Some of the people who live in flats in the vicinity of King St., are complaining vigorously of the manner in which King St. is sprinkled lately. They claim that the cart goes down one side of the street and the dust flies on the other side. When the cart comes down the other side the first side is dry, and, as a result, dust is flying all the time. Complaints are coming in quite freely, as the tenants say they cannot hang anything out of their windows at all without having them covered with dust. The attention of the man who sprinkles the sty freshould be brought to the matter past.
