MILITARY MEN PUZZLED OVER THE INVESTMENT

Of Ivangorod as Reported From Berlin To day.

By Special Wire to the Courier. London, July 23.—Over the Russian front, from the Baltic as far as the Bug, the only district in which the Austrians and Germans are not at-tempting a serious offensive lies op-posite the region of east Prussia, which is well defended by the Mazur-ian lakes. North and south of Kovno, German attacks are reported, but the chief fighting is in progress south of Ivangorod, Lublin, and Sheim, con-nected by the railroad line, which is of such value to the Russians and south of Sokol, on the Bug in Galicia near the Russian border. The report of the investment of Ivangorod in yes-terday's communication from the German war office, puzzles military experts who declare it is impossible that the great fortress could have been surrounded and completely engaged from Warsaw, to the west of the Vis-tula, the Germans report a victory for the Silesian landwehr, which stormed the Russian positions and threw back their defenders into the fortress of Ivangorod. At the scene of the Siles-ian success is fifteen miles from the fortress, it is believed here the Ger-man official report must have been translated erroneously as claiming the investment of the fortress itself, when the cutting protecting forts were attacked.

From the standpoint of the allies, one of the most hopeful features of the campaign is the stubborn defense of the Lublin-Chelm railroad by the Russians.

On the Narew front to the north, there has been a lull in the fighting, but the renewed activity of the Ger-mans from Kovno to Baltic has de-veloped into an important engagement as the result of which the Russians have been compelled to retire.

Interest here in the fate of Warsaw is undiminished, but the stubborn re-sistance of the Russians is doing much to relieve the depression of the English. This feeling of relief en-ables the public to pay some attention to other battle fronts. The allies re-port minor successes in Mesopotamia and at the Dardanelles.

Along the Franco-Belgian and Ital-ian fronts there is but little change so far as the official reports show, al-though some fierce fighting has taken place at a few points.

DELIVERED TO-DAY.

FURTHER GAINS MAKE ITALIANS DRIVE AHEAD

They are Enveloping Gorizia and Making Coup in Huge Move.

Milan, July 23.—The further pro-gress made by the Italians in the bat-tle on the Carso Hills is shown by the capture of 7,000 more prisoners, making the total number taken with-in the last three days 3,476, including 76 officers. A quantity of rifles and ammunition and several machine guns also fell into the hands of the Italians. The progress of this battle so near Trieste is being watched with intense interest all over Italy, and when Goritz falls there will be great rejoicing.

Things are in a good way also to the north of the Carso Plateau where the Italians have captured several new trenches. The Italian guns are now able to shell the Austrian posi-tions on Monte Santo, a peak some 1,300 feet high which has been forti-fied by the Austrians as well as other hills which protect Goritz on the north. Another strongly forti-fied point at which the Italian guns are levelled is Monte Cassino, on the west bank of the Isonzo, but which is also being approached from Podgora, where a number of violent engage-ments have taken place and several lines of Austrian trenches have been captured.

ADMIT LOSSES.

The battle line north and south of Goritz has a tortuous front of about twenty-five miles. Swiss reports state that the Austrians already ad-vance the loss of 8,000 men within the last six days.

The battle of the Isonzo is now in its fifth day, and each day the Italian army has marked some progress. Goritz is now being closed in as within a vice from three sides, and important new points have been occupied on the Carso Plateau.

The entire line of the Isonzo, from the Adriatic to the upper waters at Tarvis is the scene of a vast general action which was marked last Sun-day by an important military success and by another on July 16, when the fort of Predil was almost blown to pieces by shells from the Italian bat-teries which had been suddenly brought within range.

OFFICIAL STATEMENT

Rome, July 23.—An official com-munication issued last night says: "While the Italian offence contin-ues to develop energetically in Ca-dore and the artillery is effectively working in Carnia, the struggle in the Isonzo zone continues with in-creasing intensity."

"Toward Goritz we gained part of the line of the heights which from the right bank of the river command the town and the Isonzo bridges."

On the Carso Plateau the enemy has been driven from some trenches and many prisoners and much ma-terial have been captured. The number of prisoners taken during the 18th, 19th and 20th totalled 76 offi-cers and 3,400 men."

Violent Tirade Against the British View

London, July 23.—The Hague cor-respondent of the Evening News says: "The Taeglich Rundschau publishes a violent tirade by Admiral Kirchhoff denouncing the English official verdict on the Lusitania case and declaring that submarine attacks on merchantmen will be continued regardless of the fate of neutrals."

"Members of the German Govern-ment and the Admiralty and the crews of the submarines will sleep peacefully in the face of such accus-ations. They will continue just as before to commit such acts, no mat-ter how loudly the proud and timorous Britons may shriek about murder. The watchword for us is: 'Down with the ships that cross the bow of our valiant 'U' boats and with those carrying munitions under the protection of the Admiralty.' Our note has clearly declared that the presence of American passengers on board will make no difference in this respect."

Taxation on Imports is Considered

London, July 23.—"Under the pres-ent exceptional circumstances the question of further taxation on im-ports needs serious consideration, and the Government and the Chancellor of the Exchequer will give the mat-ter early attention," said Premier As-quith to-day at a deputation of bank-ers and merchants which interviewed him for the purpose of urging greater national economy and increased tax-ation on imported goods, as well as a tax on smaller incomes.

The Premier fully concurred in the agreement with the deputation that the country had not gone far enough in providing additional resources from taxation for carrying on the war. He for a long while had been of the opinion that the present in-come tax was very arbitrary in its incidence and that it ought to begin at a lower scale.

