BURNED AT STAKE.

Negro Who Assaulted Young Lady Was Roasted By a Mob.

CLAYTON, Miss., July 17.—Wm. Ody, a negro, who last night attempted to assault Miss Virginia Tucker of this place, was burned at the stake at midnight. The assault was most brutal. The young lady was riding in the country when she was attacked and was so violently pulled from her buggy by the negro that both her legs were broken. The scene of the assault was a lonely spot in a country road. Ody hailed Miss Tucker with the information that she had dropped a package. She stopped the horse and the negro approached as if to pick up the supposed package. He seized the girl's wrist and dragged her violently from the vehicle, both her legs being broken in the fall. Miss Tucker screamed and was found a few moments later by a doctor who was driving by. She is now said to be at the point of death. After Ody's capture by the posse a mob quickly formed and took charge of the prisoner. He was brought before Miss Tucker, who positively identified him. Ody was taken to a spot near the scene of the assault and a bonfire was built about a tree. He was told to prepare for death. When the sun of his execution became apparent the prisoner begged for mercy. He was securely bound, oil was poured over his clothing, and in a short time only his charred bones marked the spot of execution.

THE DEATH ROLL.

An Expert on Insanity Went Mad Himself.

OMAHA, Neb., July 17.—Very Rev. William Choka, vicar general of the Roman Catholic diocese of Nebraska, is dead in St. Joseph's hospital. Father Choka has been in the diocese for seventeen years and was one of the best known priests in the west. He had charge of all the Bohemian churches in Nebraska. The interment will be at Monterey cemetery. CHICAGO, Ill., July 17.—Dr. Emmett Enos is dead at the Elgin insane asylum. Dr. Enos was chief of the medical staff of the Kankakee insane hospital for five years prior to his resignation last February when he felt his mind giving way. He diagnosed his own case and hoped by leading a quiet life his faculties would be restored. He engaged in medical practice in Herscher, but became violently insane there on May 20 and a few days later was committed to Elgin. The assigned cause of Dr. Enos' insanity was a physical injury of 15 years' standing. Dr. Enos was 33 years old and leaves a wife and two children.

A FRIAR TALKS.

Intimates That Uncle Sam Has Plenty of Trouble Ahead.

ROME, July 17.—Father Santiago Paya, provincial of the Dominicans in the Philippines, who is staying here, when informed by the correspondent of the Associated Press of the result of Governor Taft's negotiations with the Vatican on the subject of the friars and their lands, expressed satisfaction at the acceptance of the first proposal of Cardinal Rampolla, the papal secretary of state, that the matter be discussed at Manila between an apostolic delegate and the governor in Manila. When asked what was likely to be the outcome, Father Paya replied: "It is more important to know what will be the outcome of the matters between the Americans and Filipinos. Although the war is almost over, the Filipinos now protest friendship for the Americans, they in reality dislike them just as they disliked the Spaniards. The Filipinos say they did not struggle against Spain to calmly surrender their independence. Father Paya concluded with declaring that it was not true that the people were against the friars. The latter, he further asserted were hated only by the native clergy and a fraction of the people.

FREDERICTON.

(Special to the Star.) FREDERICTON, July 17.—Argument in People's Bank of Halifax v. Estey, to have been made today, was adjourned to July 30th. The examination of Wesley Kinney, of North Lake, on a charge of rape, is going on before Judge Marsh. The girl's evidence is very direct and unshaken by cross examination. It is thought the prisoner will be committed for trial.

E. D. DAVISON, M. P. P. Stricken With Paralysis and Dangerously Ill.

(Halifax Recorder, Wednesday.) Yesterday E. D. Davison, M. P. P., Bridgewater, accompanied by Rod McColl, assistant provincial engineer, went down the LaHave river to inspect bridges and other government works. At Cherry Hill they stopped for dinner. At the table Mr. Davison became suddenly ill and soon afterwards became unconscious. A physician was summoned and Mr. Davison was given every attention, but at a late hour last night had not recovered consciousness, suffering from a stroke of paralysis. Last spring while at work in his mill Mr. Davison received a serious blow on his head, which incapacitated him for some time, and it is believed that his present illness is due to the effects of that injury. A special despatch to the Recorder from Bridgewater at four o'clock this afternoon, says: "Mr. Davison still lies in a very serious and dangerous condition, and there is little hope of his recovery."

LONDON CABLE.

A Meeting of the British Cabinet Held Today.

Chamberlain Out Again—The King's Health—Edinburgh Honors Laurier—Irish M. P. Dead.

