We noticed in one of our exchanges this week the statement of Dea. John Hodgkins, of South Jefferson, Me., whose son was cured of incipient communition by the use of Johnson's Anadyne Liminent. We refer to this at this time as tending to corroborate the statement we made last week in relation to this Liniment as applied to consumption.

If Congress had employed as much scientific skill in the arrangement of its "Reconstruction Policy" at the class, as the War Department did in the beginning of the war, in arranging for the manufacture of what was called Sheridan's Cavalry Condition Powders for the cavalry houses, nodoubt the use of the Cavalry horses, no doubt the Union would have been restored long

A Question.—Why will people keep four or five ill-looking sickly horses to do the work that one good horse might perform? If the horse has the heaves, is broken winded, has a cough or cold, or his wind is in any way affected; if his appetite is bad, or his digestive organs deranged, has a rough akin or is hide bound, we would in all cases recommend the use of "Darley's Condition Pewders and Arabian Heave Remedy"—theyer fails to benefit and almost always removes the disease; it is free from anything that can ir jure, and may from anything that can injure, and may be used at all times with safety. Try it and you will be satisfied. Remember and you will be satisfied. Remember the name, and see that the signature of Hurd & Co., is on each package. Nor-throp & Lyman, Newcastle, Ont., pro-prietors for Canada. Sold by all Medi-cine dealers. 27

A man in Mississippi has discovered a cure for cancer which, according to his own representations, throws cundurango entirely into the shade, and the philanthropic individual makes no secret of his discovery, and has not asked for a patent right for its sole production and sale. It is merely an infusion of the blossoms of red clover, which he applies both exof red clover, which he applies both ex-ternally and internally.

THE last census of the United States shows that out of a population of over thirty-eight millions there are 5,669,074 who cannot write—more than fourteen per cent. Of these, 4,820,210 are natives, while 777.864 are of foreign birth. The great bulk of the former is made up of the freedmen in the Southern States

There is a strange hog story affeat in Wroxeter. Two hogs are said to have been embedded in a straw stack about the end of last September, and exhumed a few days ago. One of them was the end of last sequences, ed a few days sgo. One of them was dead, but the other alive, though very lean. He had only straw to eat, and no water for three months. The story is told with all gravity.

The human voice has nine perfect tones, but these can be combined into 17,572,044,414 different sounds.

Thick-soled shoes are considered good things for the "elevation and protection of woman at this season.

The Directors of the London, Huron and Bruce Railway give positive assurance that the rumor circulated in Huron and Bruce to the effect that they are about to sell their charter to the Great Western, and that the satter company intends to construct the road via Seaforth to Ainleyville, is entirely without foundation. They state that the, never contemplated anything of the kind, and that no offers or proposals looking towards such a scheme have ever been submitted or entertained. wards such a scheme ha mitted or entertained.
