WHEN YOU ARE CURED, PAY ME.

Are you a weak person? Are you nervous, fretful and gloomy? Is your sleep broken? Have you pains and aches in different parts of your body? Is your back weak and paintal? Have you lost the vigor of youth? Are you aches in different parts of your back weak and paintal? Have you lost the vigor of youth? Are you aches in different parts of your back ache? WEAR MY BELT UNTIL YOU ARE CURED

You can talk with the men and women who have been cured by my treatment, and that's worth considering. I might preach for years in my efforts to gather converts to my way, of curing disease and nobody would pay any attention to my arguments; but when I tell you I have cured your neighbor, Mr. Walker, or your old friend, Mr. Williams, and you can go and ask them about me, and they tell you I have cured them, then I have given you proof, and you know that I can do all I claim.

Dear Sir,—Regarding your Belt, I can say that I feet brighter and stronger in every way than I ever was before, and I consider myself to-day a better man than I ever expected to be. Thanking you and your Belt for this happy result, I am, yours faithfully,

ANTHONY STECKLEY, Bethesda, Ont.

Dr. McLaughlin:
Dear Sir.—I am glad to say that the Belt I bought from you on the last day of July, 1905, cured me of Sciatica. I wore it about four months, and I have not been troubled since. Yours truly,

Markham Road Crossing of C. P. R. Would Become Important Point With a Suburban Service.

The World had an interview with store there and the postoffice. Forty rods from Mr. Brown's store the Candian Pacific has a stop, known as the dian Pacific has a stop, known as the Markham-road Crossing. It is sixteen miles east of Toronto and between Agincourt and Locust Hill. The Markham-road runs from the Kingston-road up the middle of Scarboro Township and on to Markham Village and the centre of Markham Township. It is five miles from the Kingston-road up the Markham-road to Brown's Corners.

Brown's Corners.

Mr. Brown says that if the Canadian Pacific were to run a motor car to Myrtle, as proposed by The World, it would get a great deal of business at the Markham-road Crossing. That place would speedily develop into an enterprising village if it had quick and reliable communication with the city. reliable communication with the city. As it is, there are only a couple of trains a day, and the morning train runs so late in the forenoon that nobody cares to use it. As a consequence most of the people who wish to come to town drive down the Markham-road to the Kingston-road, where they get the Scarboro trolley into the city, and they return in the same way. They either have to walk five miles or leave their buggy at the foot of the

of one and a half miles east, which is another enterprising village.

The suggestion has been made to The World, and it seems a good one, that the Canadian Pacific ought to get a trolley line franchise on the Markham-road, from the Markham-road Crossing up to Markham and Stouff-ville, a distance of not quite 15 miles. A motor car running from Stouffville to the Markham-road Crossing and then turning in onto the C. P. R. and running to the city, would cover about thirty miles, and it would run thru one of the very best sections in the neighborhood of Toronto for supurban settlement and travel. More farm produce could be brought in from this section by express than on any other The people are well to do, the farmers have lots of money, they have splendid farms, the best of live stock splendid farms, the best of live stock and are all of an enterprising charac-ter. R. trains leave Toronto at 9.40 a.m. and 9.30 p.m. daily, arriving at Point au Baril at 4.02 p.m. and 2.36 a.m. respectively, with a change of trains and a short wait at Parry Sound on the morning train. The steamer "Ophir" connects at Point au Baril Station Wharf with these trains, and conveys passengers to the Bellevue and Ojibway hotels or to any of the beautiful island resorts of the district.