OTTAWA GIRLS RUSH TO SOLDIER'S BEDSIDE

Miss Jefferys, With Miss Buch-anan, Crosses the Atlantic on the Orduna.

New York, July 23.—With seven American citizens among the 195 pas-sengers, the Cunard Liner Orduna sailed for Liverpool yesterday. Her holds were well stocked with con-ra-bands, but her commander, Captain Thomas McComb Taylor, smiled grimly when he declared he had com-ing the German submarines coming but and felt confident he could do it again.

A few minutes before the Orduna let her pier Ruth Buchanan and her friend, Grace Jefferys, arrived from Ottawa on their way to the bedside of Miss Buchanan's brother, a lieuten-ant in the British 5th Engineer corps at the converted home of William Waldorf Astor at Cliveden. Miss Jefferys is the lieutenant's fiancee, and only received word in Canada on Wednesday that, after the amputation of his left leg, the doctors had given up hope for the lieutenant's recovery. Miss Jefferys said she knew she was running a great risk in trying to reach England, but she is determined to wed her fiancee if she can reach his bed-side in time.

Refugees of Macedonia in Terrible State

By Special Wire to the Courier. London, July 23.—Despatches re-ceived from British Consul-General Greig at Monastir, Macedonia, indi-cate that the situation of the refugees in that district is very seri-ous. "So many people have succumb-ed to the effects of exposure and star-vation," says Mr. Greig, "and the crop prospects are so bad, that the outlook has been quelled all initiative. Everywhere the distress is increased by the enormous prices of food stuffs, by the lack of medical assistance, by the need of clothing and housing. The situation is equally precarious for Christian and Moslem population."

"Acute distress of a peculiar hor-rible character prevails among the civilian population of the districts of Ochrida, Dibr, Kirchevo and Pe-riep. The chief sufferers are refugees from villages destroyed in 1912, when cattle, grain, agricultural implements and all household effects of hundreds of families were looted or destroyed. The survivors of this ruin took re-fuge in the towns, especially Monastir—destitute of the necessities of life. Since then it has been impos-sible for them to do anything towards retrieving their fortunes or to earn a living. Their only resources had been agriculture, which they could have resumed only if their homes and barns could have been gratuitously rebuilt, and if oxen, seed, and agri-cultural implements could have been provided. That was impossible, be-cause the events of 1912 were follow-ed by other wars and urgent appeals to charity on every side. No other means of earning a living has been opened to them, as there has been no demand for labor owing to econom-ical conditions."

"In Monastir alone there are some 8,000 persons, including refugees from more than thirty villages. Many of them are suffering from illness caus-ed by two and a half year's semi-star-vation, whilst large numbers are in a state of extreme debility, which, fail-ing relief, can only end in a lingering death. There are whole streets of fam-ilies in this condition. They have parted with everything saleable. Women, reduced to skin and bone, are feeding their infants on dry bread got by begging. Hungry that these fam-ilies have recently been visited, and scarcely a house has been found in which there is an atom of food be-yond scraps of dry bread and here and there a few handfuls of flour."

BIG GRAFT GRAB.

By Special Wire to the Courier. Morden, Man., July 23.—Addressing the convention which nominated Hon. Valentine Winkler for the Legislature Hon. A. B. Hudson, attorney-general, declared that two million dollars was the amount of the graft that the par-liament buildings frauds were expect-ed to yield. He declared that three steel contracts totalled an extra of \$1,250,000, while he said, two hundred thousand dollars would probably have paid for all the extra steel required. This, he said, left about one million dollars graft from steel alone, while another million was to come out of caissons and other extras.

WILSON HAS MEXICO ON HIS MIND

Despatch of German Note Leaves Way Clear to Consider Situation.

By Special Wire to the Courier. Washington, July 23.—The Mexican situation again came to the forefront to-day with a conference between President Wilson and officials of the American Red Cross who have virtu-ally abandoned their campaign for the relief of non-combatants in the chaotic conditions there. The despatch too, of the note to Germany caused officials to turn their attention to Mexican affairs, although no decisive move in that direction is contem-plated at present.

The President's callers included Brigadier-General C. A. Devol, gen-eral manager of the Red Cross, who directed relief work in Mexico; Ernest Bicknell, national director and Miss Mabel Boardman, a member of the central committee. General Dev-ol was to report on the situation and his failure to get the various leaders to facilitate the work of feed-ing the starving civilian population. He was to tell the president that conditions are even worse than when he called upon the leaders to settle their differences.

Officials and diplomats were sur-prised over the reported action of General Carranza in serving notice that he would not receive communica-tions from, or transact business with foreign governments which have no diplomatic agents accredited to his government at Vera Cruz, it had been generally understood that foreign governments were awaiting action by the United States before recognizing any government in Mex-ico.

The effect of such action would be to cut off the Carranza government from further communication with foreign nations having ministers re-sident in Mexico City although it would not, it is believed, sever his informal relations with the United States as he is said to regard Consul Silliman at Vera Cruz as a properly accredited agent.

LUSITANIA WIDOW COMMITS SUICIDE

New York, July 23.—Mrs Inez Jolley Vernon, widow of George Ley Vernon, singer, merchant and moving picture promoter, who lost his life when the Lusitania was torpedoed, was found dead to-day in her apart-ment at No. 31 West 11th Street. The police reported that she had killed herself by a revolver shot in the left temple.

NO DIVIDEND.

By Special Wire to the Courier. Winnipeg, Man., July 23.—The Free Press says to-day that owing to the continued dislocation of all branches of the Hudson's Bay Com-pany's business through the war, the governor and committee have decided not to recommend payment of a divi-dend this year on the ordinary shares.
