

Learn How to Build a Barn Like This

Learn how to build the finest barn in your section. Learn how to make the foundations, build the walls and lay the floors. Learn to frame the barn by a method that saves half the cost of the old way. See how to install an effective, inexpensive ventilation system that will keep the stable free from odors and moisture. See how to lay out the stables and arrange the stalls and passages so floor space will be economized and many steps saved in doing the barn work. Find best sizes for stalls, box stalls, horse stalls, mangers, gutters, cattle-stands and passages. Learn all about Steel Stalls, Horse Stable Fittings, Manure Carriers, Water Bowls, Steel Hog Pens and complete equipment for the barn.

Barn Book Shows You How

It shows you how to build your barn from start to finish. You can do the work yourself, because every point is clearly illustrated with full-page photographs and blue-print working plans. It is not a mere catalogue, but a most elaborate and complete text on barn building and barn equipment. It contains 336 pages and over 75 views of modern barns. Photographs of up-to-date barns were obtained in all parts of this country and have been reproduced with full-page and double-page cuts, which show clearly every detail of construction. Many full-page blue-prints are given, and 14 working plans for model barns.

Send Coupon

Our Barn Book tells all about these things and many more. It is invaluable to any farmer who is building or remodelling his barn, and we will send it free for the coupon.

Free To every man who is building or remodelling his barn

The book is printed in colors and bound in hard covers. It is a work of reference you will prize and keep. It cost us thousands of dollars to prepare. The postage alone is a considerable item. The charge for the book is \$1.00, except for farmers who are building or remodelling barns, and they get one copy free.

If you are thinking of putting up a new barn, or think you would like to make over the stables under the old barn, send the coupon for your copy.

E. S. Archibald, Dominion Animal Husbandman, says: "It is one of the best gotten-up books

I have seen yet. I would certainly appreciate another copy of this for my own personal library, if you feel like sparing an extra copy."

F. E. McDiarmid, Minister of Public Works and Highways for Ontario, says: "It is a very valuable hand book for any one who is interested in stock, particularly dairying."

Many copies of this book have already been distributed. There are not a great many left. Make sure of your copy by sending for it to-day.
