

**T**HE Dominion Oxygen Company, Ltd., announces the satisfactory progress of its building program.

Work on the Toronto Plant is making excellent headway and a suitable site has been purchased in Montreal where construction work will promptly begin.

Land for the additional plants provided for in the initial plans of the Company is being negotiated for in leading cities.

Meanwhile a practical Service System is undergoing organization and a net-work of suitably located warehouses and service stations will be established.

Pending further announcement the oxygen users of the Dominion are invited to write for detailed information as to the broad scope and liberal policy of the Dominion Oxygen Company, Ltd.
