\$90,000 FIRE AT HARTLAND

Tracy Block Wiped Out Yesterday Morning

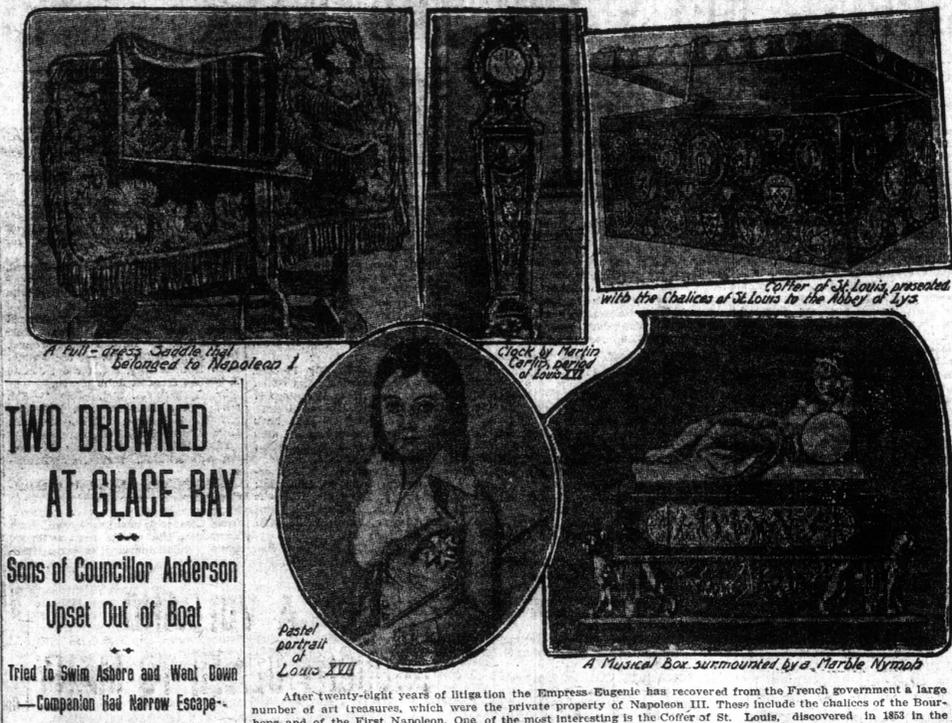

Thirteen Families Homeless and a Score of Business Houses Ruined—Insurance Losses Exceed \$90,000

HARTLAND, Car. Co., N. B., July 15.—(Byline) damage to the extent of \$90,000, with less than \$50,000 insurance, a fire by far the worst in Hartland's history, broke out shortly after midnight and was got under control only after fifteen buildings had been destroyed. The flames started in the Tracy block and burned the bridge on the west side. Word was sent to Woodstock and as soon as possible the engine was got out, leave for a special train received and the engine and firemen conveyed to Hartland.

Among the villages of Hartland the belief is prevalent that the disastrous fire which occurred there yesterday was the work of an incendiary. A petition, signed by over fifty of the most prominent merchants and householders, was presented to Messrs. John T. C. Carr, Allan Bradley and B. E. Morgan, who are the fire commissioners for the village, which is incorporated for fire and water purposes, praying for an investigation. Acting upon this petition the commissioners will hold an investigation which will be held this evening.

NAPOLEON RELICS RECOVERED BY FORMER EMPRESS EUGENIE.

After twenty-eight years of litigation the Empress Eugenie has recovered from the French government a large number of art treasures, which were the private property of Napoleon III. These include the chalices of the Bourbons of the First Napoleon. One of the most interesting is the Coffin of St. Louis, discovered in 1833 in the church of Damarville-Lys, near Melun. The casket held many relics of St. Louis presented to the Abbey of Lys by Philippe le Bel. It was presented by Napoleon III. to the Musée des Souverains.

TWO DROWNED AT GLACE BAY

Sons of Councillor Anderson Upset Out of Boat

Tried to Swim Ashore and Went Down

Companion Had Narrow Escape—Boy Drowned at Nahone.

