WANT BRITISH M.P.'S.

THOUGHT THAT THE PARTY MAY BE HERE FOR ONE DAY

SOME DISTINGUISHED MEN IN THE GROUP NOW COMING.

There does not seem to be any particular enthusiasm locally over the effort to waylay a section of the Commerce Congress delegates for the purpose of bringing them to Rossland. The general sentiment seems to be that the loss will be that of the delegates if they fail to come here, knowing, as they must, the magnitude of Rossland's mining industry. Many citizens fail to figure out what Rossland has to gain by a flying visit from the party who would only have a few hours in the city and could only secure therefrom a faint idea of existing conditions, all of which would be vitiated by a surfeit of sight-seeing. "Rossland has reached the stage where people should come here of their own volition. It is undignified and ridiculous for cossland to join in a wild scramble for parties of tourists, and I don't believe the city profits a sou from the successful issue of such efforts!" This is the opinion of one well known

A courteous invitation will be extended, however, to the party of British parliamentarians now touring the country. Several titled gentlemen are included in the party, and the fact that it embraces a number of men holding seats in the British houses of lords and ons places it on an entirely different basis than the ordinary touring

The list of people in the British parlamentary party is given as follows: Right Hon. Lord Lyveden.

Right Hon. Lord Braye. Lady Braye. Colonel Sadler, M. P. Mrs. Sadler.

Cumming Macdona, M. P. George Doughty, M. P. Sir Edward Clarke, K. C.

Miss Honner Morten. Count Bentinck. Capel A. Branfitt. Percival Clarke. Rev. H. G. Hopkins. A. Collings Wells. Captain H. Bramsch. Alderman Sutcliffe.

R. T. Wicksteed.

Originally the party was expected to be 200 strong, but disturbances political in Great Britain had the effect of reducing its proportions to the above

Mayor Dean has been active in the effort to have the British parliamen-tarian party visit the Golden City. He has been in communication the department of the interior at Ottawa, which has the Canadian end of the trip in hand, and has been materially assisted by A. J. PROVINCE MUST PAY

NO NON-RRESIDENT PUPILS IN PHOENIX SCHOOLS WITH-OUT PAYMENT.

QUESTION GONE INTO HERE FROM TIME TO TIME.

The Rossland public school trustees are not the only trustees who have had the question of non-resident pupils under advisement. The Phoenix board has decided upon a line of action that will certainly bring the question to a showdown, having concluded to bar non-resident pupils from the schools after October 1 unless the department pays for their education. The matter was not regarded as of sufficient importance locally to justify extreme steps so long as the department of education gave an assurance that it would be taken up on its merits.

Non-resident pupils in attendance at schools supported in part by munici-palities have been a thorn in the side of the education department for some months.

In the Rossland schools, for instance, there are probably not more than a score of children whose parents reside outside of the city and who thus avoid the payment of the municipality's two per cent tax levy for educational pur-poses. These children are distributed among the lower grades of the Central and Cook avenue schools, and if they were eliminated the cost of conducting the two institutions would not be lowered by one cent, so that from the purely practical standpoint no special reason exists for taking such action or for making a special levy or fee for such children which probably have the same effect. On the other hand, the city draws \$15 per annum in per capita tax for each of the non-resident pupils, and the cost of the schools to the community duced by the aggregate amount of this announcement will be received with has some compensation for educating

Obviously it is the duty of the province to establish schools for children who are not entitled to attend the city schools, but such children are cat tered along the whole boundary line of the town, and no site could be secured outside of the city that would The mine has shipped its ore to be practicable for more than a rac-Northport for the past sixty days or tion of them. It is felt locally that a trifle more, the interim contract with the department should, in the case of the Le Roi reduction works expiring non-residents attending the Rossland schools, pay to the corporation the difwould receive from the department cess of iron, making it a desirable ore \$28 annually for each non-resident puto treat in conjunction with the other pil instead of \$15 as under the exist-"Owing to an increase in the charges for treatment at the Northport smelter, to which plant our ore has been the case in Phoenix. CURED AF 'R DOCTORS PRO NOUNCED HIS CASE HOPELESS.

Limbs Swollen Until He Had Bece a Bloated Helpless Mass-Dr. Williams' Pink Pills Wrought

the Cure. In the little village of Rodney, not far from the mining town of Springhill, N. S., lives Mr. James Stevens, a quiet, middle-aged man, who, though an unobtrusive life, has lately been much talked of as having been the subject of a cure pronounced by all familiar with the circumstances as scarcely less than miraculous. The disease, which some two years ago prostrated Mr. Stevens, came upon him gradually. There was an increasing feeling of gen eral lasitude: the kidneys did not righty perform their function, and then the body began to bloat. This feeling con tinued, extending to the extremities, un til Mr. Stevens became a helpless, bloated mass of flesh. A finger pressed up on the bloated flesh would leave all day. The urinary weakness became painful and distressing, the passages becoming very frequent. Doctors diag-nosed the trouble as dropsy, but as their remedies failed to effect a cure, the pronounced the trouble incurable. A this stage, a neighbor who had been cured after a long and painful illness through the use of Dr. Williams' Pink Pills was recalled, and it was decided o give the pills a trial. By the time the second box was used, the swelling began to decrease, the passage of urine was less frequent, and the patient was inspired with fresh hope. The use o the pills for some time longer set Mr. Stevens upon his feet again a cured healthy condition, his weight became normal, the kidneys resumed their functions healthfully, and today Mr. Stevens goes about his daily work a good spec-imen of hardy, healthy Canadian manhood. His restoration is entirely due to

The limbs were restored to a Dr. Williams' Pink Pills, and he does not hesitate to stronglly recommend them to other sufferers.

To the casual reader cases like this ray seem remarkable, but Dr. Williams' Pink Pills have, in reality, cured thou-sands of cases pronounced by the doc-tors incurable. These pills make new, ership for the approaching year of the tors incurable.
