A DAY IN THE SPORTING WORLD

SIDE LIGHTS ON
MANY SPORTSTHISTLE BOWLING CLUB
RE-ELECTS ITS OFFICERS

Enthusiastic Meeting Held in North End Rink Last Evening—Amalgamation Discussed and Several Members Sign Role—Several Other Matters Taken Up.

About sixty members of the Thistle Bowling Club gathered in the spacious club rooms of the north end rink last evening for the annual meeting of the bowling department of the club. The election of officers and the discussion of several important matters pertaining to the season just closed and next season occupied the evening.

Practically all the former officers were re-elected. The past season had been one of the most successful in the history of the club, and Secretary Bluet recited the many victories Thistle bowlers had won during the summer to bear this out. With such a record season behind them the officers could not help but accept another term in office.

Greens Need Leveling. Reports from the different committees were made by different chairmen, and each department was shown to be in first-class shape. The grounds committee, in charge of Mr. John Puddicombe, had been exceedingly active during the year, and the members paid quite a tribute to Mr. Puddicombe for his share in the work in the re-ception they gave him when he arose to make his report. He explained that the greens still needed a lot of attention, and the grounds committee found it necessary to put about thirty loads of earth, at least, on the grounds every year in order to put them in good shape for next season. He suggested that it would be a good plan to keep leveling the greens off during the season by putting dirt on them. The earth would not smother the grass, as it would easily work in during the sprinkling of the grounds.

The reports of the other committees showed that their end of the work had been well looked after during the season.

The Amalgamation Discussed. Mr. P. P. Fetterley made a brief address, outlining the proposed amalgamation of the curling and bowling departments. He requested the members present who intended joining both the curling and bowling clubs to sign

their names on the membership roll. By signing this they become permanent members of the Thistle Company, Limited, and must pay the combined fee of the curling and bowling departments each year. Their names will remain on the roll until they resign from membership.

Press Tendered Vote of Thanks. Before the meeting closed votes of thanks were tendered to the officers of last season and the chairman and members of the different committees for the work they had accomplished during the past season. A vote of thanks was also tendered to the local press for the interest taken in the club, and the space devoted to the club's doings.

The meeting was interspersed with a couple of solos and recitations by Mr. Ed Steer, which were rendered in his usual able manner.

The Officers.

The following were the officers elected:

CHAMPION LADY GOLFER WHO
HAS BEEN INVITED TO LONDON

MISS GLADYS RAVENSCROFT, the English golf champion, who won the women's golf championship of America at Wilmington last week. Miss Ravenscroft, together with Miss Harvey, of Hamilton, and Miss Pooley, of British Columbia, will likely be seen in London in an exhibition game at the Kennels some day next week.

English Lady Golf Champion
May Pay a Visit to Kennels

Invitation Has Been Accepted by Miss Ravenscroft but as Yet No Date Has Been Announced For Her Arrival—Miss Pooley and Miss Harvey Coming Also.

Miss Gladys Ravenscroft, champion lady golfer of America, and also of England, may be seen in action at the Kennels some day next week. A few days ago an invitation was extended to Miss Ravenscroft and Miss Florence Harvey, of Hamilton, and Miss Pooley, of Victoria, all of whom took part in the national open championship at Wilmington, to come to London. The invitation was accepted, but as yet no date has been arranged for the trip. In Miss Pooley's mother and sister are at the city at the present time, and Miss Pooley and Miss Harvey had intended

paying a visit to this city anyway. Miss Pooley was instrumental in getting the English lady golfers who competed in Montreal and also at Wilmington, to come to this country and take part in these events.

Miss Ravenscroft's Victory Unique. Miss Ravenscroft is a splendid golfer and if she comes to London a big reception will be planned for her when she arrives. An exhibition game will also be played. Miss Ravenscroft's victory at Wilmington was unique in that it was the first victory England has obtained over the United States in any athletic event this year.

BERLIN CLUB LOSES
BRAMBLE BY DRAFT

Fort Wayne Secures Dutchman's Best Pitcher, and Club Thinks It Is Shaughnessy's Method of Getting Him.

