

Alabama Needs 50,000 Farmers

Dairymen and stock raisers to supply her local markets with butter, poultry, vegetables, hogs and cattle. The best lands in the world can be had at \$5.00 to \$50.00 per acre. Let us help you to get a farm in Alabama, where the climate is delightful, where you can raise crops each year on the same land, and find a ready market for same. We are supported by the State and sell no lands. Write for information and literature.

Montgomery, Alabama

160 ACRES of LAND FOR THE SETTLER

Large areas of rich agricultural lands, convenient to rail ways, are now available for settlement in Northern Ontario.

The soil is rich and productive and covered with valuable timber.

For full information regarding homestead regulations, and special colonization rates to settlers, write

The Director of Colonization

Department of Agriculture,

TORONTO

DAIRYMEN, BUILDERS—

Write me for plan of most practical satisfactory and inexpensive Stanchion and Watering System in the world. Address: L. L. CRANDALL, PICTON, ONT.

AN INTERPROVINCIAL PRIZE DAIY FARM COMPETITION

Another dairy farms competition, similar to the one held so successfully during 1909 and 1910, will be held this year (1911) throughout Ontario and in the Beaufort District, Quebec. The contest will be continued during 1912, and possibly during 1913, to decide the best dairy farms and farmers in the provinces. The competition will be conducted by FARM AND DAIRY, of Peterboro, Ont., the only farm and dairy paper published in Canada, assisted by a committee of prominent farmers and dairymen.

FIFTY HANDSOME PRIZES

During 1911 Ontario will be divided into four districts, which with the Beaufort District, Que., will make five districts in all. A special competition will be held in each district. Ten handsome prizes will be offered in each of these divisions or 50 in all. Next year (1912) it is proposed to hold a final or semi-final competition between the leading prize winning farms in each of these five districts to decide the best dairy farms in all these districts. A special prize will be offered for the best dairy farm in Ontario and another prize for the farm either in Quebec or Ontario that scores the most points in an inter-provincial contest.

In this year's contest (1911) the first five prize winning farms in the provincial contest held in Ontario during 1910, as well as the four farms that won the first prizes in their districts in 1909, will not be allowed to take part.

THE DISTRICTS

The five districts in which contests will be held this year (1911) will be approximately as follows:

DISTRICT No. 1.—The Beaufort District, Que., comprising the counties of Beaufort, Chateaugay and Hebert.

DISTRICT No. 2.—That portion of Eastern Ontario lying East of a line running North from Kingston.

DISTRICT No. 3.—The counties in Eastern Ontario between Kingston and Yonge St., Toronto.

DISTRICT No. 4.—Western Ontario, North of a line running from Hamilton to Goderich.

DISTRICT No. 5.—Western Ontario, South of a line running from Hamilton to Goderich.

For further particulars, entry forms, etc., write the Secretary of the Committee,
H. B. COWAN, FARM & DAIRY, PETERBORO, ONT.

OUR FARMERS' CLUB

Correspondence Invited

PRINCE EDWARD ISLAND

KING'S COUNTY, P.E.I.
CARDIGAN BRIDGE, April 28.—We are having a very backward spring. The snow is nearly all gone, but the weather keeps cold. Feed is plentiful, and live stock generally are in good condition. There will not be much work done on the land up to the middle of May, unless weather comes in warmer. A few farmers are sowing early, but are not getting out sufficiently. Others are clearing their seed grain. Great care is taken by our farmers in getting the best seed and meaning it as carefully as our modern separators will do it, as proved by the fine showing of seed grain at our county fair this past winter. Potatoes are scarce at 50c a bush; fat cattle and steers scarce at 4c to 5c live weight. Horses are in good demand at \$100 to \$250.—H. P.

QUEBEC

COMPTON CENTRE, QUEBEC
COMPTON, May 1.—We are having fine weather. Sowing is well advanced and farmers have made from one to one and one-half lbs. a tree so far, and it is to be expected that the crop will be a lb.—H. G. O.

ONTARIO

CARLETON CO., ONT.
BRITANNIA RAY, May 2.—A very dry spell has kept the grass back but a shower yesterday brightened things up. The ground got very dry. Seeding has commenced, the ground working very nicely. New meadows look extra well. This spring

has been a record for maple syrup. The sap is still running. Maple syrup sells for \$1.25 a gal. Veal has taken a drop.—J. A. D.

LEEDS CO., ONT.

FRANKVILLE, May 1.—The contractors that are building the new C. P. R. line through this section have got to work in this spring and summer. Feed has been plentiful, and the stock is coming through the winter in excellent condition. The market for fat stock has a downward tendency. Hogs are selling at \$6 a cwt.; beef cattle, \$5.25 to \$6 for good—W. M. GANANQUE, May 3.—We are having a very early spell with snow and rain. Most farmers have considerable grain saved. There appears to be more milk going into the factories this year than last year. There are prospects of a good hay crop especially new seedling. Hay is selling at \$7 to \$8; oats, 35c; potatoes, \$1 a bag; eggs, 15c; butter, 25c.—C. H. C.

