GAME LAW MATTER

Director of the Times:
The other evening I read a re-
that a Carleton fisherman had
gilt 88 black ducks in his weir on
day and Sunday and that as a re-
many Carleton people were enjoy-
a choice meal.
have waited to see if our chief game
missioner would take any action, the
th being killed out of season, but, not
doing anything regarding it, I now
g to call the game commissioners at-
tention to the matter and to express
e hope that he will enforce the law.
