By GEORGE STEWART, Jr. Author of "Evenings in the Library," "The Story of the Great Fire in St. John," etc. A Handsome Steel Portrait of the Earl o Dufferin forms the frontispiece of each volume. Agents wishing territory apply to or address-ROSE-BELFORD PUBLISHING CO.

Globe Lightning Rod Company London, Ontario.

J. F. MAHONPresident.
C. B. HUNTVice-President.
T. H. SMALLMAN Sec. and Treas.

Since buildings cannot be protected in any other way against lightning except by Good Conductors or Rods, and since the business of erecting lightning rods has been heretofore carried on by a class of wandering pedlars, known as "Lightning Rod Men," whose nefarious practices throughout the country have brought this laudable industry almost into disgrace, and well nigh shaken the confidence of the public in the utility clicklying rods this company has been incorshaken the condence of the public in the dutily of lightning rods, this company has been incorporated with a large capital, and established works at the city of London, to manufacture and erect lightning rods in a skilful and workman-

like manner.

The rods of this Company are made from pure copper, which has been proven by actual experiment to be the best conductor of lightning.

The office of a lightning rod is not to attract lightning, but to conduct it safely into the earth, as an eave trough conducts water from the roof of a building.

as an eave trough conducts water from the roof of a building.

Every rod is erected under the supervision of experienced mechanics, and a guarantee given to each purchaser, that the rods will protect buildings against destruction by lightning; failing to do so, the money will be refunded with interest thereon, at any time within ten years.

The works of the Company being permanently located, and the officers and stocholders being men of well known integrity and business ability, are guarantees to the public that all orders entrusted to the company will be faithfully and satisfactorily executed, and that the conductors

will fulfil the purposes for which they are con-Full opportunity is now afforded the people to

protect their homes against the ravages of ning, and rest firmly assured that no swindling will occur.

will occur.
Samples of rods can be seen at the Company's
City Office, 424 Richmond St., or at the Works,
King St., London, Ont.
This Company pays special attention to erecting Conductors on School Houses, Churches,
Halls and other Public Buildings. Orders solicited.

"CHAMPION"

Threshing Machine!

Improved for 1878.

Driven by Horse or Steam Power

OVER 3,000 IN USE IN CANADA.

We are now prepared to deliver on receipt of satisfactory orders our CELEBRATED HALL CHAMPION THRESHING MACHINE, to be driven by Horse or Steam Power. These machines have been without a rival for the past FIFTY YEARS, nearly all the other Threshing Machines are imitations of the Hall Machines, and have failed to give entire satisfaction. The Hall Machine has been the

Standard Threshing Machine

In the United States and Canada ever since introduced by the late JOSEPH HALL in 1828. The Hall Champion Threshing Machine has been gradually and carefully improved each year as experience proved wise and desirable. No changes have been hastily made and called improvements. The greatest possible care has been exercised in the construction of all the working parts of the machine so as to save the necessity of repair and prevent annoying delays which are caused by breakages. Nothing but the very best material has been used throughout the machine, and the workmanship is unsurpassed. Our machines are supplied with our

worth three times as much as the ordinary teeth. We can supply

Pitts, Planet, Pelton, or Hall Horse Fowers,

(cight or ten horse) either DOWN or MOUNTED on TRUCKS as customers may desire. Also TRUCKS built specially for SEPARATORS, with Broad Tires.

We are building a special machine for STEAM THRESHING—with 36 inch cylinder and 42 inch grain belt, and we also supply a Steam Engine which we guarantee to drive our Thresher in a first-class manner as rapidly as it can possibly be fed. Our Engine is made from the most improved model used throughout the United States, and gives universal satisfaction. It is simple in construction, easily and perfectly governed, and not liable to accidents or to get out of order, and all danger from stands outlight removed. sparks entirely removed
