The Farmer Now Takes His Choice!

> THE farmer is coming into his own. Encouraged by good crop conditions, he is reaching out after the comforts that have long been due to him.

> > This is why so many farmers are buying a

Gillette Safety Razor

They realize that the man who can afford pretty nearly anything that he wants, prefers to shave himself with a Gillette. If men of means prefer a Gillette to being shaved by a valet or barber, -if these men use a Gillette costing five dollars, year after year, in preference to any other razor under the sun, then the farmer knows right well that no matter how much money he spends he cannot get a better razor than a Gillette.

The man who feeds the nation can share with the capitalist, the banker, the statesman and the soldier the luxury of Gillette shaving. He can appear every day with a "velvet smooth" chin. And he will do a better day's work, just because he feels so fit.

How he will enjoy the four or five minutes' session with his Gillette! The keen, rigid edge seems possessed of magic powers to remove the outdoor growth of beard. As one man said, "You have to look in the glass twice to convince yourself the whiskers have gone!"

There is a wide variety of Gillettes from which to select. These are the "Standard", "Bulldog", and "Pocket Edition" models, in a fine range of cases~ leather, cloth, silver and gold plated.

> You will have no difficulty in locating a Jeweler, Druggist or Hardware Dealer who carries Gillette Razors.