LONDON, July 17.—The reports regarding King Edward's health continue to be most satisfactory. He will remain on the royal yacht off Cowes until August 8 and will return to the roads after the coronation. It has been definitely decided that the British fleet will re-assemble off Portsmouth for the coronation review. The Japanese squadron has been instructed to return there and it is understood that other foreign countries will also be represented. CABINET MEETING. The premier, A. J. Balfour, presided today in the foreign office at the first cabinet meeting of the new administration. The colonial secretary, Joseph Chamberlain, was sufficiently recovered from the effects of the cab accident, which disabled him, to be able to attend, though he discarded his hansom in favor of a more luxurious carriage. He was pale, and wore a soft felt hat. Otherwise he showed no signs of his injuries. The meeting of the cabinet gave fresh impetus to the reconstruction reports. One of these is the suggestion that the Duke of Marlborough will succeed Lord Curzon of Kedleston as viceroy of India. But there is not the least possibility of any such appointment. It appears very doubtful if Lord Curzon will come home before the expiration of his term of office. As a matter of fact there is no appointment which could be offered him, except the foreign office, and there is no indication that Lord Lansdowne has any intention of retiring. Under no circumstances, however, would the Duke of Marlborough be given such an important post as India, though he might possibly succeed Earl Cadogan as lord lieutenant of Ireland. All suggestions in regard to appointments are still of a highly tentative character.

THE PRICE OF BREAD.

(Toronto Globe.) An increase in the price of bread from eight to ten cents for a large loaf from four to five cents for a small one will go into effect in Toronto immediately. This was decided on after the grocers' section of the Retail Merchants' Association had heard the statements made to them last night by a committee from the bakers' section. The bakers said that their employees were now demanding a nine hour day and increased wages, and these requests could not be acceded to if the prevailing prices for bread were maintained. One baker, who does a yearly business of \$20,000, made the statement that his profits last year did not exceed \$900. It was also decided that bread for sale at the groceries should not be returned to the bakers if unsold, as is the case under existing conditions.

A HAIL STORM

Caused Hundreds of Thousands of Dollars Damage to Crops.

ST. PAUL, Minn., July 17.—While it now seems practically certain that no lives were lost in the terrific storm that devastated a portion of the Red River Valley Tuesday night, the loss to farmers will be heavy. Hardly a farm in the pathway of the storm, and it was almost a hundred miles long by ten wide, but had some buildings either demolished or damaged. The loss to the wheat crop is reported to have been very heavy. Thousands of acres of wheat were literally beaten into the ground by the hail that accompanied the wind and rain. In some places every vestige of the crop was wiped out. It is as yet impossible to make anything approximating a correct estimate of the damage done, but it will doubtless be in the hundreds of thousands of dollars.

A TERRIBLE JOURNEY.

Left Paris Dec. 19th, Crossed Siberia and on to Dawson.

SEATTLE, Wash., July 16.—A special to the Times from Dawson, says: "Harry Dewindt, of Paris, traveller, explorer, author, journalist and globe-trotter, arrived with a party from Siberia on a river steamer last night. Dewindt's companions are Viscount Deslinchams Belgrade of Paris; Geo. Harding, an Englishman, and Stephen R. Astorguyef, a Russian from Yakutsk, Siberia, who the government insisted should accompany Dewindt through the wilds of Siberia. Dewindt and his party left Paris Dec. 19, and when interviewed last night, told of harrowing experiences with cold and hunger. The party reports famine among the natives at Nijinskobynsk.

FOR NOVA SCOTIA COAL.

PROVIDENCE, R. I., July 16.—The Providence three masted schooner Earl P. Mason, Captain W. T. Blake, will sail tomorrow from Fall River, for Parrsboro, N. S., to load Canadian coal for Portland. The well known vessel is forced to make this unusual charter because of lack of business on the coast which results from the strike in the Anthracite mines.

PARIS WELCOME TO LAURIER.

Premier Will Endeavor to Promote French Immigration to Canada. The special correspondent of the Montreal Patrie in Paris says that extensive preparations are being made in the French capital for the reception to Sir Wilfrid Laurier. Hector Fabre, the Canadian representative in Paris, has spent several days in London, where he went to confer with Sir Wilfrid Laurier. The principal feature of the Paris reception will be a big banquet, to which many leading Frenchmen will be invited to meet Sir Wilfrid Laurier. Among those who have accepted invitations are the Messrs. Fabrier and Bourgeois, presidents respectively of the senate and the chamber of deputies; Siegfried, De Ville, Godin and other deputies. The banquet will take place on the 19th. It is said that Sir Wilfrid Laurier during his stay in the French capital will devote considerable attention to the question of immigration from France to Canada.

BEEF ON THE HOOF.

In consequence of the warm weather the wholesale butchers have commenced importing live instead of dressed beef from Ontario. The latter was seldom received here until at least a week after it had been killed and it was usually in stock here for two weeks longer. This was all right during the cold weather, but under the present conditions three weeks is a little too long. On Monday last twenty head of cattle were brought here and another shipment is due this week. The price which still remains about the same will not be any higher as the freight charges for live cattle will amount to about the same as for dressed beef.

Mrs. Groulund and little daughter left last evening for Calgary, where Rev. Mr. Groulund has still to reside on account of his health.