Berlin, Oct. 24.—President Kalbfleisch of the Berlin Canadian League team today received notice from Secretary Farrell of the National Baseball Association that Fred Bramble, the pitcher, has been drafted by Fort Wayne, of the Central League. The notice of draft was accompanied by a check for \$300. The directors are reluctant in accepting \$300 for the big pitcher, and will claim \$500 for him. President Fitzgerald of the Canadian League has been communicated with in the matter. It is understood that Fort Wayne has drafted Bramble for Manager Shaughnessy, of the Ottawa Senators.

"NOTHING BUT LIES,"
SAYS PRES. STEVELY

London Club President Says Deneau Is Not Speaking the Truth, and He Knows He Is Not.

"Nothing but a tissue of lies" was the way President Stevely of the London Baseball Club summed up the letter written by Rube Deneau appearing in a local morning paper today. The letter, written by the former manager of the London Club, places his side of the case before the London fans, and is a reply to the letter published by the directors of the London club last week. President Stevely says that he has the proof to show that Deneau is not speaking the truth, and he cannot understand why Rube still continues to maintain what he does when he knows he is in the wrong.

JIMMY M'AVOY, BERLIN CATCHER,
LOOKS LIKE REAL GOODS TO MACK

Leader of the World's Champions Thinks He Has Another Schang in Rochester Youngster Who Played With Berlin in Canadian League Nearly All of Last Season.

The Rochester Post has the following interesting article on Jimmy McAvoy, who caught for the Berlin team this season:
Jimmy McAvoy, \$200 richer for his short term in the primary department of the world's championship school of Cornelius McGillicuddy, has returned to town. James will be with us all winter, this schedule meanwhile does not call for any more sport than an occasional game of pool. This isn't to be taken as an indication that he is an inveterate pool player. Far from it, though he plans to play at least two games before the winter is over; one to get in practice for the second, when he expects to have a heart-to-heart talk with John Gangel, manager of the Hustlers.

Thanks Gangel. "I just gotta thank Gangel for releasing me when he did," Jimmy told his manager of semi-pro days, Cornelius Buonomo. "If he hadn't done it, I'd a never seen Philadelphia, and I just want him to know I appreciate it. All the best way for me to tell it will be to kind a work my way into a pool game with him and then just slip it to him in a nice way. You see, I've been here other than to get into form for this combination pool and conversation game. McAvoy has but one matter to give attention to this winter. He must take care of himself."

A. A. Langford. "On Sunday morning Jimmy and I were strolling along Broadway when we met Mr. and Mrs. Mack. I guess they were going to church. Buonomo told 'em yesterday. Buonomo and McAvoy, by the way, had just returned from the world's series."

"Now I had never met Mr. Mack, and when I saw him coming along I had no idea he would stop and talk to us simply because he knew Jim and had given him a trial. But he did. Jimmy introduced me, and then Mr. Mack introduced me to Mrs. Mack. I never expected to live to see the day when I would be able to shake hands with the leader of the Athletics, and I told him so. I told him all I could about my new summer. He just said, 'Nothing to it. You shouldn't feel that way,' and then began to talk about Jimmy. He really believes Jimmy is going to be a good catcher. Even Mrs. Mack seemed to know all about him, cause she said I should do all I could to make Jimmy take care of himself this winter."

It's Up to Jimmy. "Right before me," Mack told Jimmy. "Kid, it's up to you, now. Take care of yourself this winter and I'll be able to use you next summer. It must be that Jimmy 'll be all right along with Schang and the rest of them next year. Buonomo is more than proud of McAvoy. McAvoy, in 1912, was the catcher for the Hustlers, which Buonomo has managed ever since there have been Hustlers in baseball, and even before that when almost the same set of players were known by other names. That's why he talked so much about Jimmy yesterday."

Murphy Tells Him How to Bat. "Jimmy tells me he has changed his style of batting since he went to Philadelphia. The first day I went to the plate," he said to me, "I went up just as I used to. You remember Slick, with the old crutch? Well, I didn't crutch long. Dandy Murphy was up to me in a minute. He said there'd be none of the crutch business any more, that from then on I'd take a healthy swing. You see that's Dandy's business now. He tells you when you're not doing it right, and puts you right. I guess if we could see Jimmy work now we wouldn't know him."

