

MAY DIVIDE CONTRACT

HYDRO-ELECTRIC COMMISSION AND EQUIPMENT TENDER.

Toronto, Oct. 28.—A statement relative to the progress of the scheme of the Hydro-Electric Power Commission was issued yesterday. The contract for the electrical equipment, according to the statement, may be divided between two large electrical companies. The statement is as follows:—

"The engineers of the commission have adjusted the details of construction of the transmission lines with the contractors, the F. H. McGuigan Construction Company, and the work will be commenced at once.

"The tenders for the electrical equipment and apparatus required by the commission have been received and are being checked as to their technical details by the engineers of the commission. This is something that requires the utmost care and cannot in fairness to the people be rushed through in any haphazard fashion. Although the actual figures cannot be given at present, it may, however, be said they are considerably below the estimates made by the engineers of the commission for this part of the work.

"The tender of the Canadian General Electric Company of Peterboro' and the tender of the Canadian Westinghouse Company of Hamilton are, all things considered, the most favorable tenders received. As may be readily understood, the equipment and apparatus of these companies are not exactly alike, and in some respects that of one company exceeds that of the other, and vice versa. In view of this fact, and in order by selection to get the very best results, it looks at present as though the contract, amounting to over one-half million dollars, should be apportioned between these two companies."

THREE DAYS DOWNPOUR

SERIOUS FLOODS IN CENTRAL AND NORTHERN OKLAHOMA.

Oklahoma City, Okla., Oct. 28.—Serious floods prevail through portions of Central and Northern Oklahoma, the result of three days' steady downpour of rain. The rain continues. In some portions the fall has amounted to almost a cloudburst. Numerous reports of loss of life made yesterday remain unconfirmed, and are believed to be without foundation. No single report of drowning has been verified. The heavy rainfall had caused the Canadian and Arkansas Rivers, the State, to overflow their banks, doing much damage to farm lands, causing washouts on the railroads, and in some instances threatening small towns.

At Tulsa and vicinity the Arkansas had risen ten feet in the twenty-four hours ending this morning.

Many farms in the vicinity are flooded. A third of the town of Pawnee, with 1,500 inhabitants, was covered last night with six feet of water. The Arkansas River at Tulsa is rising a foot an hour. A heavy rain fall in Tulsa and Bartlesville last night crippled the oil fields operations, and the pump stations of the Prairie Oil & Gas Company are out of commission. All trains are delayed.

WATER FAMINE

COAL MINES IN ILLINOIS MAY HAVE TO CLOSE.

Chicago, Oct. 28.—Unless there is a rainfall soon in the southern part of Illinois the coal mines will have to shut down for want of water for making steam and for operating their coal washing machinery, according to coal traffic officials at the Burlington, Chicago and Eastern Illinois, and Illinois Central roads.

Scarcely any rain has fallen in Franklin and Williamson Counties, where most of the mines are located, since last May, they say, and many of the mines already have been forced to shut down. Others are hauling water to the mines from long distances and borrowing from the supply kept by the railroads in reservoirs along their lines for their engine tanks.

ENGINEER MUNT KILLED

ACCIDENT ON RAILWAY WEST OF PORT ARTHUR.

Port Arthur, Ont., Oct. 28.—An eastbound freight on the C.N.E. was derailed forty miles west of here yesterday morning, and Engineer Munt was killed and his fireman was badly injured. Munt was caught between the engine and the tender when it left the rails, and was carried to death. The fireman had his arm broken and was also badly scalded. Both men resided here. The damage to the rolling stock was not serious.

BUSH FIRES IN BRUCE

COUNTRY SWEEPED FROM SOUTHAMPTON TO TOBERMORRY.

Mar. Oct. 28.—Bush fires are sweeping the Bruce peninsula practically from Southampton to Wario to Tobermory, very few farms left as farms escaping. Large amounts of cut timber, together with fences, farm buildings and pasture lands, are destroyed in parts. Telephone wires are down, mail stations stopped or forced to cut fallen timber out of the way. The villages of Sauble Falls, Oliphant, Red Bay and Golden Valley, which were fast becoming summer resorts, are only being saved as yet by constant efforts of the people. Even the towns of Wario and Lion's Head are threatened. The smoke is dense and rain appears to be the only remedy.

ALL CANADA VOTING TO-DAY

Elections are in Progress in 216 Constituencies—Maritime Returns First.

