

BORN.

At the Methodist Parsonage, Campbellton, on April 7th, to the wife of Rev. C. S. Wells, a son.

At Newcastle, on Sunday last, April 20th, the wife of T. W. Crocker, Esq., of a daughter.

DIED.

At Northesk, on April 9th, DANIEL McDONALD, aged 34 years.

At Sargy Settlement, on April 13th, after a short illness, REBECCA JANE, only child of Thomas and Catherine Laurie, aged 12 years. New Glasgow papers please copy.

A cherished one, the father's joy, and tender mother's pride, Did death's relentless hand destroy Alas she drooped and died.

Now free from sorrow, sin and pain, Though in the grave she lies, Yet her immortal spirit reigns With God above the skies.

At Aboyne Settlement, Bonaventure Co., P. Q., on the 14th inst., after a lingering illness, SARAH, beloved wife of William Windsor, aged 62 years.

Mrs. Windsor immigrated to this Country from England, in company with her husband over 30 years ago. She had been identified with the Methodist Church for many years and the Ministers appointed to the Campbellton Circuit had been welcomed and well received at her home. She died trusting in Jesus.

At Carleton, N. B., March 25, BERNARD SWELL, aged 55 years, leaving a wife, ten children, and a large number of friends to mourn their loss.

Dysentery.—To cure dysentery use Minard's Lintment freely on the throat, spread on brown paper or fat pork, put a teaspoonful in one gill of water, gargle the throat often and take a teaspoonful in a table spoonful of molasses every 8 hours, giving Minard's Family Pills according to directions.

Dominion Parliament.

OTTAWA, April 17.—The House met at 3:30, and after routine in answer to Boase.

Sir John said the Government recognized the importance of a bridge over the St. Lawrence at Quebec as connecting the International and the North Shore Railway and the necessity for its construction in the near future, but until the Canadian Pacific Railway is extended to Quebec, he could give no further information.

In answer to Mitchell, Sir John said the Grand Trunk had pledged itself to the Government to expend five million dollars out of the proceeds of bonds under this session's Act, in double tracking the road between Montreal and Toronto.

On the third reading of the amended Liquor License Act, 1883, Mr. Carrey moved the restoration of the words "Hotel or" in the second section of clause 25 of last year's Act.—Carried, 75 yeas, 62 nays.

An amendment by Girouard was lost, 49 yeas to 58 nays. McCarthy moved in amendment, that in places where Provincial acts were in force, no prosecution should take place for infraction of the Dominion law and that penalties would be suspended only where the act is not employed.

The amendment was carried, and the simple question of the constitutionality of the Dominion Act should be made to the Supreme Court, which would be final, unless the Governor in Council or the Lt. Governor of any Province, joining in reference to the Supreme Court of Canada, decided to appeal to the Privy Council.

This amendment was carried, after a debate by Mills, Davies, McCarthy, Oulmet and Sir John, and the bill as amended passed its third reading.

OTTAWA, April 18.—Routine business was finished up today, and the House will adjourn tomorrow.

OTTAWA, April 19.—The Speaker took the chair at four o'clock Friday afternoon and after concluding in several bills brought down from the Senate with amendments of minor detail, the House adjourned.

At three o'clock today His Excellency the Governor General presided in the Senate, His Excellency was pleased to prorogue the second session of the fifth Parliament, with the following speech:

Hon. Gentlemen of the Senate:
Gentlemen of the House of Commons:

The assiduity and zeal shown by you in the performance of your important duties have my best thanks, and I desire to convey them to you.

There is every reason to anticipate that the liberality of the loan given to the Canada Pacific Railway will secure the speedy and satisfactory completion of that great national work.

I congratulate you on the adjustment of the matters of the day, and I desire to express my satisfaction in the Dominion and the Province of British Columbia.

By the legislation of this session the larger appropriations made for the furtherance of Railway construction may be expected to assist materially in the development of our commerce both foreign and domestic as well as to open up for settlement extensive fertile districts, hitherto almost inaccessible.

The several measures for the benefit of the Indian communities and for their encouragement to assume self-government are well adapted for the purpose, and the amendments of laws relating to the Dominion lands will give additional facilities for the advantage of settlers in the Northwest Territory.

The readjustment of the annual subsidies to the several provinces while adding to their resources will place their pecuniary relations with the Dominion on a satisfactory and permanent basis.

The several important measures which occupied your attention and now will become law, must all tend to the benefit and improvement of the country, and the numerous private bills with industrial objects submitted to me indicate the existence of healthy spirit of enterprise among our people.

Gentlemen of the House of Commons:
I thank you in Her Majesty's name for the supplies you have granted for the public service.

Hon. Gentlemen of the Senate:
Gentlemen of the House of Commons:

In bidding you now farewell until next session I trust that when we meet I may be able to congratulate you on the continuing prosperity of our country.

