Trustee Board Discussed the Question and Also That of Teaching Music.

kins and Messrs. Jay, Lewis, Bishop, Riddle and McKeown. Trustee Jay was in the chair. Among other matters under discussion were the curfew question, school attendance, medical inspection of schools, the appointment of a competent teacher of music, and the possibility of inaugurating an advanced course of teaching in physics, including in the schools in the way of repairs should attendance with the schools in the way of repairs should attendance with the school attendance and that such a course as they were considering would especially fit them for land surveying or civil enging directed to teaching the Tonic Sol Fa and two years to the staff notation. The object of this was to enable the pupils to get a thorough ground-work in the value and intervals of music in order that they become proficient vocalists in the staff notation, work in the value and intervals of music in order that they become proficient vocalists in the staff notation, because this was the universal language of music.

Central school.

Mrs. Jenkins called attention to the viz., a course of five years, three years being directed to teaching the Tonic Sol Fa and two years to the staff notation. The object of this was to enable the pupils to get a thorough ground-work in the value and intervals of music in order that they become proficient vocalists in the staff notation. The object of this was to enable the pupils to get a thorough ground-work in the value and intervals of music in order that they become proficient vocalists in the staff notation. The object of this was to enable the pupils to get a thorough ground-work in the value and intervals of music in order that they become proficient vocalists in the staff notation. The object of this was to enable the pupils to get a thorough ground-work in the value and intervals of music in order that they become proficient vocalists in the staff notation. The object of this was to enable the pupils to get a thorough ground-work in the pupils to get a thorough ground-work in the pupils to get a thoro

a competent teacher of music, and the possibility of inaugurating an advanced course of teaching in physics, including the higher mathematics and applied science supplemented by courses for advanced drawing. It was thought that these two latter would specially meet the peculiar conditions of the Island in its demand for more highly trained men.

The secretary, Dr. Eaton, said he had two communications to bring before the notice of the board and two communications to bring before the notice of the board and the force swarf was from Bishop Perrin, drawing attention to a report submitted to him by the Friendiy Help committee of the diocese on the urgent need of the expense of renovating the sked with those children who through either the study of the parents or their own and the force of their environments, were not attending school to their own detriment and moral loss.

The second communication from Mrs. Roberts of the Home Nursing Society which society in their daily routine of duty in visiting the sick, were personal communication who did not furnish the staff motation, because this was the universal late when the swas the universal late because this was the universal late when the same the universal late schools in the way of repairs should like to radiate when the notice of the board at the schools in the way of repairs should be challed by the staff that a full report of the board in this demand for more highly trained mine.

The secretary, Dr. Eaton, said he had two communications to bring before the notice of the board to appoint a three years the round separation that the survey many of the desks now in use the profile of the matter, which was from Bishop Perrin, drawing at the very many of the desks now in use the profile of the control of the control of the public of the parents of the cut of the parents of the would expense of renovating the profile of the possible profile

LACK OF ENERGY.

COMMON TROUBLE AMONG GROWING BOYS-A NEW BLOOD SUPPLY IS NEEDED-DR. WIL-LIAM'S PINK PILLS ACTUALLY MAKE NEW BLOOD.

There are thousands of young men just approaching manhood who have no energy, who tire out at the least exertion, and who feel by the time they have done their day's work as though the day was a week long. In some of these cases there is a further sign of warning in the pimples and disfiguring untions which break out on the face These are certain signs that the blood is out of order, and unless it is prompt y enriched, a complete breakdown, or perhaps consumption may be the re sult. All these young men should take Dr. Williams' Pink Pills. These pills actually make rich, red blood, clear the skin of pimples and eruptions, and bring health, strength and energy. Here is a bit of proof. Adolphe Rolland, St. Jerome, Que., is a young man of 19 years, who says: "For more than a clerk. My appetite failed me, I had oc-casional violent headaches, and I beban to suffer from indigestion. I was failing so rapidly that I began to fear that consumption was fastening itself me, but I did not gain under his care.
