

A NEW MACHINE

OF SUPERIOR MERIT

No. 6 $\frac{1}{2}$ Planer, Matcher and Moulder

Planes 24 ins. wide, 8 ins. thick; matches 14 ins. wide. Table rises and lowers by hand or power. Weight, 4,500 lbs.

This is one of our best selling machines, built from entirely new patterns, heavy and substantial in all its parts and sold at a moderate price. Since being placed on the market it has met with decided favor among millmen and has given universal satisfaction.

TORONTO, April, 1908.

The No. 6 $\frac{1}{2}$ Planer, Matcher and Moulder has given good satisfaction so far. The work done on it has been good.

PHIPPEN BROS.

HOSMER, B.C., April 1908

Re the No. 6 $\frac{1}{2}$ Planer, Matcher and Moulder, would say that we have same installed in our mill and wish to state that same is giving universal satisfaction.

THE HOSMER MINES.
