NEW STEAMSHIP SERVICE TO RUN TO ANTIPODES

Big Addition to Trade Between Canada
and Australia

It has just been announced by the
Canadian government that a new
direct service between Canadian At-
lantic ports, and Australia and New
Zealand will be put on this summer.
This service is to be put on by the
New Zealand Shipping Company, which
is one of the big steamship companies
of the world. It is expected that this
new line will result in a large ac-
cretion of trade between Eastern Canada
and the Antipodes, the boats bringing
from meat, wool, tea, low, rice and
other Australasian products to Can-
ada, and taking back manufactured
products, such as agricultural im-
plements, flour, carriages, buggies, boots
and shoes, sewing machines, and other
Canadian manufactured articles, which
have for long past been in strong de-
mand in Australia.

The new service will be inaugurated
with the sailing of the S.S. "Rakata"
from Montreal on May 15th, and
monthly sailings thereafter.

The New Zealand Shipping Company
which is inaugurating this new ven-
ture is one of the strong shipping
companies of the world. It was in-
augurated in New Zealand in 1873, with

several sailing vessels, but speedily
grew, until, with the advent of steam
vessels, it took on a new phase, and
became a concern with world-wide
affiliations. At present, its head-
quarters are at London, England, and
at Christ Church, New Zealand, and the
company owns 17 first-class modern
steamships, operating all over the
world. In its origin the company was
formed by a number of New Zealand
farmers, who felt the necessity for
foreign outlet for their trade, but its
success speedily caused it to outgrow
this limited start.

The service will be operated by
five steamships: Montreal being the
summer port and West St. John the
winter port. The names of the vessels
are as follows: "Rakata," "Whaka-
tane," "Waimate," "Papanui," and
"Wakanaui."

The vessels to be engaged in the
service will be comparatively speedy
and of large carrying capacity. This
service is of more than ordinary im-
portance to manufacturers in Canada,
particularly those in Ontario, Quebec
and the Maritime Provinces, for the
reason that it will enable them to lay
their commodities down in the Aus-
tralian markets with regularity and
permit them to compete on an equal
footing with their friends south of the
boundary. It is the intention of the
New Zealand Shipping Company to give
the Canadian manufacturer every fac-
ility and concession which the Ameri-
can manufacturer now enjoys, and
which Canadians have felt for some
time past they were not obtaining
through the port of New York owing
to certain discrimination. A matter
worthy of note is that although New
Zealand granted to the Canadians a
preferential tariff some years ago the
same has been of little benefit as it is
claimed by Canadian manufacturers
that the steamship lines operating out
of New York immediately advanced
freight rates against the Canadians,
so as to practically offset the advan-
tage in the duty in order to place the
American manufacturer on an equal
footing with the Canadian. The New
Zealand Shipping Company and Cana-
dian government in establishing this
service feel confident of the full and
undivided support of the Canadian
shipping public. There is undoubtedly
enough traffic to warrant the suc-
cess of the line.

These vessels are approximately

5,000 tons burden each, and are all
equipped with the most modern cold
storage facilities for the carriage of
frozen meats from the Antipodes.

This service will undoubtedly pro-
mote a more friendly feeling between
Australia, New Zealand, and Canada,
and also increase the interchange of
commodities between these great links
of the Empire.

CALGARY EX-POLICEMAN CAME INTO BIG FORTUNE

And in Addition to Wife Gets \$100,000
As Well

Henry Fawcett Dodd, formerly a
member of the R.N.W.M.P., stationed
in Calgary and vicinity, has taken the
first step toward acquiring \$100,000.
He has married. A foolish statement,
perhaps, but according to the story
that has reached his acquaintances on
the mounted police force here, there
are certain conditions surrounding
Dodd's taking a bride, which makes
it an exceedingly profitable under-
taking.

Dodd is now in Seattle employed as
a policeman on one of the street car
lines. He is a nephew of the late Col.
Harvey P. Dodd, a soldier in the Boer
war and commander of the English
frontier forces after the war. The late
colonel left the money on condition
that his son prove up with ten years
of happy married life.

So, if he lives happily with his wife,
formerly Miss Hazel Goebel of Geor-
getown, he will get the hundred thousand.
In April, 1902 it is said the colonel had
a son who had gone through a lot of
money and had been dissipated.
Henry Dodd, however, had gone
through the Boer war with a brilliant
record, winning decorations for gallant
service. Then he rode the plains of
Wyoming until he enlisted in the
mounted police force.

He was stationed for a while in this

Everyone Thought She Was Going Into Consumption.

Gained Ten Pounds in Two
Weeks by the Use of Burdock
Blood Bitters.

Mrs. Fred Biggs, Kingston, Ont.,
writes:—"I was completely run down,
my blood was out of order, and I used to
get so weak I would be compelled to stay
in bed for weeks at a time. I could
not eat, was pale and thin; every one
thought I was going into consumption.
I tried everything and different doctors
until a friend advised me to use Burdock
Blood Bitters. I did not have one bottle
used when my appetite began to improve.
I used six bottles. I gained ten pounds
in two weeks. When I began to take it
I only weighed ninety-three pounds. It
just seemed to pull me from the grave as I
never expected to be strong again. I
will tell every sufferer of your wonderful
medicine."