Toronto, Oct. 28.—To-day 216 constituencies in Canada are hard at it in the eleventh Parliamentary election. They are: Yale-Cariboo, Comox-Atlin and Kootenay in British Columbia; the Yukon, and Prince Albert, in Saskatchewan.

The polls opened throughout the country at 9 a.m. and close at 5 p.m., and in an hour the returns from the city constituencies will be complete enough to indicate pretty well who are at the head of the poll.

The first word will probably come from St. John, N.B. Four years ago at a few minutes past 5 o'clock the telegraph flashed the information that Stockton and Daniels, Conservatives, were elected in that city. When the news was known the Toronto polls were hardly closed, but the Maritime Provinces, being an hour ahead of us, the counting up down by the sea was finished before the ballot boxes in Ontario were opened.

Following close upon the information that the Conservatives had scored an early and most decisive victory, announced the defeat of R. L. Borden and his running mate, Mr. O'Mullin, in Halifax. This offset the St. John news.

Although the returns from some of the Toronto polls began to come in by 5.30 the results in Hamilton, where each party captured a seat, and in Ottawa, which elected two Liberals, were known before the public knew definitely that the five Toronto Conservatives were safe.

And it will be about the same to-day in regard to time. From 5.15 there will be news for those who watch the bulletin boards.

Sir Wilfrid Laurier will vote in his home constituency of Quebec East, and is pretty generally understood that he will mark his ballot for the Government candidate, who happens to be himself. He has also a vote in Ottawa, where he is also a candidate, but if he wanted to vote in the capital he would have to be there first, as the Ontario system of one man one vote would prevent him using his suffrage there if he had already voted elsewhere. The Quebec law, however, permits an elector to vote in as many places as he has property.

R. L. Borden will also vote for himself in Halifax. He will hear the result in his own city, returning to Ottawa in a few days to form a Government or to resume his duties as Opposition leader.

Promises Purity

Kingston, Oct. 28.—Liberals closed the campaign with a big rally in the opera house Saturday night addressed by Sir Richard Cartwright, Hon. Wm. Hart, ex-Mayor Mowat and Dr. A. W. Richardson.

Sir Richard spoke for over an hour, reviewing the work of the Government since 1896 and covering the same ground as in his recent speech at Toronto.

As regards the "scandal talk" of the Opposition, he recalled the times under Conservative rule when their conduct would offend even the worst of any Liberal regime. The aim of the present Government was to promote purity in public and private affairs.

Lehigh Shop Strike Off.
Binghamton, N.Y., Oct. 28.—At a meeting of the Boilermakers' Union in Sayre Friday night, presided over by First President Galvin of the International Union of Iron Shipbuilders and Boilermakers, it was unanimously voted to declare off the strike at the Lehigh Valley Railroad shops.

The strike began March 27, and while it hampered the company for a time, it was evident long ago that the strike was lost. The men made application for work as individuals Saturday and will be taken back as fast as they are needed.

Sending Them Back.
Montreal, Oct. 28.—On Saturday 60 undesirable citizens were deported, being sent back on the Lake Erie, Chesapeake and Virginian. Thirteen of these were C.P.R. mechanics who failed to make good. The others came from different parts of the Dominion. The majority of those deported were English or Scotch, but there was a sprinkling of foreigners, including a family of six from Russia.

Threatened Wife.
Brantford, Oct. 28.—William Taylor, member of last year's Brantford professional hockey team, was fined \$50 or three months in jail here by Magistrate Livingston Saturday on a charge of threatening to shoot his wife on Tuesday night last and having a loaded revolver in his possession for that purpose.

The couple have been separated, but Taylor did not cease molesting his wife and was twice warned by the magistrate to leave the city. Taylor did not leave, but going to his wife's house, flourished a revolver, saying, "Let's have a tragedy and die together." Taylor was also bound over in \$1,000 surety to keep the peace in Brantford for two years.

Train Kills Pioneer.
Guelph, Ont., Oct. 28.—Word was received here yesterday of an accident in Canada, where the Dalhousie Agricultural Society that while the Dominion was worthy of consideration by young farmers, he would not advise farm servants to take up home-steads. J. M. Dobbin agreed and said that Canada was the place for faith, hope and sinew—especially sinew.

Beware of Substitutes!
Greedy dealers endeavor to pass off a substitute for Putnam's Corn Extractor. Insist on "Putnam's" only—it cures corns and warts thoroughly. The imitation may fail.