GLACE BAY, N. S., July 15.—Two sons of Councillor Anderson of Glace Bay were drowned by the overturning of a sail boat of Catalone, C. B., about one o'clock today, while their comrade, Jos. McDonald, came within an ace of sharing their fate. The two drowned lads, Crawford and Alexander, were 21 and 18 years of age respectively. The young men were on their way from Catalone Gut to Glace Bay, and when about four hundred feet from the shore a squall struck the boat and upset it. All three were thrown into the water. They clung to the boat for a while and shouted for help. Alexander Anderson said he would try to swim for shore, and in spite of McDonald's warning he got out. He took an oar but let it go and set out without it. His brother Crawford followed him. Both young men went down before reaching land. McDonald was rescued half an hour later. The bodies have been recovered.

GOVERNMENT IS NOT POPULAR

Dr. Thos. Walker Home From Trip to Europe, Speaks of Political Situation in England.

Dr. and Mrs. Thomas Walker arrived home yesterday from an extended trip through Europe. Notwithstanding that the weather was unpleasant and wet through the greater part of the time, the trip proved very enjoyable. Dr. Walker, speaking last night, said that the political situation in England was not so far advanced as it is on this side of the water. He said that the two sessions were held, at which Capt. McKinnon of the Senate, and Captain Clarke of the Rosalind, testified. This inquiry was adjourned until this afternoon. On one point there is a direct conflict of evidence. Captain McKinnon testified that before the Rosalind loomed up through the fog she blew two blasts on her whistle, indicating that she was going to port. This was emphatically denied by Capt. Clarke, who stated that the Senlac crossed the Rosalind's bows and was out down.

ROSALIND'S CAPTAIN DENIES STORY OF CAPTAIN MCKINNON

Says He Did Not Indicate by Signals That His Vessel Was Going to Port

HALIFAX, N. S., July 15.—An inquiry into the Senlac-Rosalind collision was opened at the dockyard today before J. F. L. Burrows, agent of the marine and fisheries department. Two sessions were held, at which Capt. McKinnon of the Senlac, and Captain Clarke of the Rosalind, testified. This inquiry was adjourned until this afternoon. On one point there is a direct conflict of evidence. Captain McKinnon testified that before the Rosalind loomed up through the fog she blew two blasts on her whistle, indicating that she was going to port. This was emphatically denied by Capt. Clarke, who stated that the Senlac crossed the Rosalind's bows and was out down.

GIBSON GLEANINGS.

GIBSON, July 12.—Rev. J. C. Berrie, chairman of the Fredericton district, has succeeded in securing the services of Rev. J. W. Parker to assist him in his work on the Keswick circuit.

Rev. J. W. Parker is now moving from Hillsboro, Albert County, where he has labored faithfully for four years, to Sussex, where he will leave his family temporarily before coming to this district. He is expected to arrive here the middle of next week. Rev. A. E. Parkins, formerly of this place, accompanied by Mrs. Parkins, left this week for Medicine Hat, where they will make their home with their daughter, Mrs. Essory. For the last three years they have resided in St. Andrews. Mrs. (Dr.) Kirkpatrick, of Woodstock, accompanied by her daughter, Florence, arrived here last night. On Friday she leaves for St. John, where she will remain for some time for the benefit of her health. A large number of young people met at the residence of Mr. and Mrs. Frederick Pond in honor of Miss Mary Henry, who leaves for St. John tomorrow morning to continue in the employ of the Telephone Company. Miss Henry was so taken by surprise when presented a very handsome pearl ring she could hardly find words to express her gratitude.

FUNERAL OF LATE JOHN YOUNG, M.P.P.

TRACADIE, N. B., July 15.—The funeral of the late John Young, M. P. P., took place at 2:30 o'clock yesterday from his residence, interment being in the Presbyterian burying ground. There was a large attendance from all over the county.