The Duty of Pilots.
H. Babington, a Sandy Hook pilot, writes to the New York Herald as follows: "During the late war, while I was attached as pilot to the frigate Niagara, our commodore (Craven) took a run down the Nova Scotia coast, arriving off Halifax harbor on a Sunday, about 8 a. m. It was a clear, fine morning with a fresh breeze running off the land. Our commodore had his signal flying for a pilot, but we waited quite a length of time before one came to our assistance and

the little craft he came in, which they call a pilot boat, looked to me like one of the boats used by our fishermen when they go fishing for shrimp in New York bay. Had the weather been rough or stormy you will see at once that a pilot boat could not render any service in case of an emergency. If they had a pilot service with anything like the efficiency we have at Sandy Hook the probability is that no such terrible disaster as the loss of the Daniel Selman would have happened; and I make this assertion from the fact that of the many thousands of persons who enter and leave New York bay by way of Sandy Hook every year not one life has been lost through the neglect and carelessness of our pilots since 1853, the year in which our present laws governing pilotage were enacted. The endeavor of parties to obtain congressional action in reference to pilotage laws would, if successful, put our present system (acknowledged by all to be the best in the world) in the same condition now prevailing at Halifax, where the pilots are permitted to consult their own convenience and the state of the weather. The mutual obligation of the pilot and ship, the one to be ready on duty and the other to pay compulsory pilotage, is a sure protection to life and property, and I trust that the despairing cry of the unfortunate who went down with the Selman may reach the ears of those who are attempting to abolish a system that has proved itself these thirty years a safe and reliable one.

The Dominion has much reason to be thankful to Mr. Wilnot for the manner in which he represented the fishery interests of the country during the continuance of the late Exhibition. Before that event people in England had a very inadequate notion of the extent and value of our resources in the branch of natural products. Now, as well through personal intercourse with Mr. Wilnot and his assistance as through the admirable conference that were given by himself, Mr. Jones and other gentlemen not only the British Government and people but our fellow colonists and the visitors of Borneo have been made aware of the importance of our fisheries and the scale of operations by which they are being developed. It is pleasant to learn that the introduction of some of our native fishes into British waters is another result of the efforts to which we refer. It was only to be expected that the Marquis of Lorne should take the lead in that class of experiment as he does in all the other branches of the Dominion's progress. He has been better known in the old world. We see by the Canadian Gazette that not long since a consignment of half a million eggs of our whitefish reached Inverary Castle, having been forwarded to the Marquis by Mr. Wilnot for purpose of experimentation.

ROYALTY.—The Duchess of Edinburgh has been delivered of a daughter. Both mother and child are doing well.

Two royal marriages are to occur at Darmstadt this month. One is that of Princess Victoria of Hesse and Darmstadt and Prince Louis of Battenberg; the other that of the Princess Elizabeth to the grand duke Sergius of Russia. It is expected that the marriage of the latter will be the emp-ress of Germany, the duke and duchess of Edinburgh the duke and duchess of Cambridge, the crown Prince of Germany the dowager grand duchess of Baden, and the sons of all the royal houses of Europe, will be present. This will be the first time since 1870 that Queen Victoria and the emperor of Germany will have met. The bride presents exceed in number and value any that have been seen this century.

CAIRO, April 18.—A merchant who arrived in Khartoum from El Obedi reports that the Sheikh of the Faghat tribes, having become dissatisfied with El Mahdi's administration, attempted to chastise the rebels, but the latter defeated them, Mahdi losing heavily. The next day the engagement was renewed, when Mahdi was defeated with great loss. The Faghat tribes also lost many men. When the merchant left the Faghat tribes he had Mahdi's supporters attempting to go to Khartoum and act under the authority of the Khedive, but not under Gen. Gordon.

LONDON, April 18.—Advices from Simla state that Indian police have seized proclamations which purport to announce the return of Mahdi to India.

CAIRO, April 19.—The English Government has no intention of sending Zobeir Pasha to Khartoum.

Those among us who are suffering with Bronchitis, Croup, Hoarseness, and other ailments, should not delay but take "Phosphorized" Emulsion at once. It is the most reliable preparation in the market for the cure of these ailments. Always ask for "Phosphorized" Emulsion, and be sure you get it.

The common expression, "I feel so drained," "My food doesn't digest," "I do not feel anything," which we so often hear during the Spring and early summer months, are conclusive evidence that the system is in need of a tonic, especially a reliable medicine that cleanses the blood, and "tunes up" the debilitated condition of the system. The "Phosphorized" Emulsion, containing the purest Cod Liver Oil and Tonic Dinner Pills, taken according to directions, produces a healthy condition of mind, and gives lasting strength to the whole system. Beware of imitations. See that the name "Phosphorized" is on the wrapper, and that it is a remedy of great power, and deserves the attention of invalids.

IN

THE

SPRING PURIFY

The months of March, April and May the system undergoes a change, and the blood should be purified and the system strengthened so that it may be able to withstand the debilitating effects of the changing weather, and resist the attack of disease. The best way to obtain this result is by taking Estey's Iron and Quinine Tonic, the most powerful Blood Tonic and Appetizer known.

Your Blood may be full of humor, it needs looking after. There is no season of the year that the system requires the same care and attention as it does in the Spring. Every one should make it a rule—whether they consider they actually require it or not—to take a Spring Medicine, and the best remedy to take is Estey's Iron and Quinine Tonic.

Should be purified in order that the body may enjoy perfect health. Estey's Iron and Quinine Tonic tones up the system, purifies the blood, sharpens the appetite, and makes you feel "all right" again. When buying this remedy be sure and get Estey's. Every genuine bottle has the Signature and Trade Mark of the Proprietor.