BABY'S OWN TABLETS

A BOON TO CHILDREN

A medicine that will keep babies and young children plump and good natured, with a clear eye and rosy skin is a blessing not only to the little ones but to mothers as well. Baby's Own Tablets is just such a medicine. They cure all the minor ailments of children and make them eat well, sleep well and play well. They are trusted exclusively in thousands of homes when a child medicine is needed. Mrs. G. Collins, Hirkola, Man., says:—"Baby's Own Tablets are the most satisfactory medicine I have ever used for ills of young children. They are as good as a doctor in the house." Sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

LITTLE GIRL BURGLARS

Children at Beverly, Mass., Make Big Haul.

Beverly, Mass., Oct. 24.—After three months' search the Beverly police, aided by the state troops, yesterday ran down the perpetrators of a score of recent burglaries in this vicinity which have mystified the authorities. Two little girls, sisters, one of them twelve years old and the other six, are accused by the police of having committed the robberies. Their father is an engineer, and owns his own house in Beverly. Both of the girls go to Sunday school, and the older, the police say, is a favorite in the public schools.

The police suspects have rested on the two children for some time, but that they could be guilty seemed unbelievable. Yesterday the police went to their parents' house with a search warrant. The first find was made in a doll's trunk in the girls' bedroom. Carefully tucked away under the doll's dresses were found a diamond brooch, valued at \$400; a sapphire and pearl brooch, valued at \$350; a gold watch, nine rings set with diamonds and other precious stones, seven valuable stickpins, three necklaces and a number of sterling spoons and a number of other valuables.

The biggest find was in the children's playhouse. The full value of the property is estimated at thousands of dollars.

Louisiana may have the two children showed the skill of old-time criminals. Permission from their mother to earn spending money by selling soap on commission gave them an excuse to all at residences in the town. If any one was at home when they rang the bell their tried to sell their soap; if they were not at home, so the police say, the children sought the nearest window or door, walked in and helped themselves. They limited their thefts to jewelry.

BRIEFS FROM THE WIRES.

Five negroes were hanged yesterday in Louisiana.

Heavy falls of snow are reported in Kansas and Oklahoma.

Bush fires are causing trouble in Oklahoma and Smith townships.

Charles Mitchell, negro murderer, was shot by a mob at Lithonia, Ga.

A car loaded with laborers at Rivers, west of Winnipeg, was upset by spreading rails, but no one was injured.

Forest fires are raging north of Fenelon Falls and near Haliburton. John Carew, a Lindsay millionaire lumberman, has lost over \$1,000.

Fire in the Central Telephone Office at Brussels has stopped all telegraphic communication between Brussels and the provinces and foreign cities. It will require ten days to restore the system.

The older Crozier will not be taken from Milton to Kingston until after the elections, as Sheriff Clements is a D.R.O. Milton people hope that the younger Crozier will not be taken to the Central Prison.

Germany and Canada.
London, Oct. 24.—(C. A. P.)—The Frankfurter Zeitung, advocating the renewal of the Anglo-German commercial treaty, declares Germany must make such a treaty with Britain alone and independent of any treatment meted out to her by Canada or any other British dominion.

The Morning Post's Berlin correspondent says the Germans now realize that they must treat with Britain and her overseas dominions separately, and attention is now being devoted especially to commercial relations with Canada. German agrarians increasingly desire an agreement with Canada, which mainly interests sugar exporters. It is pointed out that home prices would be little affected whether Canadian wheat enjoys the most-favored-nation treatment or not.

Seek Cause of Creighton's Death.
Owen Sound, Ont., Oct. 24.—The inquest over the body of James Farish Creighton, whose death on Wednesday in his cell cheated the gallows of a victim, was continued yesterday. No new developments transpired. The stomach will be forwarded to the coroner's analyst to ascertain whether death was due to poisoning or not. The remains were handed over to the relatives yesterday afternoon, and were buried from the residence of the aged mother of the condemned man.

Faith, Hope and Sinew.
London, Oct. 24.—(C. A. P.)—W. Bruce, one of the Scotch farmers who toured Canada, told the Dalhousie Agricultural Society that while the Dominion was worthy of consideration by young farmers, he would not advise farm servants to take up home-steads. J. M. Dobbin agreed and said that Canada was the place for faith, hope and sinew—especially sinew.

Beware of Substitutes!
Greedy dealers endeavor to pass off a substitute for Putnam's Corn Extractor. Insist on "Putnam's" only—it cures corns and warts thoroughly. The imitation may fail.

