HOUSE OF ASSEMBLY.—On Monday last

several bills passed, among which were the

the Halifax Cricket Club, and a bill to

Club to fence off a portion of the Common,

to erect a building thereon. The House

into Committee of Supply, and voted various

sums, one of which was £200 to carry out the

steam communication referred to in our last

issue.

Yesterday a number of bills were forwarded

to the House when it was opened, and voted

a number of them. Supply then closed. Hon

Attorney General moved a resolution in refer-

ence to the union of the Colonies. The resolu-

tion did not meet the views of the hon Mr Howe,

who then moved a series of resolutions on the

subject. Several members addressed the house

briefly. The question was allowed to stand over

until the morning.—*Sun.*

At a meeting of the Conservatives, &c, last

evening, at Temperance Hall, which was

numerously attended, Messrs. J. B. Bennett,

Shannon and Henry P. Fryer were nominated as

Candidates in General Assembly for the Western

District for the county of Halifax.

A meeting of the supporters of the present

Government will take place this evening at

Dartmouth, for the purpose of electing David

Falconer, Esq, and Colonel Gladwin, formerly

of the Guards, to contest the two seats for the

Eastern District of Halifax, in opposition to

John Bennet and Esq, the bill to amend the

present members for the County.—*Journal.*

Charles Allison, Esq, has been named as

a candidate for the Northern District of Queens,

on the Conservative side. Andrew Cowie, Esq,

has been named for the Southern District, in

place of Mr. McLean, Esq, resigned. Syl-

vanus Morton, Esq, has been nominated at Mil-

ton as a candidate for legislative honors on the

opposition ticket.—*Journal.*

leaving Lunenburg, where he has for about four

received good news from Fraser river. The dry

shipments are becoming more valuable. Yet I

think caution is requisite, and those ought not

to go there who are well situated where they

are. The means for getting to the mines are

very difficult, but time and perseverance will

accomplish much.—*Correspondence of the*

The grounds on which the two parties are

about to join issue on the Reform Bill have

been defined. On Thursday last Lord John

Russell gave notice of the amendment he pro-

posed to move on the second reading, condemn-

ing the measure on two grounds—one, what he

proposed to do, and the other what it has been

done. The negative objection is, of course, the

refusal to extend the suffrage so as to admit the

working classes; the positive evil of the mea-

sure in the Whig leader's eye, is the proposed

extension of the suffrage to the whole of the

country. This mode of taking special objec-

tions to a bill on the second reading is compar-

atively new to our Constitution, and is not al-

ways much forbidding; if defeated on this reso-

lution, they will either resign or appeal to the

people. And here it is that the tactics of Lord

John are apparent. There may be, and in all

probability there are, many members in the

House with liberal tendencies who fancy that

they see in the Ministerial measure a scheme

which, though not perfect, perhaps not even

much forbidding; if defeated on this reso-

lution, they will either resign or appeal to the

people. And here it is that the tactics of Lord

The Calcutta mail brings correspondence and

files of papers from Calcutta to the 9th of Fe-

bruary, and from Hong Kong to the 29th of Jan-

uary. The Calcutta Correspondent of the Times

and neither discusses nor mentions a word of

the position may almost be described in the

old telegraphic formula, "India is profoundly

restless." There are riots in the Deccan, and

plots reported on Travancore; there are Sep-

toys who still refuse to submit in Behar, and

Indians have been flying from Hissar. But war,

for the first time since May, 1857, has ceased.

Within the compass of twenty-six pages Dr

Robertson has managed to condense a large

amount of valuable information upon this im-

simple manner, by which the truth of Divine Re-

that is both convincing and instructive. The

author has not only shown the truth of the

doctrine, but he has also shown the manner
