is the sure friend of every careful housewife and it is famed all over the world for the remarkable ease

with which it dispels dirt from the clothes in the wash. The Chamois is to be found only on the loftiest mountain ridges, but Sun-LIGHT SOAP is found in all parts of the civilized

SPEECH of MR. KEN

On Newfoundland Products Contract.

ences to the future of this Colto be trammelled by any artifiing their minds to bear upon these any obligations which they may consider to devolve upon them because

THESE PARTY ALLIANCES.

ences of these resolutions will be remote periods such as that-wheer they will have the effect of reling or forwarding the progress hich we hope Newfoundland will ke. In approaching these resoluns, we should first of all consider securing, what they already posss in this colony, and what powers lese resolutions. Practically, as far e matters contained therein, we are sarding the areas, the rights, the pany which already owns large inter- ufacture of Phosphate of Ammonia

properties that are dealt with in this ontract. I asked the other day whe ther any independent survey had ttee the very greatest con- in this contract, and I was informed that there was no independent sur vey, except that which the Government had obtained through the or dinary Departmental information

their effects are, what is the extent of the powers that they may give. A Newfoundland assembled in delibera- matter of this importance, involving tion so as to best conserve the inter- a large amount of money and dealing est of Newfoundland. Now, looking with rights that may have so great at these resolutions from that point an influence over the future developof view, I would ask the members of ment of this country, deserve, be-Committee to try to forget in fore committing the colony, to any lute fee simple right to this large that may exist. The matter is too it, that the Government should have been in possession of all the information that it was possible to ob- tem of the colony, and they have contain, independent altogether of those cial bonds such as the Party system who are interested in promoting the Mail Service. And now you are givwould involve. I would ask the mem- interests of the corporation. I am ing them in addition thereto control, bers of the other side in particular, sorry that no enquiry was made and under this contract, of all the valuwho may regard it as their duty as that no information was secured beembers of the Party supporting the | youd that which was in the possesernment of the day, that in bring- sion of the Government Departments. The Government should come esolutions they lay aside for once in here prepared with full detailed reports on every feature of this agreement, on every matter relating to the ting nothing at all commensurate powers referred to in it, and the properties referred to in it, the rights conferred by it and the con-We are here as trustees of the people cessions made in it, and on every the live in Newfoundland to-day and other topic on which the contract ever hereafter, and we are deal- has a bearing; but on the contrary, ng with rights that will extend into we have no information beyond an nturies—into a time when New- analysis of the contract which the adland, we hope, will be a great Premier made here the other day, ntry, will be one of the greatest not critical analysis but a mere digest untries in the world, and we should of its provisions and a statement of deavor to find out what the conse- the process which it was proposed to carry on in connection with one of may develop in this country; a business, which I would like to point out here, there is

NO OBLIGATION WHATEVER this Corporation is, what they from one end of the contract to the pleasure, provided they get the sancother upan this corporation to ever other upon this Corporation to ever whave. These are matters that been mentioned in connection with to be that the charter of incorporaerye consideration at the hands of this. He has had experience which tion of this Company ought to be un-Committee. I am very sorry, was outlined here the other day py der the control of the Legislature; it lat the Committee is not more fully the Premier, experience in special ought not be changed or varied at formed on the matters covered by lines, in connection with promoting the will of the Company in future companies, in connection with certain years. It should be set out in the the resolutions are concerned and inventions, in connection with chem- Act confirming the contract. At the icals and fertilizers, and matters of present time they have large powers thout any information, except a that kind. The Corporation which is under their Memorandum of Associatement or an analysis of the consecuring these rights is not Mr. Wil- tion. They have power to apply for, act itself which was made by the son, as far as the papers show he has obtain, purchase or other acquire Temier here the other day. In a no interest whatever in it. The Cor- waters, water powers, and rights in atter of this kind, every effort poration is simply a Company which and upon any of the rivers and lakes aght to be made to supply the House has been promoted by the Directors in Newfoundland and its Dependenith the fullest detailed information of the Reid Nfld. Company, a Comcies; to carry on the business of man

time-a company whose interests are already too, large in this country-a 5 company which has such powers in to it in any other country in the world. Now, in the present Corpora tion, which as I say, is promoted by the Reid Nad. Co., you are giving hem more extensive powers and more concessions, which, I propose to show, will certainly not be ADVANTAGEOUS TO THE PEOPLE & OF THIS COUNTRY.