Mack Likes McAvoy. "That Mr. Mack thought a lot of the kid is shown by the way he treated him. The few weeks he had him he paid all his expenses from Rochester and back home again, even to the kid's board and laundry. Besides he gave him \$200. That's pretty good, when you think if Gangel hadn't released him he might not have caught in a ball game all season. Say, wouldn't it be great if Jimmy got a chance in a series next year?"

Played Four Games With Mackmen. "That Mr. Mack took part in four games for the Athletics. In that time nine opponents tried to steal bases, and all but one he threw out. That one was Mel, of the New York Americans. After he was released by Rochester, McAvoy went to Berlin in the Canadian League, where he proved a sensation. It was on the recommendation of Jack White, an old Eastern Leaguer, that Philadelphia drafted the local boy."

THE ALL-WEATHER TREAD
Another Goodyear Invention

A Smooth Tread on Dry Roads—An Invincible Grip on Wet

Now comes the solution of the All-Weather tread. The tread for all wheels and all seasons. As smooth as a plain tread on dry roads. Equally economical. Yet grasping wet roads with a most tenacious grip.

It outlasts smooth treads now with users on the largest-selling tires in the world.

Deep, Sharp-Cut
Flat-Top Blocks

Safety suggests, to every motor car driver, the universal use of anti-skids. But smooth treads were better and more economical for 90 per cent of one's driving. So many added chains on wet roads.

Now Goodyear has an anti-skid which presents a smooth tread to dry roads. The projections are broad and flat. They are regular, so they cause no vibration.

The blocks widen out so they meet at the base. Thus the strains are distributed over the fabric the same as with smooth-tread tires. It was separate projections—centering the strain at one point in the fabric—which ruined so many anti-skids.

This All-Weather tread is an extra tread, giving double thickness. It is made of very tough rubber—toughened by a secret process—immensely wear-resisting.

The blocks are so deep—the rubber so tough—that the grips last for thousands of miles.

The block edges are sharp, and they stay sharp. Sharp edges alone can afford a firm grip. The edges are set at 45 degrees to face the skidding direction. Cars skid, we find, at 45 degrees.

Compare it point by point with others—its thickness, its toughness, its sharpness, its grip. Its regular projections, avoiding vibration. Its distributions of strains, its smoothness, its angles.

We don't need to argue that this tread exceeds any other anti-skid created.

The result is a universal tread. A smooth tread ready for any emergency. A durable tread. A cool tread, because of the swish of air.

Our sale is enormous. Men who know them will use nothing else.

Note the deep blocks, the sharp edges, the flat tops. Note the broad bases which distribute the strains. Note the perfect alignment to avoid vibration and give the smooth-tread effect.

This All-Weather tread is one of the many exclusive Goodyear features.

Here are three others—costly, vital features which no other maker offers.

These are the reasons why No-Rim-Cut tires dominate in Tiredom. After years of tests, no other tire compares with them in sales and popularity.

Things Found Only in
No-Rim-Cut Tires

We control by secrecy the only feasible way to end rim-cutting.

No-Rim-Cut tires can't rim-cut—that we guarantee. Hundreds of thousands have proved this.

With old-type tires—clinchers—31.8 per cent are discarded for rim-cutting only. Almost one in three. That is proved by statistics gathered by certified public accountants.

No-Rim-Cut tires are final-cured on air bags, under actual road conditions. This is done to save wrinkles in the fabric—wrinkles which shirk the strain. They cause countless blow-outs.

This "On-Air-Cure" adds to our tire cost \$300 daily—just to save blow-outs for you. All other tires are vulcanized on iron cores alone.

No-Rim-Cut tires employ a patent method to prevent tread separation. This cost Goodyear \$50,000. Hundreds of large rubber rivets run down through the breaker fabric, making the tread an integral part of the tire. This adds 60 per cent to the tread hold, as proved by careful tests.

Thus we combat the three greatest tire ruins, in costly ways which no one else employs. Thus we save motorists millions of dollars.

Yet No-Rim-Cut tires now cost no more than other standard tires. They used to cost one-fifth extra.

Our multiplied output and modern equipment have brought the cost down and down. And the savings all went to our users.

Go see these tires—see why they rule. One glance will show you a dozen advantages, and our dealers are everywhere.
