"Peter Pan" Produced In Aid of War Funds

Under the auspices of the Central orhood wise, the West Ger-treet sett ment that old favorrard street set. ment that one accel-ite, "Peter Pan," was given in excellent style last evening at the Fores-ters' Hall. The artists were all chilters' Hall. The artists were all children, the eldest being only about 15 years of age, and were distinctly cosmopolitan being composed of English, Jewish and Italian children. The manner in which they rendered their parts and the confidence they exhibited reflected great, credit on the work of Miss Jean Mitchell, who trained the "company." Lena Gang acted the role of Wendy, and the Peter Pan of Gert's Brenner, with the grown Pan of Gert'e Brenner, with the grown up childishness of the boy who never grew up, was excellent. The proceeds were in aid of the 60 members of the various boys' clubs in the ward, who have at different times been af-filiated with the Neighborhood House and who are now at the front, and it is anticipated that about \$100 will be realized.

AT THE RIALTO.

"Mothers of France" was received with enthus astic appreciation at the Rialto Theatre yesterday. The crowds which attempted to see the production were equal to any in the history of the house, and the walture the block. "Mothers of France" gives a more graphic picture of fighting France than any of the so-called war pictures.

VIVIAN MARTIN AT MADISON.

It is a very good bill that is offered it the Madison Theatre for the first half of this week. Vivian Martin is quite delightful in the fantastic comedy-drama, "The Spirit of Romance," while those who like comedy of the funniest will find their requirements met by Roscoe ("Fatty") Arbuckle in "The Butcher Boy."

MME. GALLI-CURCI TOMORROW.

Washington Post of last Saturday, speaking of the recital the night before in that city, says: "The sparkling floriture of the Bell Song,' from Takme, as given yesterday, was like the bubbling of a fountain in the ne." The great singer has included this number in her program for tomorrow night in Massey Hall, when a representative social and musical audience will be present.

MUNITION WORKERS HELD ON UNUSUAL CHARGE

Probably the first case of its kind in Canada will be tried in the police court today following the arrest of James Alexander Curry, 572 Concord avenue, on a charge of using a government stamp on certain shells without the proper authority from the Dominion Government to do so, and Chas. Edward Pointon, 773 Gladstone avenue, on a charge of being an accessory to the alleged crime. Pointon is employed at the John T. Hepbourne Munition Works, Van Horne street, as a shell inspector: Curry, as a shell employe. According to the police, under a special act made effective by the Dominion Government some time ago, no one but an inspector of shells is supposed to stamp certain varieties of shells under pain of severe punishment. The arrest of the two men was brought about by information supplied by Major W. J. Keightley, chief inspector of ammunition in Ontario district, which emanated in turn from a member of his staff, who is alleged to have received knowledge of the affair while visiting the plant. The men were taken into custody by Detectives Cronin and McConnell.

PAYMENT OF TEACHERS.

The question as to who should pay the substitutes of the teachers and principals who go to work on the farms was cleared up at yesterday's meeting of the finance committee of the board of education, when it was agreed that the board still pay the salaries to those who go, who will in turn pay their substitute themselves. "Pay them what they like, and keep the balance," was the order.

ONE MONTH SENTENCE.

Charles Goldsmith, charged with re ceiving stolen goods, was yesterday sentenced to one month by Judge Coatsworth in the general sessions. His wife, who was also charged with the same offence in the same case, was allowed off on suspended sentence.

An exceptionally smart bill, filled to the brim with good comedy, delighted yesterday the patrons of Shea's Hip-podrome. "The Black and White Re-vue" afforded the headline attraction which pleased the audience immensely. The feature was the clever too dancing of one of the four pretty girls and the "end" men with the interlocutor also drew many laughs with their jokes. Eleanor Fisher, known as the "Recruiting Girl," made a hit with her recruiting song, "What Kind of an American Are You?" which she claims won 764 recruits for the American army. Her rendering of "Jean d'Arc,"

THRILLING PICTURE

REMAINS AT GRAND With the races scheduled for Saturday, the presentation of "The Whip," the most scheduled motion-picture story of the racetrack at the Grand Opera House is decidedly opportune. The fact that "The Whip" has been playing to capacity houses for six performances already only serves as an incentive to see this amazing picture again. For thrillers "The Whip" held the learnels long ago when given its first production in London, where it ran for almost three years, followed by a record run of two seasons in New York City. The miling of this famuos stage success has resulted in a greater motion-picture triumph, for exterior scenes which could not possibly be brought before the gooffights are filmed again and again in all their beauty, intensity and convincing reality. The train wreck alone is an achievement in photography, and comes with a craeh and thrill which raises the audience to a pitch of keen excitement. Yesterliay afternoon fifty men were entertained by the management of the theatre.

Manager Roberts, of the Regent announced yesterday that the theatre's symphony orchestra will be increased to 17 members by four musicians consisting of two violinists, a collist and harpist. Furnishing variety and excellence in musical programs has earned the Regent orchestra the reputation of ranking among the first-class orchestras of Canada, and undoubtedly the patronage of that theatre, which is constantly increasing, is due in no small measure to the work of its body of musicians. Features of this week's program are the orchestra's overture by Kela-Rele and emphanium such by Rela-
