

**Nervous Prostration
Sleeplessness
Palpitation of the Heart
Dizzy Spells**
Are all Cured by the Use of
**MILBURN'S
HEART and NERVE PILLS**

Mr. Peter Halstad, Tilley, Alta., writes "I take great pleasure in writing a few lines to tell you what your Heart and Nerve Pills have done for me. I had a long standing case of nervous prostration sleeplessness, palpitation of the heart and dizzy spells. I bought a box of the pills and they did me so much good I continued their use until I had used several boxes and they restored me to health again. They are a great remedy and I recommend them to all my friends."

Milburn's Heart and Nerve Pills are 50c. per box or 3 boxes for \$1.25 at all dealers, or will be mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Herbert German, St. George, Ont.

SUNNYSIDE CHESTER WHITE HOGS—I am now offering some very choice young things of both sexes, of breeding age. A few Shropshire sheep of both sexes. Also Red Cap cockerels and pullets.
W. E. WRIGHT, Gleanworth P.O., Ont.

Joe Cannon, at a Gridiron Club dinner, said of a famous millionaire:

"He owes his success to his resourcefulness. He turns every disaster into victory. Once, he told me a cow got into his garden and tramped down his geraniums."

"Oh, what a shame!" said I. "And what did you do?"

"I got a pail and milked her," he replied."

**QUESTIONS AND ANSWERS.
Miscellaneous.**

PURCHASE OF FARM.

We bought a farm last spring (1910), paying cash for same. The owner worked the place and took all the crop, including the orchard. Please advise in your next issue if he was entitled to the apples?
W. J. S.

Ans.—The facts with regard to the bargain are not stated sufficiently for us to venture an opinion.

ABOUT WATERMELONS.

1. How long should watermelon vines be allowed to grow?
2. Should all the blossoms be left on, or is it better to pinch some off?
3. How long will it be after blossoming until the melons are ripe?

Ans.—1. Watermelon vines should not be pinched off as those of muskmelons or cucumbers. If a vine is exceedingly long and slender, it might be pinched off to induce branching.

2. It would be better to thin the fruit on the vines soon after it is set. It is safer to thin the young fruit than to nip off the blossoms, because very often many of the blossoms will not produce fruit, and it might be that only these were left which would mean the loss of the vine as far as fruit is concerned.

3. This depends on the variety, whether early or late, and on the season and kind of soil on which the melons are grown. Planted after danger of frost is over, the fruit should mature in the late summer or early fall.

FALL PASTURE.

I have six acres fallow, clean, rich ground. I would like to sow the best thing for fall pasture for milk cows. What would you advise?
A. P.

Ans.—It is now too late to sow Prof. Zavitz's annual pasture mixture of 51 lbs. oats, 30 lbs. of Early Amber sugarcane, and 7 lbs. of Red clover, and, as the cows are producing milk, rape would be unsatisfactory, because it would taint the milk. Oats or rye, sown at about two bushels or more per acre, should come on well for pasture, provided the season is favorable. Sorghum, although a comparatively new crop, should give fair results if sown right away. It does better in dry, warm weather. It should not be pastured until the plants become established. If sown with the drill, about three pecks per acre is required, and a light harrowing when the blades appear, and again when the plants are from five to six inches high, aids growth. Care should be exercised when stock are first placed on it, as otherwise there may be danger of bloating on rich, moist soil, such as a fallow. It should produce considerable fall feed.

BAD COUGH.

I have a horse six years old, weighs 1,400 lbs., which has a bad cough that is worse in the morning, but shows very little when working. When listening to his breathing, there is a harsh sound as if there were some obstruction in the throat. Sometimes the breathing is followed by a short jerking motion. He does not run anything from the nose. He is in good condition, and a good feeder; is fed good hay and rolled oats, with one pailful of water three times a day, before each feed. What is wrong with the horse, and what will cure him?
S. D. J.

Ans.—The symptoms given indicate a chronic cough, which is developing into heaves. Heaves, when established, cannot be cured, but the cough, if taken in time, can be alleviated. Give a ball every morning composed of 1½ drams of powdered opium; 2 drams solid extract of belladonna; 1 dram of camphor, and 20 grains of digitalis; roll in tissue paper and administer, or dissolve in warm water and give as a drench. It would also be well to dampen all his feed with lime water, and avoid driving soon after a heavy meal. Continue watering before feeding, and feed only on the best of hay and oats, free from dirt or moldiness.

THE BETTER HALF.

Lawyer—"Am I to understand that your wife left your bed and board?"
Uncle Ephraim—"Not 'xactly, boss. She dun tuk mah bed an' 'ho'd along wif her."

**Rupture Cured
Without Operation**

No Hospital or Doctors' Bills; No loss of Time from Work, and Not a Single Penny to Pay if You Don't Get Better.

No longer any need to drag through life in the clutches of rupture.

No operation, no big expense to stand in your way. And not a single cent's worth of risk. Think of that!—you who have spent dollar after dollar without finding a thing that has done any good. You who have been afraid that some day you'd have to risk the dangers of operation—you who dread the surgeon's knife because you know it results in permanent weakness or death about as often as in recovery.

In the last 24 years more ruptured people have been cured without operation than by all the operations ever performed.

Cured without being in bed a single day—without losing a single hour from work.

Cured by the wonder-working Cluthe Truss (Cluthe Automatic Massager)—something so remarkably beneficial that in 99 cases out of every 100 relief is immediate, and in most cases cure begins at once. For this is far MORE than a truss—far more than merely a device for holding the rupture in place.

Try it at Our Risk.

We have so much faith in the Cluthe Truss that we are willing to let you prove, by trying it at our risk, just what it will do for you.

If it fails to hold your rupture securely in place, when working and at all other times—if it doesn't do you a world of good—then it won't cost you a single cent. All guaranteed in writing.

Cure Takes Place While You Work.

A Cluthe Truss—right from the first day—will put an end to all danger of your rupture coming out.

And, in addition—while you go on working, remember—it soon overcomes the weakness which is the real cause of rupture—

Does it by massaging the weak ruptured parts—All entirely automatically.

And this stimulating massage strengthens just as exercise strengthens a weak arm—in most cases soon makes the ruptured parts so strong that no sign of the rupture is left.

That is how the Cluthe Truss has cured some of the worst cases of rupture on record—cured many of them after everything else, including operation, had proven utterly useless.

Free Book Tells All About It.

So that you can judge for yourself, we want to send you—free—our cloth-bound book of advice.

It sums up all we have learned in 40 years of day-after-day experience. It deals with rupture in all its forms and stages; explains the dangers of operations; puts you on guard against throwing money away.

And it tells all about the Cluthe Truss—how little it costs—how it is water-proof—how it has no springs, band, belt or elastic around your waist, no leg-straps, nothing to pinch, chafe, squeeze or bind. And how you can try a Cluthe Truss entirely at OUR risk.

Write for the book to-day—don't put it off—this book may be the means of adding many years to your life and of restoring you to full strength and usefulness.

Simply say in a letter or postal: "Send me your book." In writing us, please give our box number.

Box 109 — CLUTHE INSTITUTE

125 East 23rd St. New York City

The minute it takes to write for this book may free you from suffering for the rest of your life.