TOWN IS WIPED OUT

Matheson, New Ontario, Practically Destroyed by Fire—Estimated Loss is \$75,000

North Bay, Oct. 24.—The loss by fire at Matheson Thursday night will be \$75,000. The new town, named after the Provincial Treasurer, has been practically wiped out.

The flames were discovered about 10 o'clock at night in the Abitibi Hotel, and, spreading rapidly, quickly leaped to adjoining buildings, and without fire appliances of any kind quickly burned.

Buildings with living rooms overhead were soon licked up by the flames. A locked brigade was formed and worked manfully between the river close by and the burning buildings, but little could be done to check the flames, the buildings being mainly of frame construction. Covered by newspaper, W. James was injured, but not seriously. The T. & N. O. Railway station escaped the flames.

The loss will approximate \$75,000, with no insurance. Among the fire sufferers are Revillon Bros., fur traders and general merchants; Rothschild Bros., dry goods; Taylor, hardware store; John Clark, general store; R. A. Douglas, drug store and post office; Syrian colony and Chinese laundry. The origin is unknown.

Uxbridge, Oct. 24.—Bush fires are raging in the surrounding country. Valuable timber sections are in danger, as well as farming properties.

At Udon, a village to the north of here, a fierce fire is raging, which up to the present has destroyed fences and is creeping close to several large barns. People in the neighborhood are fighting it day and night.

At Zephyr a village to the northwest, a number of men are watching the station to prevent the fire spreading to the elevators. Large clouds of smoke continually pass over this town.

Three Daring Burglars.
Newark, N.J., Oct. 24.—Three masked men cut the telephone wires outside of the fine Perkins' home at Morristown, yesterday entered the house, knocked down one of the three maid servants, attacked and choked Mrs. P. W. Miller, a sister of the three Misses Perkins, who were in the house, and then ransacked the place.

The robbers, who are believed to be the ones who cut the wires and looted the home of Banker H. B. March in Orange a few nights ago, obtained at least \$2,000 worth of jewelry in the Perkins' house and some money.

Murderer's Sanity.
Vancouver, B.C., Oct. 24.—A plea of insanity will be the defence of James Jenkins, the negro accused of the murder of Mrs. Mary Morrison near Hazelton. The trial opened at New Westminster yesterday.

Thursday evening a board of physicians appeared to make an examination of the prisoner. The physicians decided that Jenkins was sane, but his mentality is weak.

W. G. McQuarrie is the defence counsel, having been appointed by the court. Chief Justice Hunter is hearing the case.

FIGHTING THE FLAMES
SMALL ARMY OF MEN TRYING TO SAVE PENNSYLVANIA COLLEGE LIBRARY.
Cannonsburg, Pa., Oct. 25.—While directing the men who are fighting fire that broke out yesterday in the Pittsburgh-Buffalo Company's Hazel mine near here, H. P. Jones, general manager of the company, was overcome by smoke, and had to be taken from the scene in an ambulance.

Three shifts of fifty men each are battling with the blaze, but the heat is so intense that they can work but five minutes at a time. The fire fighters are gaining slowly on the flames, and expect to have them controlled by to-morrow. The damage is said to be heavy but officials will make no estimate to-night.

TO BE MADE IN CANADA
THE NEW RURAL MAIL DELIVERY BOXES.
Quebec, Oct. 24.—Hon. Rodolphe Lennox, Postmaster-General, has issued the following statement:—"With reference to the comments which have recently appeared in a section of the public press in regard to the Postoffice Department having obtained a supply of rural mail delivery equipment in the United States, I would say that in consequence of the Government's determination to at once inaugurate a system of rural mail delivery in Canada, and as no rural mail delivery equipment was immediately available in the Dominion owing to the fact that none of the Canadian manufacturers had made a specialty of this class of work, a very limited order for immediate delivery was placed with a United States concern, it being distinctly stipulated, however, that if the patented rural boxes and equipment proved entirely satisfactory to the department and the public all of the work in connection with future orders must be undertaken in Canada."

"It will be observed, therefore, that the Postoffice Department has, following up its long-standing policy of using only articles of home manufacture as far as possible, safeguarded the interests of our Canadian manufacturers and artisans, while it has taken a great forward step in making provision for the immediate rural delivery which will prove a great boon to the farmer."

TORNADO WORKS HAVOC

Town Reported Destroyed in Terrible Storm in Nicaragua.