The service which was conducted by Rev. J. McKay, the resident pastor, assisted by Rev. Mr. Carte, of Wellington, Newfoundland, was impressive. After singing Safe in The Arms of Jesus, prayer was offered and the choir sang Mr. Young's favorite hymn "I Gave My Life for Thee." Rev. Mr. Carte, who was a personal friend of the deceased, spoke at length. The funeral home was then formed and proceeded to the grave where the remains of one of Gloucester's best citizens were laid to rest. The pall bearers were: P. H. Melvin, of Bathurst; Hugh Cowan, Gloucester; James Porter, M. P. P., Grand Anson; Michael Sunier, Tracadie; P. J. Swift, Caraque; William Archer, Loggieville. It was estimated that over one thousand people attended the funeral. A special train having arrived crowded with friends of the deceased. At morning mass in the Catholic church, a touching tribute was paid to the memory of the late member. Mr. Young's death was a sad blow to his devoted wife and children, for only the day before he was discussing with friends his intention of again offering as a candidate for the legislature in the interests of the government. For over thirty years he represented his parish at the council board and on more than one occasion acted as warden of the county, always taking a keen interest in everything that was for the good of Gloucester, and it is well known that death was hastened by overwork. He was of a bright, cheerful disposition and a decidedly popular. Besides his wife, Mr. Young leaves two sons and a daughter. They are J. Raymond, at home; James, of the Buffalo and Erie railway department, and Mrs. C. Robinson of St. John. He also leaves one sister, Mrs. (Dr.) A. C. Smith, and two brothers, Richard of Tracadie, and Alexander of New York.

LITTLE CHATHAM GIRL IDENTIFIES ASSAILANT: WITNESSES EXAMINED

CHATHAM, N. B., July 15.—The Yeo assault case was taken up this morning at half-past ten and the following witnesses were heard: Mrs. Isaac McDonald, Dr. Byrne, and Isaac McDonald.

Mrs. Isaac McDonald was the first witness called by R. A. Lawlor, K. C., who of his accord and in the presence of the court has identified himself with the prosecution in order that the case should not fall through for lack of someone to push it. He has written to Attorney General Macdonald regarding the case, but whether authorized by the latter or not he is determined to see the case through and have fitting punishment meted out to one capable of such a crime as that committed against Yeo. The court was closed even to the press, but through some of the witnesses who had been present at the trial, the salient features of the evidence are stated in previous dispatches, the assault is about fifty years of age and the little Chatham girl is barely past her third birthday. Mrs. McDonald testified that she was with Mrs. Patrick Whalen on Thursday when the latter declared she saw Yeo, the prisoner, criminally assault the little girl. They called to Major Ramsay, who lived nearby, and all three started after Yeo. He dodged Major Ramsay but Mrs. Whalen pursued him into the woods and catching up a stick struck him on the back of the neck with it. He fell and she struck him before he could get away and held him down. Witness said Mrs. Whalen asked the prisoner what he meant by having the child there. He answered he did not know her, whereupon she struck him again and in reply as to his name he said, "I do not know." The police were ultimately brought to the spot and Yeo was placed under arrest. The evidence of Dr. Byrne and the other witnesses went to show that a criminal assault had been made and her body showed marks of cruel treatment. Little Bessie Black was in court and when asked by Mr. Lawlor if she could point out the man who hurt her, she pointed her finger at the prisoner and answered, "Yes, there he is." The case was then adjourned until Thursday, as Mr. Lawlor leaves tomorrow for Bathurst where he is engaged in an equity suit.

BOODY FOUND ON RICHIBUCTO SHORE

REXTON, N. B., July 15.—A corpse was found on the shore at Richibucto Cape yesterday, which is supposed to be the body of one of the victims of the Adona disaster of last fall. The body was too much decomposed to be identified. It was brought to town by Undertaker Black of Richibucto and interred in St. Andrew's cemetery.

HOUSE BURNED AT HOPEWELL CAPE

HOPEWELL HILL, N. B., July 15.—The residence of Ernest Levesque, Hopewell Cape, was totally destroyed by fire this afternoon. The fire started about two o'clock from a defective fuse and in an hour the building was burned to the ground. The house was situated on the centre of the village, and but for the fact that it was dry time and plenty of help around, a large part of the village might have been destroyed.

HOW A STONE VARIES.

A stone is usually considered to be fourteen pounds, but a butcher's stone of dead meat is only eight pounds, a stone of cheese is sixteen pounds, a stone of butter is ten pounds, while a stone of hemp runs to thirty-two pounds.—London Standard.

