MOUNTAINOUS SEAS IN THE BAY

Mount Temple Commander Reports a Wild Night in Fundy Waters — Today's Waterfront News

The C. P. R. liner Mount Temple, Captain Moore, from London and Antwerp with a large general cargo and 573 passengers, arrived at Sand Point this morning about nine o'clock and docked at No. 1 berth. The big liner, which left Antwerp on Feb. 8, arrived off the island yesterday morning at last past eight o'clock, after having had a fairly good passage across. While waiting for the tide, in order to come to Sand Point, the storm, which did so much damage on land and sea yesterday, arose, and she was forced to remain anchored there. At night, however, the gale grew so violent that Captain Moore thought it would be advisable to turn his vessel seaward again.

This course was pursued and the steamer was taken down the bay for several miles and rode out the storm without any mishap. She came up to the island again early this morning and from there proceeded direct to her berth at the point. Captain Moore said this morning that last night's storm was one of the strongest he has ever in. The wind blew at the rate of sixty miles an hour and the seas were mountainous high, washing the decks at frequent intervals. Everything was all right on board the big liner however, and there was little, if any, alarm among the passengers.

The Mount Temple brought 573 passengers, most of them of the same nationality, and a fine, healthy looking lot. There was very little sickness among them on the way over. Most of them are for western points and will go forward by special trains this afternoon. They were inspected at the sheds this morning by the immigration officials and with the exception of one or two, will be allowed to proceed on their way. The C. P. R. liner Empress of Ireland will dock at the coal pocket some time during the afternoon.

The S. S. Blodestan, Captain Forest, called this morning at eleven o'clock for Bermuda via Halifax with a large general cargo. The S. S. Manchester Commerce which was due in port yesterday afternoon, did not arrive until early this morning, having been detained on account of last night's storm. The big liner anchored in the harbor at Sand Point and will dock early this afternoon. The Allan Star, Pomeranian was to arrive at Fredericton on Monday. The S. S. Inishowen Head, Captain Kane, sailed between 9 and two o'clock this afternoon for Dublin with a large general cargo, coming principally of grain, deals and flour.

PETERSON TOLD HIM DALEY BREAK WAS MADE BY ANOTHER

Detective Killen Adds to This Interesting Evidence in This Case

Hearing in the case against William Peterson, charged with breaking and entering the barber store of James Daley in Dock street, and also the premises of the Church of England Institute in the same street, was continued in the Police Court this morning. Detective Killen told of going to Barber shops in the city and securing razors, which the prisoner had sold. He also told of visiting the Church of England Institute on January 12 and looking over the store. He found an iron bar on the floor. This was produced in court at a previous hearing. On cross-examination the witness said that before Peterson was arrested he had suspected another man for the Daley break. The prisoner had told him that this man was the one who had made the break, and that he had gone to sea on the S. S. Scotie. Upon enquiry this information, the detective said, was found to be false.

This closed the case for the prosecution, and E. S. Ritchie for the defendant announced that he would call one or two witnesses to-morrow. The case was then adjourned, and the prisoner was further remanded to jail.
