THE PROJECTION LANTERN IN SCHOOL

Up-to-date schools are finding the lantern a valuable aid in imparting instruction, and collections of slides illustrating many departments of knowledge are being formed as part of school armaments.

Principals and teachers interested in these matters are invited to make their wants known to the "POTTER" house, the staff of which will do their utmost to meet all requirements.

In projection lanterns, the house offers (1) the "POTTER" lantern, a fine example of the modern instrument, fitted with the electric arc lamp, complete for \$60 (and upwards); (2) the various forms of projection apparatus made by the Bausch & Lomb Company of Rochester, and last but not least, an extremely convenient and inexpensive lantern of British make, known as the "Kama". All are illustrated and described in literature to be had at "POTTER'S".

In slides and supplies generally, this house keeps abreast of the times, and is making lantern slides on special order from negatives, book illustrations, pictures and other material. Slides are tastefully colored when required, and all are carefully made, comparing favorably with the products of the best British houses, who make the finest slides procurable.

The staff of the "POTTER" house gives expert advice in lantern matters, and is always at the service of customers. The utmost pains are taken to give real help to present and prospective patrons.
