

EDITOR'S NOTE.

The collection of data for these Records was commenced some years ago by a committee consisting of Maynard Parker Freeman, of the class of 1862, and William Frederick Parker, of the class of 1881, working under the direction of the Senate of Acadia University. These gentlemen collected the data concerning the graduates from 1843 to 1886 inclusive. Later, Rupert Osgood Morse, of the class of 1891, was added to this committee. It fell to him to collect the data for all graduates since 1887. The older members of the committee passed their data over to Mr. Morse to tabulate and put into form corresponding to that in which the records of the younger graduates were written. Mr. Morse thus becomes the editor of the entire "Records." It has been the aim to bring these Records as nearly as possible down to date. In some instances, the Record is very incomplete because data was impossible to obtain. In some cases, an undue modesty has prevented some, who have achieved creditable records, from giving sufficient data from which to write a really good record of their work. The Records, as written, represent the latest available data, and give the latest known addresses. Several of the addresses have, doubtless, changed since the data was received. This is especially true of the most recent graduates, many of whom are still engaged in temporary pursuits and have as yet no permanent employment and address.

The task of gathering the records of eight hundred men and women, the dates of whose graduation range from 1843 to 1908, can best be estimated by those who have attempted such work. In such a work, inaccuracies are inevitable. The editor craves the indulgence of any whose Records are inaccurate or incomplete. He will also be greatly obliged for any information which will make possible more correct and more complete Records in any future work of this kind that may be issued.

All graduates will confer a favor upon their Alma Mater by keeping the Registrar of Acadia University informed as to changes of address.

RUPERT OSGOOD MORSE.

Editor of Records.

Westport, N. S.