Managua, Nicaragua, Oct. 28.—A great storm has prevailed throughout Nicaragua since Saturday morning. Heavy losses are reported, but as all telegraph and telephone communications have been interrupted and the railroads badly damaged, it is impossible to state how far-reaching the storm has been.

Advices received here, however, say that the town of Rio Grande, on the Atlantic coast, has been destroyed.

New Orleans, La., Oct. 28.—A cablegram indicating that few white persons lived in the hurricane-swept district of the Nicaraguan-Caribbean coast was received here yesterday. This message said the damage had been confined to the Grant River and Prinz a Pulca district.

How the natives of this section fared was not known when the cable was sent.

RESERVES ORDERED OUT

Servia Orders Munitions of War—Filibustering Turb Seized.

London, Oct. 26.—A despatch to The Daily Mail from Belgrade says that the Servian Government has called out all the first reserves and ordered Maxim guns and 400 military automobiles. According to this despatch, King Peter has informed the Turkish Minister that an alliance probably has been concluded between Servia and Montenegro, but that this in no way interfered with the friendship of these countries for Turkey.

Vienna, Oct. 26.—A large consignment of fuses for shells was seized by the Austrian authorities Saturday on Danube at Linz. The war material was on board a steam tug and was on its way from Bavaria to Servia.

MOTHER AND BOY DIE

Winnipeg Woman and Son Victims of Coal Oil Disaster.

Winnipeg, Oct. 23.—A terrible accident, which resulted in two deaths, occurred Saturday morning, when Mrs. I. Holmes attempted to light a fire with coal oil. The can exploded, igniting her clothing. Her only son, a lad about twelve years of age, rushed to her assistance, and in an heroic attempt to save his mother was fatally burned himself. Both died later in the hospital.

Russia is Determined

New York, Oct. 26.—The intention of the Russian Government to exhaust every resource in the effort to bring Jan J. Pouden, the alleged revolutionary, back to Russia for trial on charges of murder, arson and robbery was shown when counsel for the Russian Government obtained a new warrant for Pouden's arrest.

Pouden was first arrested in this city in January. He is about to be deported when an appeal was made to President Roosevelt on the ground that Pouden was a political offender, not a criminal, and a rehearing was ordered by Secretary of State Root. Saturday Mr. Root refused to grant the extradition of Pouden. To-day counsel for Russia secured the new warrant.

VENEZUELAN SEIZE SHIP

British Schooner Trading in Caribbean is Confiscated.

St. Vincent, B.W.I., Oct. 26.—Word has been received here of the seizure several weeks ago by the Venezuelan authorities of a British trading vessel at Margarita, an island in the Caribbean Sea, belonging to Venezuela, and the imprisonment of the crew.

The St. Vincent schooner Lady Kensington, carrying live stock and vegetables for Trinidad, after sighting the Dragon's Mouth, was becalmed. The schooner was carried far out of her course and while drifting off Margarita was seized by Venezuelan authorities. This occurred on Aug. 23, and the crew and passengers have been detained as prisoners ever since.

The owner of the vessel has just received, through the Trinidad agent, a letter from the captain of the Lady Kensington, dated Sept. 25, in which he says:

"We are still imprisoned. Our own provisions have been exhausted and the Government says that it has no food to give us."

The governor of Trinidad has communicated with Sir Vincent Corbett, the British Minister at Caracas.

MAIL BOAT WRECKED

Steamer Iroquois of Little Current Goes on the Rocks.

Little Current, Oct. 26.—The mail steamer Iroquois Saturday morning, on a rock near Spanish Mills, running at nearly full speed in fog and smoke. She listed over until the promenade deck was under water, the stove and lanterns were upset and set fire to the boat. J. & S. Charlton's tug Fraser, working on a boom near by, heard the signals of distress and came and picked up the passengers and crew, who had taken to the lifeboats, three bags of mail were all that were saved. The passengers lost their baggage, and the crew lost everything they had on board. The steamer was a strong, worthy boat, and belonged to T. C. Simms, Little Current.

Eats Apple and Dies

Ottawa, Oct. 26.—Alfred H. Calder, a young man locally known as "Swiss," died of a peculiar death yesterday morning, according to the story told by his room-mate.

After a customary evening's jollification, the two retired to rest at their boarding-house on Williams street. In the middle of the night Calder is said to have asked for an apple which his room-mate gave him. Later on he was awakened by the peculiar breathing of Calder, who expired soon after.

