HARDSHIP IN PALESTINE Associated Press London, March 5.—Some of the hardships experienced by the British forces in Palestine are described in a letter received here from a priest. The letter written shortly before the fall of Jerusalem, tells of a day early in November when all the convoys from Beersheba was unable to reach the men then fighting for the deliverance of the Holy City from the "Turks."

"There was a hot wind blowing," wrote the priest, "a tumbler full of water was left in my bottle which I divided between four officers whose lips were split and covered with a green slime. That afternoon I had a burial service, and, literally I could not articulate without keeping my hand to my mouth and pulling my lower lip off my teeth, while bullets

from a concealed sniper whizzed past us. In the evening water came in, enough to give each one a bottle—quite inadequate. 55

NOVA SCOTIA DEAD. By Courier Leased Wire Halifax, March 4.—Hon. Jams D. MacGregor, former Lieutenant-Governor of Nova Scotia, died early this morning at his home in New Glasgow. Hon. Mr. MacGregor was twice elected to the Nova Scotia House of Assembly, was Mayor of New Glasgow, an unsuccessful Liberal candidate for the House of Commons and in 1903 was summoned to the Senate. Seven years later he was appointed Lieutenant-Governor of Nova Scotia, retiring at the expiration of the five years term.

MANITOBA WHEAT USED IN FRANCE

Nation Seeks To Substitute Other Foodstuffs For Failing Corn Crop

Paris, Jan. 25.—(Correspondence of the Associated Press)—France, without a "bumper" crop of corn to fall back upon is making a brave effort to increase the yield of other food-stuffs, and there are now for the first time, signs that the effort is producing results.

Nearly a million more acres of wheat were sown last fall than in 1916, according to recently completed statistics. With ordinary yield this means nearly 20,000,000 bushels more of wheat. Spring seeding this year may exceed that of 1917 by nearly the same extent, which will bring the French wheat crop this year up to forty million bushels more than that of last year. The bread card, taking effect January 29th was intended to save from food consumption the million bushels required for the extended seeding.

M. Comper-Morel, Commissary of Agriculture, charged with the extension of seeding, has already divided 600 bushels of Manitoba wheat among farmers. He is confident important gains will be made in the crop of 1918.

The decision of the French Food Minister to issue cards regulating the distribution of bread to three hundred grammes (about 11 ounces) a day is causing much comment. Some critics, others approve, but the consensus of opinion will be summed up in the good natured remark of a morning paper which says "that for one man who dies of starvation, there are a hundred who succumb to indigestion."

Generally however, the press seem to adopt a very serious point of view of the innovation. The French are notoriously the greatest bread eaters in the world, and much doubt is expressed as to the ration of a little over a half a pound per day being sufficient.

France has another "Commissary of Agriculture," Monsieur Le Rolland, deputy from the department of Morbihan who is sometimes called the "Potato Dictator." He is charged by the Minister of Agriculture with direct supervision of planting, with reference more especially to vegetables. He is trying to increase the production of beans as well as potatoes, and is especially encouraging the planting of topinambours.

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't stay gray! Here's a simple recipe that anybody can apply with a hair brush.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grand-mother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of Wyeth's Sage and Sulphur Compound, you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simplyampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Montreal, March 4.—Sir Frederick Williams Taylor, general manager of the Bank of Montreal, returned Saturday from Washington where he spent several days with the Prime Minister and Hon. A. K. MacLean, acting minister of finances. In reply to an enquiry as to whether the mission had been successful Sir Frederick referred to the statement of the Prime Minister, expressing satisfaction with the work that any further information would have to come from Sir Robert Borden, or the Hon. Mr. MacLean
