

Mr. Warren D. Wentz of Geneva, N. Y.

Tells of His Fearful Sufferings After Gastric Fever and His Cure by Hood's Sarsaparilla

All who know Mr. W. D. Wentz give him the best of recommendations for honesty and integrity. For many years he has worked for Mr. D. P. Wilson, the harness maker and member of the Geneva Board of Health. He says: "I was taken sick last October with gastric fever and my chance for recovery was considered almost hopeless. After 7 weeks the fever slowly left me, but I could not eat the simplest food without terrible distress. It seemed that I had recovered from the fever to die of starvation."

Die of Starvation. Took peppin compounds, blamuch, charcoal, cod liver oil and milk until my physician confessed that his skill was about exhausted and he did not know what else to try. Everything I took seemed like pouring lead into my stomach. I happened to think I had part of a bottle of Hood's Sarsaparilla that had been in the house for two or three years. I began taking it and soon began to feel better. I have now been on a little over two bottles and can truthfully say I feel well again and can eat anything without distressing me, even to pie and cheese.

Pie and Cheese. which I have been unable to touch for years. The English language does not contain words enough to permit me to express the praise I would like to give to Hood's Sarsaparilla. W. D. WENTZ, 311 Castle St., Geneva, N. Y.

A Good Voucher. "I have known Mr. Warren D. Wentz for many years and can vouch for him as a man of veracity and one well known about here. I have sold him several bottles of Hood's Sarsaparilla during the past few months." M. H. PARSONS, Druggist, Geneva, N. Y.

FOUR NEW NURSES

Receive Their Diplomas at the General Hospital.

Commencement Exercises—Annual Address by the Lady Superintendent—Interesting Facts About Nurses, Nursing and the Hospital.

Natly attired in their gray suits, white aprons and caps were the fair lady nurses at the Hospital last evening. At the hour of 8 o'clock there was a pleasant gathering of students and gentlemen to witness the charming graduates receive their diplomas and gold medals. There were only four of this class, and one of these, Mrs. Janet Turnbull, was unfortunately unable to be present on account of illness. The other three were Miss Florence Noble, Edith Augusta Read and Isabella McLennan. They received their diplomas graciously at the hands of prominent citizens, who at the same time delivered brief but encouraging and eulogistic addresses. Col. R. Leveson presided, and Rev. Canon Smith opened the meeting with prayer.

As is customary in all progressive training schools for nurses the superintendent gives an annual address to the graduates. Miss Jessie Dunne, the lady superintendent, had the pleasure of doing this last evening. "Nursing has become," said Miss Dunne, "a recognized avenue for women of high social standing, and hospitals have gained much by the superiority of women who now apply for training. It is a well-known fact that the best medical skill is useless unless accompanied by good nursing. Like all other great reforms the training of women to attend the sick is the outcome of Christianity. The foundation of the modern system of nursing was laid in the village of Kaiserswerth in 1830 by Herr Fleidner, pastor of a small Protestant congregation. In this school Miss Florence Nightingale, whose name is now a household word for all that concerns nursing, gained the knowledge which enabled her to render such brilliant service among the wounded on the battlefields of the Crimea. At the close of the war £50,000 was subscribed by the English nation as a testimonial for her heroic services. In place of accepting it, however, she requested that some attempt be made against the plague of pauperism in 1853 by Herr Fleidner, pastor of a small Protestant congregation.