While there is a possibility that Calder choked to death with the apple, Coroner Dr. Baptie is not satisfied with this version of the incident and will hold a post-mortem examination.

A CURE FOR RHEUMATISM

The Trouble Yields to the Rich, Red Blood Dr. Williams' Pink Pills Actually Mase.

Ask any doctor and he will tell you that rheumatism is rooted in the blood; that nothing can cure it that does not reach the blood. It is sheer waste of money and time to try to cure rheumatism with liniments and lotions that only go skin deep. You can speedily cure rheumatism with Dr. Williams' Pink Pills, which enrich the blood, drive out the poisonous acid and loosen the stiffened, aching joints. Among thousands of rheumatic sufferers cured by Dr. Williams' Pink Pills is Mr. W. A. Taylor, Newcastle, N. B., who says:—"For a number of years I was a great sufferer from rheumatism, which seated in my shoulders and knee joints. I tried liniments and blistering, but with no effect. In fact, the trouble was getting worse, and my knee joints grew so stiff that they would snap if I stooped, and I could scarcely straighten up. Altogether I was a terrible sufferer, and nothing I did or took gave me any relief until I began the use of Dr. Williams' Pink Pills. I took the Pills steadily for a couple of months and every vestige of the trouble disappeared. That was two years ago, and as I have had no return of the trouble I feel safe in assuming that the cure is permanent."

Nine-tenths of the common ailments that afflict humanity are due to bad blood, and as Dr. Williams' Pink Pills actually make new blood, this is the reason they cure so many different troubles, such as anæmia, indigestion, rheumatism, neuritis, neuralgia, St. Vitus dance, paralysis, and the ailments of girlhood and womanhood, with all their distressing headaches, backaches and irregularities. Sold by all medicine dealers, or by mail at 50c a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Killed by Thresher

Guelph, Oct. 26.—As a result of injuries sustained Friday night while moving a threshing outfit, George Henlock Young died at the General Hospital between 1 and 2 o'clock yesterday afternoon.

Mr. Young was standing in such a position that the steering rod on the engine which was being moved into the barn, was literally driven through his body. It was said that the accident was due to his losing control of the engine. He was 36 years of age and married, leaving his wife and one son of nine years.

Orville Wright Recovering

Washington, Oct. 26.—Orville Wright, the aeronaut who narrowly escaped death in the accident to his aeroplane during a flight at Fort Meyer, Va., five weeks ago, will soon be able to leave for him home at Dayton, Ohio. His most serious injury was a broken thigh, and the splint was removed from this yesterday. It was found on measurement that the bone was one inch shorter than the other. An X-ray examination of the fracture showed that the knitting of the broken bones has been perfect.

Eastern Bank Looted

Montreal, Oct. 26.—Advices from St. Raphael, some fifty miles below Quebec, say the branch of the Provincial Bank there was broken into, and the sum of \$4,500 carried off.

The bank is insured against all loss and the provincial detectives are after the robbers, who are thought to be the same being connected with the eastern townships and Quebec for some time past.

Australia to Control Labor

London, Oct. 26.—(C.A.P.)—At Melbourne the drafting of a bill for the constitution for the purpose of legalizing the new protection, has been completed. Deakin's proposals involve control of the conditions of employment of all protected industries in the fullest sense of the word, embracing a minimum of wages, regulation of hours and limitations of boy labor.

Converted by Medicine

A woman missionary who was also a doctor had a curious experience in Burma, where upon her arrival she found a village community dying of like illness with cholera. She made a house to house inspection, administered a specific and, having broken the back of the malady, left behind her several bottles of the medicine to be used during her absence. Upon her return the head man cheered her heart by the greeting: "Teacher, we have come over to your side. The medicine did us so much good that we have accepted your word." He led her to his house and into the apartment sacred to his worship. There, arrayed upon the shelf, were the medicine bottles, and he, with all his household, instantly bowed down and prayed to him with thankful and contrite hearts.

Fest of the Garlands

In several of the more remote Swiss regions there is held what is known as the "fest of the garlands." The marriageable maidens assemble at sunset, sing, dance and make merry. Each wears a chaplet of flowers on her forehead and carries a nosegay tied with bright colored ribbon in her hands. If a lad is attracted by a maid he plucks a flower from her bunch. She pretends not to notice, but when the merry-making breaks up at dawn she will, if she reciprocates his feelings, tie the entire bouquet by the ribbon to the handle of the door of the cabin where he resides or alternatively fling it through the open casement of his