The Company is registered in the Colony of Newfoundland. It is regis-Colony of Newfoundland. It is registered under the Companies Act of 1899. The Memorandum of Association is signed by H. D. Reid, Vice-President of the Deid Newfoundland Company, R. G. Reid, a Director of the Reid Newfoundland Company, and Mr. M. W. Furlong, a Director of the Reid Newfoundland Company. The witness is Mr. A. H. Plimsoll, The witness is Mr. A. H. Plimsoll, the Reid Nfld. Co. I am not quite Q certain on that point, but I am so informed. These are the people who have signed the Memorandum and Articles of Association. The Articles of Association provide, among other things, for a Board of Directors It provides that the Directors shall not D. Reid, President of the Reid fld. Co., H. D. Reid, Vice-President the Reid Nfld. Co., R. G. Reid, a Director of the Reid Nfld. Co., and Martin W. Furlong, another Director of the Reid Nfld, Co. These facts are material and the Committee may aproach the consideration of this conract and of these resolutions in view of the fact that it is a company or

be understood that I am in any way reflecting upon any of the gentleme who have signed these papers if the oncessions are to be made. Under all the circumstances I would just as soon grant them to these gentlemen as any others of equal repute, but I wish the Committee to consider it in the light of the immense interests which the Reid Nfld. Co. have in this colony, at the present time, and to ecide whether it is right or prope ready obtained. At the present time, member of the Committee knows, ov er 4:000.000 acres of land in this colony, perhaps the most valuable land in the colony. They have the absogrant of land, and they have had it now for nearly twenty years. They have control of all the railway systrol of the greater part of the Bay able water powers in the colony and on the Labrador. When you consider this contract and the return which the colony is getting for the concession of such valuable rights, you must be convinced that we are getwith the value of the interests which we are asked to give away. The Newfoundland Products Corporation are under their charter of incorporation as to the business in which they may engage, the operations which they may carry on, and any other matters in which they may deal, outside the province of this Legislature. They have filed these articles of Association under the Companies Act. They may change their

they can increase the number of obon, the different kind of business which they may carry on, at their tion of the Court. I think, one condition at least of this contract, ought

subsidiary to the substantive purposes of the Corporation. For instance

manufacturing or otherwise which may be deemed by the Company capable of being conveniently carried on in connection with the directly to enhance the value of render more valuable any of the Company's property."

The clause is very far reaching when linked with the purposes contained in the first clause relating to possibilities as to the fields of business in which the Company may engage. Then the next section of the Memorandum provides that it may purchase or acquire land "freehold or leasehold" or other property, easenents, buildings, factories, mills, works, wharves, roads, railways, etc., eniently used with or enhance the value of the property of the Company. It is next authorised to build construct, etc., ways, tramways, railways, bridges, waterworks, sewers reservoirs, offices, telegraphs, telehones, electrical works, saw mills. imber cutting works, etc., etc., which may directly or indirectly conduce to any of the objects of the Company and to contribute to subsidize or the industries which the Corporation MEMORANDUM OF ASSOCIATION, otherwise aid or take part in any such operations. It is given the right to acquire patents and patent rights, jects which the Company may carry to acquire any business of any person or firm carrying on or proposing to carry on any business the Company may conduct and to pay for the same in shares or debentures of the Company, to improve, lease, sell or mortgage all or any part of its property. Amongst the substantive purposes set out in its Memorandum

"To buy, sell, import, manipulate, prepare for market and deal in merchandize of all kinds and to carry on business as tinsmiths, assayers, chemists, chemical manufacturers, ironfounders, brassfounders, coppersmiths, storekeep ers, farmer's carriers, provision preservers, packers, printers, advertising agents, mechanical engineers, builders and contractors. "To under transact and execute all kinds of agencies, business and also trusts of all kinds and form, constitute and promote Companies

takings of all kinds." (Continued on 7th page.)
