## An Individual Opinion.

S the mighty freight problem which now occupies the minds of the railrent Trials, which has worried the merchants of Dawson sick, and and the railrent of the press, is still as far from a satisfactory solution as ever. When you stop to think about it, it seems strange that in all the discussion which the subject has engendered no one has spoken a single word for the one most vitally interested -the one through whom all the vast resources of the country must be brought to fruition, by whose efforts it is made possible to operate railroads and steamships, and who pays by coined sweat for all merchandise landed here. Why not take him, the workingman, the toiler, the miner, into consideration ? Who but the Government can act for him ? Step in, representatives of the people, and grapple with the question. The welfare of the country demands it.
