## COWAN'S ACTIVE SERVICE CHOCOLATE

For our Heroes

At times during heavy bombardment the army commissariat becomes so disorganized that ordinary food is unobtainable for days.

During such times as this the value of a convenient and concentrated food that may be carried and handled easily, cannot be over-estimated.

Active Service Chocolate answers all the requirements of such a food. It is the most nourishing and wholesome chocolate manufactured. If you are unable to obtain this chocolate in your locality, write us, we will see that you get it.

Peat That Burns.  
Sackville Post: There are peat deposits in and around Sackville. A day or two ago H. R. Fawcett brought into this office a sample of the local article, which he had dug on lands owned by John Gayton. Mr. Fawcett had been experimenting with the peat as fuel and declared it burned rapidly. The editor of the Post also sampled it in his stove, where it seemed to burn just about as well as some of the coal we get nowadays. Here is an opportunity for some enterprising citizen to lay in a stock of peat for next winter's use.
