

Something new for a Xmas Present.

A Brand-New Electric Toy

This is the Sayer Electric Engine, built on scientific lines and modeled after a modern Horizontal Corliss Steam Engine. The engine can be run in either direction and at different speeds by means of the controlling lever. It is the cheapest Electro Motor Engine made. It consumes but half an ampere of current (about the same as a miniature Battery Lamp). Two dry cells do the work. A small pulley on the Fly Wheel provides for running small shafting, etc. Every boy who sees it will want one and he can afford to buy it.

Price for Engine complete, less Batteries, \$1.00.

Mailed for 20c extra.
CAN YOU BEAT IT?

Get your order in immediately and send for No. 20 Novelty Catalogue.

The Sayer Electric Lighting Plant

A Complete Lighting Station in Miniature.

(Cheap enough for every boy to buy.)

Consisting of a horizontal Corliss Engine of the latest design, belted to a modern type dynamo, wired to a complete Arc Light. Not a dead imitation, but a working engine driving a Throbbing Dynamog, generating current to illuminate the Arc Light governed and controlled by a Starting Lever.

The Finest, most Practical and Instructive Working Toy Model on the Market.

Nothing can compare with it.

The Whole Outfit, complete, \$4.00.

Give full name and address, and also name and address of your nearest drug store or chemist.

PHONE NEWS FOR FARMERS

GREAT ACTIVITY AMONG FARMERS

Everywhere farmers are awakening to modern ideas.

Just now there is great activity among farmers in establishing and building telephone lines all over this country.

The telephone saves time in getting help in a hurry; keeps the farmer in touch with the markets at all times, and in case of emergency gets assistance from neighbors or the city without delay.

The building of private and party lines has been so simplified and cheapened by the introduction of

Stromberg-Carlson Telephones

that every neighborhood, no matter how small, can well afford its own telephone line.

For farmers lines none but the best telephones will do—instruments that are practically perfect, that do not require constant adjusting and "tinkering" to keep them talking right. There are many telephones offered to farmers that are actually not fit for such service. It pays to get good instruments at the start. Stromberg-Carlson Telephones meet every need of the farmers line. Write for book F 111 "Telephone Facts for Farmers" how to organize your neighbors and build a line. Ask for book III telling how successful lines have been built.
