JOHNSON'S ENGLISH RECORD. English racing men have acquired a great respect for American speed mer-chants. Zimmerman was the first to inspire the feeling, and before he left the country recently Johnnie Johnson managed to annex all English records up to the mile. He secured the quarter at Catford, doing the distance in 28 1-5 seconds, which is two-fifths of a second better than Platt-Betts' per-formance that gave him the previous best record on June 23. The time is one-fifth of a second slower, however, than Johnson's world's record. The English mile record he put down to 1:42 2-5, which is :01 4-5 better than Betts' previous best-1:44 1-5, made on July 8. The performance also tied the tandem record of Watson and Betts. Johnson's time at the quarters in the mile race were: First quarter, :25 1-5; half,:51; three-quarters, 1:16 3-5; the final quarter being made in :25 4-5. He had previously put the English re-cord for half a mile at :49 4-5, and in the three-quarters cut three-fifths of a second from Platt-Betts' former best -1:17 1-5. In all his trials Johnson was well paced by the "quint" team that was hired to pull out his speed.

A GUELPH GROWL.

Guelph is terribly sore over the oldest bicycle manufacturers in the trouncing of its pets here on Monday. The Herald vents its anguish thus: The Leafs have defeated London six out of nine games, Hamilton five out of nine, and Galt six out of ten. Yet the London babies want the flag. Well, think that this is the bicycle of the future, but no one has as yet struck exactly the right idea.

They haven't been able to win enough games on the diamond to get into second place, but Grandpa Sheere, kind old woman that he is, has presented puncture in one of his tires while rid- them with a couple, and they should get a flag or a little balloon with a string to it, or something. London's refusal to join Hamilton and Guelph in a fair, square race to the finish, is a still more sickening exhibition of the childishness of Doc. Sippl. and Bert won't play with Hamilton, so there now!" says the big softy that dominates baseball down in the For-est City. "We'll go straight home to our mamma, so we will," Go home, children, and stay home. Play os-triches and hide your diminished heads! Be dumb as oysters! You can only win championships with your mouth or by the gift of Bert Sheere. You are afraid of any fair, open competition. You are not ball players. You are not sportsmen. You are spoiled children.

Pitcher Klobedanz, of Fall River, has been purchased by Boston for \$1,200. If he has as many curves as his name he ought to be a crack-a-jack. Jack Glasscock can play second base as well as he ever did shortstop, ap-

One thing is certain—the scrappy fellows from the Ambitious City will draw better here than Sippi's aggregation. Hamilton has always played good ball in Guelph; London very rarely.

was in its infancy half a century ago. To-day it doth "bestride the narrow world like a colossus." What is the secret of its power? Its cures! The number of them! The wonder of them! Imitators have followed it from the beginning of its success. They are still behind it. Wearing the only medal granted to sarsaparilla in the World's Fair of 1893, it points proudly to its record. Others imitate the remedy; they can't imitate the record:

How a Benevolent Lady Watches Over the Charges of the Children's Aid Organizations.

Mrs. L. J. Harvie, provincial lady supervisor of neglected and dependent children, in connection with the Children's Aid Society, is in the city today for the purpose of visiting the foster home in this section.

Mrs. Harvie was appointed last April under the Gibson Act by the Ontario Government, and is a lady well qualified to fill the important position to which she has been assigned. For twenty years Mrs. Harvie has been an active worker in temperance and missionary societies. She has on different s given add drew's Church here, where her ability Rain at Providence. She came from Toronto on Saturday last, visited some homes at Nilestown, where children have been placed, and then came on to London. Today she is visiting homes at Delaware, and when she has returned will visit Chatham, Wallaceburg, Woodstock, Appin and

Mount Brydges.

Speaking of the children under her supervision, Mrs. Harvie says she finds Canadian children of a refined temperament and capable of very great development. Of these children she has under her oversight 320 throughout the Province, a large number of whom have been placed in foster homes, which for the most part are of a very superior character. Some of these children, Mrs. Harvie will yet figure prominently in the af-fairs of the country, as many of them are very bright, and, through the Children's Aid Society have been given wonderful advantages. Mrs. Harvie emphasized the fact that family life, not institutional life, was the object to which the authorities are now payhighly of the efforts of the president of the local Children's Aid Society (Mr. Thomas R Parker), and of the agent (Mr. Joseph Sanders). While in the city Mrs. Harvie is the guest of Mrs. James Grant.

CURE FOR DROPSY.

Only a Positive Symptom-Not a Disease of Itself-Cured by Dodd's Kidney Pills.

Campbellford, Aug. 17.—An unlooked-for and remarkable recovery from an advanced stage of dropsy is just made public here. It is the case of Mrs. John Weese, wife of the widely-known veteran stage proprietor, whose life, for months, had been despaired of. From the accumulated water pecular to this disease, she became so helpless as to be unable to drag one foot after the other. She now appears on the street and says she is as well as ever in her life. And claims that after all other means had failed she thanks Dodd's Kidney Pills for her unexpected cure.

The etiquette of bicycling is receiving a great deal of discussion just now. It is believed that a wheelman who has been run over by a large bay team and a grocery wagon has a right to speak without an introduction. Mrs. Seleste Coon, Syracuse, N. Y., writes: "For years I could not eat many kinds of food without producing a burning, excruciating pain in my stomach. I took Parmelee's Pills according to directions under the head of 'Dyspepsia or Indigestion.' One box entirely cured me. I can now eat anything I choose without distress-ing me in the least." These pills do not cause pain or griping, and should be used when a cathartic is required.

If Se Then the Venezuelan Trouble is at an End.

Washington, Aug. 19. - The cable report from London that Lord Salisbury has yielded to Secretary Olney on the crucial point of the Venezuelan negotiations, that of including the set-tled portions of the disputed tract in the proposed arbitration, is regarded as an important development by those interested in the subject. This inclusion of the "settled districts" has been the chief obstacle in the way of arbitration, so that if the

report of its removal is confirmed, the two Governments appear to be nearer to an amicable agreemenet than at any time since the trouble began. Lord Salisbury from the first has insisted that this settled district was sovereign British soil, which could not be subjected to the judgment of arbitrators. Secretary Olney has urged that the omission of this settled portion from arbitration would defeat the whole scope of the arbitration, as the unsettled, or worthless, sections, were not what Venezuela contended for.

We have no hesitation in saying that Dr. J. D. Is a Good Investment.

FOR THESE REASONS:-

1.—It is not a promotion scheme floated on surface indications, but a working and shipping mine.

2.—Sufficient work has been done to demonstrate that its ore deposit is of great extent and has a well-defined lead.

3.—The ore has constantly increased in volume and richness as it has decended from the surface.

4.—The Officers of the Company are all trained and competent miners, who, through honest development work, careful tests and examinations, are satisfied that they now have sufficient ore in sight to justify the erection of a compressor

5.—The Company believe that the work already done in the mine should prove to thoughtful and careful investors, that, with machinery, it can be made a decided success, and that its stock affords a safe investment,

6.—Having men' of practical and technical ability on it executive and engineering staff sagacious and methodical attention will be given to all the details necessary for the operation of the mine on an economical basis.

7.—The Company is free from debt and has acquired an absolutely perfect title to its property direct from the Crown.

8.—Searching investigation of its title deeds, the business standing of the Company and all statements made about the mine is invited,

Any questions regarding smelter returns from cars of ore already shipped, assays made, Crown grants, etc., etc., will be cheerfully answered. Printed matter and reports furnished on application.