The blood reaches every portion of the
body to distribute nutrient and remove
effete matter and waste products. Clearly
then, any influence, good or bad, affecting
the blood, must necessarily affect the en-
tire system for good or evil as the case
may be.

Get pure blood and keep it pure by
removing every trace of impure morbid
matter from the system by using Burdock
Blood Bitters. It exerts a curative in-
fluence unapproached by any other
remedy.

For sale by all dealers. Manufactured
only by The T. Milburn Co., Limited,
Toronto, Ont.

The Birtch Farm

Consisting of 640 Acres.

Ten Miles East of Calgary.

One of the Most Highly Improved Farms around Calgary

320 acres, ready for crop, all in excellent condition, large part of which is summer fallowed. New house worth \$3,500; also furniture worth \$1,000, goes with property; good stable and granaries to hold 10,000 bushels. Whole section all fenced and cross-fenced, without an acre of waste land; new railroad from Sas-katoon entering Calgary, passes near property, and likely to have station and elevators within half a mile; good school and church within one mile. This land properly handled will yield \$9,000 worth of grain this year. Chestermere lake near property. Price for a few days—

\$38.00 an Acre

The cheapest land in the neighborhood. Other property being sold from \$50 an acre up in this district.

Alexander Corner.

division at Banff. He was also at Mac-
eod, where he was discharged for
having pointed a gun at Inspector Al-
bert. It appears, however, that he was
blameless in the matter, having receiv-
ed in Africa a sunstroke that some-
times caused him to feel his senses for
a few minutes at a time when it was
hot. Most of the members of the force
who were in it four years ago, remem-
ber Dodd. He was a popular fellow.
While at Regina he proved himself a
hero by stopping a runaway at the risk
of his life.

After leaving this country he sailed
on the U. S. revenue cutter Thetis, in
Alaska waters, and then got the job
steering an electric car between Seattle
and Georgetown.
It would seem to be a rather prosaic
existence for Dodd after the excite-
ment with which he was accustomed.
But not so, it was on the Georgetown
run that Dodd met the present Mrs.
Dodd and paved the way to fortune.
Things do work out that way once in
a while in real life—not often, maybe,
but once in a while.

ACREAGE IN Ten Acre Lots

Splendid soil, perfectly level, on main road.
Telephone by the property. Don't buy a 25-foot
lot when, by going a little further out, you can
secure enough ground that will allow you to have
a garden, the proceeds of which would pay for
the property first season.

Calgary is rapidly coming into her own, and
the position of wanting property such as above.

We quote from Mr. W. J. Thorold, of London Press Association:

(Albertan, March 11, 1910).—"To me the city presents the most remarkable future.
I am told that in Calgary and vicinity, there will be commenced construction of works
requiring an ultimate expenditure of TWENTY-FIVE MILLION DOLLARS, and of
this sum the C.P.R. will expend Sixteen Million Dollars on the extension of their branch
lines. The balance is to be expended in civic improvements and the construction of
other branch lines into Calgary. Such an expenditure as this can only result in Cal-
gary becoming one of the foremost cities in the Canadian or American West."

Calgary's progress during the last few years has borne out the saying, "There is no tomorrow." Putting off until "To-
morrow" in Calgary realty has meant a lost "Yesterday" in thousands of instances. The future will bring regret to many who
let OPPORTUNITIES pass. Others will take advantage of present offerings and invest, reasoning out the truth of Mr. Thorold's
statement: That Calgary will become one of the foremost cities of the Canadian or American West, with the consequent increase
in values.

SPLENDID TERMS.

CAR AT YOUR SERVICE

ASTLEY & SHACKLE, 116 8th Ave. W. Phone 1578

BOWVIEW

(Taken From The Albertan)
**Messrs. Tregillus & Hextall Will
Give 150 Acres of Land
BRIDGE TO BE BUILT ACROSS THE RIVER
TO PARK**

"The Exhibition company has been offered practi-
cally free of charge very fine grounds to the far west
of the city. The proposed donors are Mr. W. J.
Tregillus and J. Hextall, and the property is a portion
of that part of the west of the city known as Bowview.
It is on the south of the Bow river and directly across
from the park now known as Shouldice Park.

"The advantages of this place as exhibition park is
that the railway runs right past it and freight and pas-
sengers could be brought in that way. Then again, it
is directly across from the park to which a railway will
be projected at an early date. Arrangements are being
made to have a bridge span the river very soon. That
will bring the park in direct communication with the
street railway, with practically no additional expense."

BOWVIEW

Adjoins and overlooks this land. A bridge will
make the land on the south of the river as valuable as
on the north, 30 acres having been recently sold for
\$600 per acre.

Try and realize what this will mean for Calgary. As a city expands, land suitable
for gardening, or property that lends itself to home building, becomes greatly in de-
mand and valuable. The near future will see such property commanding prices double
what we are asking.

\$100 PER ACRE AND UPWARDS
