Dear Sirs:-

We have our second car of stock about ready to ship, and will be prepared to ship about the first week of December, unless you otherwise advise. Please advise me in this respect.

I might say that we have settled up with our members and patrons in the first car, and they are highly satisfied, everyone receiving more for his stock than he really expected. There was not a kick in connection with the whole car, and I expect a steady increase in business from now on.

Thanking you for your service, I remain,

Yours truly,
