

Westinghouse Type R. C. Receiving Set

For Forestry Workers, Prospectors and Trappers Radio affords a new means of communication with the outside world. Radio is here to stay and powerful broadcasting stations are being established everywhere.

Take advantage of Radio by using a Westinghouse Receiving Set.

Westinghouse Type R. C. Receiving set, illustrated above, is a highly sensitive long-distance receiver. Valve Set, Embracing Armstrong Regenerative Circuit, tuner and two stage amplifier.

Westinghouse Aeriola Senior is a medium range receiving set which gives good results. Valve set makes use of Armstrong Regenerative Circuit. The combination of the Aeriola Senior set with our new two-stage Audio Frequency Amplifier which may be readily attached, is remarkable in its all around efficiency.

Westinghouse Sets are complete and ready to use