HASTINGS CO., ONT.

CHAPMAN, May 3.—Spring seeding is well advanced. Soil is in good condition. Clover in most cases stood the winter well, but meadows are starting somewhat slowly. Cheese factories have started again, with the milk supply below that of last year. Some farmers are shipping their cream to Toronto. Hogs have dropped to 6c a lb.—H. S. T.

NORTHUMBERLAND CO., ONT.

CASTLETON, May 1.—We are having a very late spring, but the farmers are getting along very well with the spring work. Cattle have wintered very well and feed is plentiful. Fall grain has wintered well. Cows are selling for good figures, especially Holsteins. There was not much syrup made.—H. P. M.

BRITISH CO., ONT.

PORT HOPE, May 4.—There is a revival of interest in orcharding this spring. More pruning and spraying is being done than ever before. Our District Representative,

Mr. R. S. Duncan, has established four demonstration orchards, one on the farm of Mr. Jas. Stanley, at Bowmanville, another on the farm of Mr. Nathaniel Nichols at Wellesboro, one on Mr. W. G. Noble's farm at Port Hope, and one on Mr. J. W. McConnell's place at Colborne.—J. P.

SIMCOE CO., ONT.

ELMVALE, May 3.—The cold, wet winds of the past few weeks have retarded the state of the winter wheat. The winter was not favorable, but had the spring been so dry, the wheat would have been ruined. As it is, probably there will not be more than 30 per cent. of the winter wheat that is in good condition yet. Live stock are in good condition. Hay is selling at \$9 to \$10. Apparently there is a considerable quantity held by farmers.—C. S. B.

WELLAND CO., ONT.

STONE QUARRY, May 1.—The second cow testing association in Bertie township was organized at the Point A creamery, with a membership exceeding 25. Live stock in general have wintered well. A few cases of fatality have occurred early in the season. There is a sufficient supply of fodder for local requirements. Butcher shops are very busy. A rather backward spring finds seeding about one-half completed. More land will be seeded after the 1st of May. The wheat before Fall wheat and new meadows wintered well. The wheat, though in poor shape by frost, is getting on compared with last year. Meadows are making vigorous growth during the last of May, and a heavy hay crop is looked for.—C. S. B.

OXFORD CO., ONT.

GOLESPER, May 3.—We have had a week of early seeding weather. It is cold, with quite a hard frost last night. We have gotten along well with our seeding. A good part of it will be finished this week. Land is in good condition. This cold snap will stop the growth, but it will come stronger and will stand more dry weather. Stock is doing well. Many separate the milk at home and draw the cream to the factory. They are feeding the milk with the cream and hogs, and it pays better than drawing the whole milk.—A. M. M.

HURON CO., ONT.

GODERICH, May 3.—Ideal seeding weather prevailed during the last week of April and a good part of the seeding has already been done. As there was one heavy spring rain this year the heat would have no tendency to bake and dry the soil up into an excellent seed bed. The acreage seeded to alfalfa this year has increased, local seed dealers reporting nearly as large a sale of the seed as the Red Clover. Some cattle are already on grass but most farmers have sufficient hay to feed the milk cows. It is a better start. Live stock are in good condition.—D. G. S.

BRITISH COLUMBIA

NEW WESTMINSTER DIST., B.C.
CHILLIWACK, April 27.—The new hay crop in the meadows gives promise of an abundant crop. The cattle look well. The cherry trees are in blossom, but not the apple trees. Seeding is nearly over, though about one week before it will be all in. Eggs are in price. Duck eggs are \$6.—J. C.

SIMILAKEN DIST., B.C.

ALLA GROVE, April 27.—Ploughing and seeding are general. Quite a large number of fruit trees are being set this spring. A few of the cherry trees are cutting two crops off it, and then having good fall pasture. The spring is a little dry for fruit growing, but the trees are coming out in leaf now. Seed potatoes are \$5 a cwt.; seed oats, \$2.25 a cwt.; and wheat, \$2.50 to \$3. Fresh milk cows are \$70 to \$80.—L. A.

CANADIAN NATIONAL EXHIBITION, 1911

The prize list of the Canadian National Exhibition, August 25th to September 1st, has just been published. It shows that the prizes have been increased in nearly every department, till the grand total of prize money is \$1,000,000. It is given for manufacturers, the whole of this amount goes to live stock, dairy products, horticulture, woman's work, domestic exhibits and the like. The Canadian Industry. The increase in the amount given to live stock is particularly noteworthy. Not only is the prize money to the horses alone, while special prizes of \$500 each for the best animal in the Holstein and Shorthorn classes show that the cattle have been given special prizes. Poultry also gets an additional \$100. The prize list can be had by writing Manager J. O. Orr, City Hall, Toronto.
