**WHAT EXCHANGES SAY**  
 Edmonton Journal (Though they could not bring the Legislature round to their view, Messrs Boyle and Ewing were quite right in urging that the province has a responsibility for the financial condition of the municipalities, and that it cannot absolve itself from this when municipalities go into default. The credit of the whole province is affected by such default, and when it comes about it is so because the Legislature has not done its duty. Mr. Spencer asked what the drought-stricken farmers would think if the Legislature went to the aid of towns that had been over-boosed. They would have no right to object, any more than others would have a right to object in case the Legislature came to the aid of a rural municipality of drought-stricken farmers. In each case it would be a public body which was the creation of the Legislature, and under its control, which would be aided, not the individual living within the borders of the municipality.)

**THE FARMER AND HIRED MAN**  
 Acton Free Press: There is ample reason for sympathetic interest in the farmer's difficulties in the matter of securing much-needed help on the farms these days. Farmers are said to be willing to pay \$50 a month with board, for hired help. The trouble is to find the man to hire. When he's found and finds the farmer is willing to pay \$50, he asks \$60, and stipulates for an eight or nine hour day like the town and city fellow has. The average farmer is not hard on his man, and the rush of work and longer hours lasts only through the busy season. It is little wonder farmers feel annoyed at the constant cry for greater production under existing conditions. Who can reasonably blame them? Many will be obliged to cultivate less and allow portions of the farm to lie dormant.

At a special meeting of the Thorold Council it was decided to move the clocks ahead to daylight saving time on May 1. A committee was also named to act with one from the board and Board of Trade to raise funds for new uniforms for the band.

**DEATH LIST OF 140**  
 BIRMINGHAM, ALTA., April 21—A death list which last night stood at more than 140 and a property loss of many millions of dollars, was the toll exacted by a tornado which yesterday swept a score of towns, villages and isolated farms in eastern Mississippi, northwestern Alabama and the southern counties of Tennessee.

Communication with many of the stricken districts is difficult but fragmentary reports agreed that the tornado swept down with deadly suddenness, obliterating everything that lay in its path. In at least one case—that of Rose Hill, Miss.—practically the entire town, is believed to have been destroyed, and in several instances all members of a family were reported to have been killed.

**Many Communities Suffer**  
 Striking first apparently in Lauderdale county, Miss., about 10 o'clock this morning, the storm swept a narrow path across the state, carrying destruction to a dozen or more communities. About the same time death and damage from the same or similar disturbances was reported from counties in the northwestern corner of Alabama, the extreme fork of the wind being expended before the Tennessee line was reached, in Williamson and Maury counties.

**START TOMORROW AND KEEP IT UP EVERY MORNING**  
 into the habit of drinking a glass of hot water before breakfast.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles according to hot water enthusiasts. There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, becomes food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood, causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments. People who feel good one day and badly the next, but who simply can not get feeling riza, are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

**Growth Shows Desire To Extend Army Work**

Commissioner W. J. Richards, chief of the Salvation Army in Eastern Canada, has completed his fifth year in that capacity. During that time the Army has seen one of its greatest periods of usefulness. This period takes in the "war years." The great war had been under way since August and new problems presented themselves to the organization when he assumed command. These problems required a large measure of initiative to overcome. The task of rendering the highest and most efficient service was shouldered and Canada paid tribute to the success which attended those efforts by over subscribing the amount asked for during the Shield Drive.

Commissioner Richards is a forceful man. He is a man of few words. He believes in doing things. During the five years, more than 11,000 persons are recorded as having sought salvation. Notwithstanding the losses due to war, there are today nearly 2,000 more names on the Membership Roll than there were in this territory five years ago.

In July, 1915, Canada East was separated from Canada West, the dividing line being Port Arthur. Ever in view of this, there are now only forty one fewer officers in active service in the Eastern territory alone than there were in the combined territories five years ago.

In the Field Report two very striking indications of financial growth are given. In 1914, the Self-Denial total for the combined territories was \$43,726. In 1919, for Canada East alone, it was \$75,501. Harvest Fest

tival returns have been doubled. Shows Solid Growth. In all the various departments the corded. This shows that as often as humanly possible every opportunity has been seized for the advancement of every branch of the organization inasmuch as every act of service means the welfare of somebody, the

same rate of growth has been reposition which the Salvation Army occupies today indicates tremendously increased service to the community. This service has been rendered under the leadership of Commissioner W. J. Richards. His five years in Canada have been five big years for

the Salvation Army in Canada, and give great promise for the future. **HARD, SOFT OR BLEEDING** No matter what kind or where located, any corn is promptly cured by Putnam's Corn Extractor; being purely vegetable it causes no pain. Guarantee with every bottle of Putnam's, use no other, 25c. at all dealers.

**STYLE ASSURANCE**
