a resolute foreign policy. It says: "The course of Germany is arraigned as a flagrant violation of international law. The Chou Shimbun declares that the time for the partition of the Chinese Empire has arrived, and adds: 'What shall Japan do? Shall she join in the scramble for pieces of the doornail, or shall she oppose its partition in such a crisis, the like of which has not occurred since the days of the Opium War?' The Tokio Shimpo takes the radical position that it is Japan's duty to succor China, and to demand that the government ground that the boasted civilization and Christianity of the western world is slowly trampling down right and justice in its descent upon the Orient. Aside from the excited discussion of the problem in China, the Japanese press is mainly content to speculate on the country's naval and military development. The expenditures on "armament expansion" this year will be \$9,645,721 yen, and next year \$3,250,000 yen.

Stands Almost Empty.

Dr. Wilson's Unenviable Position on the Hospital Bylaw. His Fellow-Practitioners Practically a Unit Against His Views—Their Strong Declaration.

It is very significant that the medical profession of London is practically unanimous in favor of the hospital by-law. Forty-two out of the 49 city physicians have signed a declaration expressing their hearty approval of the plans for enlarging and improving the general hospital on its present site in No. 3 ward. Of the seven remaining doctors, there are some who would have signed the declaration, but were out of the city at the time, or could not be seen before its publication. Dr. John D. Wilson stands almost alone in his opposition to the by-law, and to the provision of necessary hospital accommodation on the present admirable site. The doctors who signed that declaration, which was strongly worded, as became the good cause it advocated, were the following: W. H. Moorhouse, J. Wishart, J. MacArthur, J. A. Nelles, C. P. Hutcheon Hogge, C. A. Cline, J. H. McLellan, C. F. Neu, R. Ferguson, W. J. Weekes, H. J. Williams, J. B. Campbell, B. F. Butler, G. P. Westland, John R. Flock, Edwin Seaborn, F. R. Eccles, W. J. Stevenson, J. A. Jarvis, W. M. English, Alex. Graham, W. J. Teasdale, W. E. Waugh, J. M. Piper, A. Holsom, George Hodge, H. Meek, W. A. Thomson, R. Owens, Wm. Woodruff, Benjamin Bayly, Charles S. Moore, H. MacLaren, A. E. Woodward, H. A. Stevenson, W. S. Macdonald, Edgar Macklin, N. H. Henderson, H. A. McCallum, Cl. T. Campbell.

COLORADO'S GOLD OUTPUT.

Produces \$22,000,000 During the Year—Distancing California. Denver, Dec. 31.—The books of the United States branch mint for the year 1907 are now closed. The deposits of gold are the largest ever received. The total will slightly exceed \$12,000,000, and a conservative estimate made by the mint officials places the entire output of Colorado at \$22,000,000 in round figures. Colorado will go far ahead of California, as it is said to be doubtful if California's output will touch the \$18,000,000 mark. Last year Colorado's output was \$15,500,000, and that of California was \$17,000,000, while the total production of the country was \$61,717,926. The great increase in the Colorado output this year will send the total for the United States up to the \$70,000,000 mark.
