Many People Crushed But Ne Fatalities—Comedian Saves Day.

Chicago, March 14.—A despatch from Newport, Ky., says that between 400 and 500 persons, principally women and children, in a state of panic, when lightning struck the Grand Theatre here Tuesday night, were quieted and many were saved from death by the presence of mind of a comedian performing on the stage. As it was, scores of women and children were crushed underfoot. While the performance was in progress there was a rush for the exits. Wailing women, screaming children and shouting men aroused the crowd to an excited frenzy.

In the midst of the whole panic Albert Dashington, a comedian, appeared on the stage with a candle in his hand and began making jokes on the thunderbolt and subsequent darkness. His words soon pacified the audience

PIGS AS FASTERS.

The Wonderful Ability of Swine to Live Without Food.

Very few people have any idea of very few people have any idea of how long swine can live without food, although much has been said about the quantity they can consume. But, be-lieve me, piggie is a record breaker when it comes to living without anything at all to eat.

A CURIOSITY OF LUNACY.

Periodicity of Mania by Which the Patient Lives Three Lives.

There is a special form of mental disease, first described in France, whose definite character is given to it by its periodicity, and hence it is called folicdrculaire. In it there are three sections of the mental circle that the patient moves in-viz, elevation, depres and sanity-and in this round he spends his life, passing out of one into the other, for it is, when fully established, a very incurable diseas

The patient takes an attack of mania during which he is joyous, restless, troublesome, extravagant and often vicious. He eats voraciously, sleeps little and never seems to tire. temperature is a degree or so above the normal, his eye is bright and glistening, he is enamored of the other sex, he shows diminished self control and mmon sense.

This lasts for a few weeks, or a few nonths more commonly, and then he passes sometimes gradually and some-times rather suddenly into a condition of depression, during which he is slug-gish, dull, looking differently, dressing differently, eating differently, fearful, unreliant and sedentary in habits.

This state will last a few weeks or months, and the patient will brighten up into what seems recovery and is to all intents and purposes in his normal state. This again lasts for a few weeks or months, and he gradually gets morbidly elevated. You find he is passing through every minute mental phase and habit he did at first. Depression follows as before, and then sanity, and this round of three states of feeling, of intellect, of volition and of nutrition, goes on, circle after circle, till the patient dies. He lives three lives.-Hospital.

Looking Down His Own Throat. One of the quaintest reasons put for-One of the quaintest reasons put for-ward for the origin of squinting was that given by a parent to Harold Grimsdale, who read a paper before the Childhood society on the detection of imperfect condition of eyesight. A boy had swallowed a large sugar alm ond, and it was owing to his attempts to locate its position in his throat that the squint had developed. If taken in time squint was curable, but sho often parents neglected the symptims and only scoided their children for a bad habit. Short sight was entirely a disease of civilization, being absent in savage races.

Alberta Thus Disposes of a Surplus-\$365,675 For Education. Edmonton, Alta., March 14.—The estimates were brought down in the House yesterday and passed with little opposition. They indicate that Alberta will spend \$2,763,974.18 during 1907 and from Jan. 1, 1908, to the passage of estimates at next session, \$400,000 is the amount called for by the Departments. Edmonton, Alta., March 14.—The es

sage of estimates at next session, \$400,000 is the amount called for by the Departments.

In the estimates are Civil Government, \$1,555,000; Legislation, \$34,000; Administration of Justice, \$345,722.68; Public Works, \$1,293,000; Education, \$365,675; Agriculture, \$345,576.56; Hospitals \$345,500; Miscellaneous, \$99,950.

The revenue during 1907, the Premier stated, would be approximately \$200,000 greater than the receipts, but the Government proposed to expend out of current account \$200,000 on construction of telephones in Alberta, consequently the accounts will practically balance at close of year.

In delivering his budget speech the Premier gave a brief resume of work done by the Government during past year. The total output of butter was \$479,977, of which \$292,977 was from Government creameries and the balance from private companies. SUFFERED EIGHT YEARS FROM KIDNEYS

Doctor's said Female Trouble.

Dector's said Fernale Trouble.

Mrs. Charles Lewis, Collingwood, Ont., writes: "For eight years I suffered from Kidney Complaint, and until twelve months ago doctors' said I was suffering from 'Female Trouble.' Last November (1903), I was seriously ill, resulting I believe from kidney troubles. Finding doctor's medicine doing me ne good, I persuaded my husband to purchase me a box of Doan's Kidney Pills, after having read of a case somewhat resembling mine. I commenced taking the macoording to directions (not taking the doctor's medicine), and on second day a swelling commenced in my feet, legs and body. The following day I was so changed and swellen my husband, in alarm, hastened to Mr. Johnson's drog store, who told him te tell me be thought the pills were drawing something out of the bleod, and to keep on taking them. I did so and after taking them a week, the swelling disappeared leaving me with a complexion free from simples, tired, weary feeling gone, constipation, from which I suffered for years, gene, pain in the back, gone, and a general feeling of joy and light heartedness, I have not felt since a child, took place in me.

My sister-in-law (Mrs. Bryan), seeing the action of Doan's Kidney Pills, and the change for good they accomplished in me, sent for a box and they completely cured her.
