

PRESS URGED TO ATTEND EMPIRE CONFERENCE

London News Writer Thinks Meetings Should Be Open to Public

By HERBERT BAILEY

LONDON, Sept. 23.—A demand for the attendance of press representatives at the Imperial Conference and the best possible publicity for the proceedings is made today by Hugh Martin, the London Daily News parliamentary correspondent. He urges that the conference would gain if the opening sessions were thrown open to the press in a manner similar to the meetings of the League of Nations. He also urges that the gold room of the foreign office where the Locarno treaties were signed should be the scene of the opening conference but officials laughingly say that some of the Dominions might feel uneasy over the association of the Locarno treaties.

Meanwhile preparations are going ahead for the Imperial Education Conference which will be held next year at which the question of instruction in the aims and objects of the League of Nations in the schools of the Empire will be discussed, as well as the teaching of Imperial history.

Woman Laborite M. P. Uses Gold Lorgnette

LONDON, Sept. 23.—Miss Margaret Bondfield, M. P., represents the ranks of working people in the House of Commons with the aid of a gold-rimmed lorgnette, which she raises with a scornful gesture to stare down Conservative hecklers, or to wave triumphantly when there is cause for Labor cheers.

She set the fashion for women members of the House. The particular feature of the Conservative side of the same sort is Sir Austen Chamberlain's monocle.

Child Counterfeiter Convicted in Rumania

FOGARAS, Rumania, Sept. 23.—A bank note counterfeiter, thought to be the youngest on record, has been arrested and convicted here. Emilia Pops, 15, while her parents were away, removed a bank note from her mother's cash drawer and made a copy of it on a piece of stiff paper. She placed the original note back in its hiding place and ran down the street to the candy shop. The bill was of large denomination. Surprised to see such a little girl with such a large bill, the candy merchant scrutinized it closely and discovered that it was not genuine. Emilia was arrested and sent to a house of correction. Her parents were also called into court, but were released when Emilia proved to the court that she had made the bill herself.

Boy Kills Himself Because Horse Dies

BEKESCSABA, Hungary, Sept. 23.—Because of his love for a horse which was accidentally killed Ignace Olah, a stable boy, committed suicide. Olah was employed on a farm a few miles from Bekescsaba. His favorite horse was drowned after being trapped by a sudden flood. Olah was so grieved that he threw himself on the track before an express train.

Says Vaccination Will Save Babies From T. B.

ROCHESTER, N. Y., Sept. 23.—Infants may be immunized against tuberculosis by vaccination with non-virulent tuberculosis bacilli, Dr. B. Willis Halle, noted scientist, declared here yesterday at a meeting of the Monroe County Tuberculosis and Health Association. Dr. Halle is in this country to present the results of years of research conducted by himself and Dr. Albert Calmette in France, before the International Union against tuberculosis in Washington. He declared his method of fighting the disease undoubtedly will be adopted as the most effective means.

Water Pressure Used In Nero's Calliope

ROME, Sept. 23.—A circus "calliope" played with water, instead of steam, was one of Nero's playthings, according to the Italian archaeologist, following studies near the Golden House of Nero. The "water" calliope was invented by the Egyptians and brought to Rome three centuries before Christ. Water served to create the air pressure necessary to produce different tones in the calliope. Several keyboards with a mechanism of strings was used to regulate the air pressure valves in the metal pipes.

Man Commits Suicide To Avoid Court Scene

BAJA, Hungary, Sept. 23.—A dog and a hard-hearted magistrate together caused Roman Schierchler, 70-year-old local hermit to commit suicide. Schierchler's dog got into the habit of breaking out at night and killing the neighbors' chickens. One of the neighbors reported the matter to the police. Schierchler was summoned before the magistrate and fined.

Before the execution could be served against him, however, the old man was dead. After writing a letter explaining his action, he killed himself. In the letter he stated that this was the first time during his 74 years' life that he had ever been called before a court and that he felt too disgraced to continue living.

MRS. HALL SAYS SHE IS BEING PERSECUTED

Widow of Murdered Clergyman Declares No Effort Made at Solution

NEW YORK, Sept. 23.—The New York World quotes Mrs. Frances Stevens Hall today, as saying that the state, through Senator Simpson, its special prosecutor, is persecuting her instead of attempting to solve the Hall-Mills murder mystery. Mrs. Hall, one of the four under indictment for the murder, is being held in \$40,000 bail. "There was no real investigation of the case four years ago, and there is none now," The World quotes Mrs. Hall as saying. "Is there anyone in the world who welcomes a solution of the case, more than I? The state is persecuting me instead of solving the case."

Clown's Wife Elopes; He Stops Performance

NAPLES, Sept. 23.—At the height of a comic masquerade given by a Neapolitan company of comedians in the town of Siderno Marina, the actor taking the part of Palestrina, the clown, suddenly reentered the stage, and throwing his mask to the ground, cried out: "No more acting tonight. The show's off. I am a man as well as a clown."

The curtain was run down, and the puzzled audience did not know what to make of the curious incident. Later, it was revealed that the actor had just received news that his wife had run off with a chauffeur.

Tunnel Planned To Join Spain, Africa

LONDON, Sept. 23.—A vision of Londoners traveling to Capetown direct from Calais is conjured up by Spain's renewed interest in a proposal to dig a tunnel under the straits of Gibraltar, 16 miles long. Coupled with the ever-recurring plan to tunnel the channel, this link between Europe and Africa may make it possible for Englishmen to step into a train at London and ride through without a change of cars to Capetown. Under Primo de Rivera, the Spanish dictator, the plan to dig under the Gibraltar Straits is reported to have entered the domain of actual possibilities. First seriously considered in 1918, the proposal was put aside on account of Spain's difficulties with Abd-El-Krim in Morocco, but with that trouble settled, the plan is again being considered.

DOCTORS ADDRESS CONFERES

Instructive addresses were given before the Saint John Medical Association last evening in the Admiral Beatty Hotel when Dr. C. P. Henry of Montreal, spoke on complications and treatment of duodenal ulcer and Dr. Detwiler of Toronto, spoke on non-tubercular diseases of the chest. Dr. V. D. Davidson, president, was in the chair. The meeting was one of a series held as part of the extra-mural post-graduate course conducted by the Canadian Medical Association and Sun Life Insurance Co.

FRECKLES

Tells How to Get Rid of These Ugly Spots and Have a Beautiful Complexion

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots. Simply get an ounce of Othine from any drug or department store and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful complexion. Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove your freckles.

The Discovery. Scrapped to the saddle of an Arab rider, the goatskin bag of milk turned to cheese by galloping horse and desert heat. At the journey's end was provided a wholesome, hearty meal.

KRAFT for your family, old or young. You may have noticed how many children love **KRAFT** Cheese. It is probably because, containing the vital elements of milk and being properly aged, blended and pasteurized, it tastes so good and in addition is so easily digested.

In Europe people eat much more cheese than we do here in Canada. They have discovered what an economical and wholesome repast it makes. **KRAFT** Cheese has a tremendous market abroad.

KRAFT has used great care to give you good cheese; won't you be equally careful to get **KRAFT**? Other cheeses have been made to resemble it in outward appearance, but, dear public, the resemblance stops right there.

Try **KRAFT** Cheese and you will find that it digests easily. (It is made in Canada from A to Zed.)