FINDS HIS LOST CHILD IN STRANGER'S ARMS

LONDON, July 15.—A father's search for his lost child and his success in finding it resulted in Louise Jordan, laundress, of Sirdar road, Notting Hill, being charged with kidnapping at the South Western Police Court yesterday.

The child, a boy of 2-1/2 years, vanished mysteriously while playing outside his parents' home in Shillington street, Battersea. The parents were distracted, and the father, Charles Donald, a house painter, haunted the streets night and day in search for his lost boy. He had almost given up hope when he accidentally heard that a child in a blue sailor suit had been seen with a woman in Shore-ditch. Again he renewed his walk. While passing Shore-ditch Church, he suddenly caught sight of his son in the arms of a woman on the opposite side of the street. In a moment the child was in his clasp and the woman was in charge of a policeman. There were bruises on the boy's body and he was filthy and bedraggled. It was alleged yesterday that the woman sang in the streets, and took the child in order to arouse sympathy. She was remanded.

GERMANY TO HAVE BIGGEST VESSEL AFOAT

BERLIN, July 15.—The special correspondent of the Lokaleszeitung near Kiel, learns that during the recent meeting of the lower Elbe, negotiations took place between Lord Pirie, chairman of Harland & Wolff of Belfast, and the directors of the Hamburg-American Line for the building of a new transatlantic liner, which is to be a foot longer and six inches broader than the largest of the Cunard boats, and have a tonnage of nearly 50,000.

CHILDREN IN PLYNY'S DAY.

It was not a modern American writer who, discussing the children, wrote of them thus: "How many are there who will give place to a man out of respect to his age and dignity? They are shrewd men already and know everything. They are in awe of nobody, but take themselves for their own example." These were the words of Pliny the younger used in one of his numerous letters during the first half of the first century, and they will apply to much of the young America of today.

PERSEVERANCE.

Perseverance is more prevailing than violence, and many things which cannot be overcome when they are together, are overcome when they are taken little by little.

YES, INDEED.

"A woman makes a great change in a man's life." "Yes, and she takes a great deal of change out of it too."

CRIPPLES TO SEND DELEGATES TO PREMIER

MARSEILLES, July 15.—Marseilles rejoices in possessing the Syndicate of French Cripples. The union has just decided to depute two members, who will endeavor, like Marcelin Albert, to visit M. Clemenceau. It is not stated how they are crippled, or whether they have legs, as they mean to walk from Marseilles to Paris.

ANOTHER MAN STARTS ON ARCTIC EXPLORATION

TROMSOE, Norway, July 15.—The young explorer Lerner has sailed from here for Spitzbergen with the object of mapping out the northeast coast of the Main Island. He goes first to Walter Wellman's station on Dances Island, where he will observe the preparations of that explorer until the ascent of Weishan and his men. Then Lerner will leave on his own expedition. Lerner is accompanied by Count Poininsky and Herr Von Bosck, both lieutenant colonels in the German army. He is well equipped, having all the necessary scientific instruments, including a new one, the photodolite, which, it is stated, can make topographical measurements by a photographic device. The expedition will also carry a balloon for the purpose of making atmospheric observations. It is believed that the scientific features of this effort will give it an important place in the history of modern Arctic expeditions.

WHAT HE FEARED.

One of the outlying London theatres which makes a specialty of melodrama has a large following of gallery "gods," and very naturally the "sky" assemblage is composed of knowing critics, who are loud in their demands to be pleased. "We into the actor who is unfortunate enough to incur their displeasure!" Recently a play with a hair-raising plot was put on the boards. The hero was evidently new to his part, for he furnished his lines badly, and spoke in a faltering tone. Perhaps it was for this reason that he did not meet with the sympathy of the gallery. Just before the crisis of the play, the hero chipped his sweetheart in his arms and said: "Keep a brave heart, my darling. The worst is yet to come!" Whereupon a voice that had no doubt received its training in crying "extras" in the street yelled out: "What are y' goin' t' do, mister? Sing!"

BETTER THAN THE BOARDS.

Tall Thespian.—You say that you once did a turn and got \$5,000 for the one performance. Great Brute! What theater will he in? "What are y' goin' t' do, mister? Sing!"
