"No," replied Williams.
The latter stated the men drove up in a McLaughlin Six machine, but was uncertain whether there were others seated in the car.
Detectives showed him photos of the men a week ago, he said, and although they did not say they were the alleged bank robbers, he "had an idea" they were.
He saw their pictures in the London Advertiser a day or two previous to the time he saw them in the Lambton county jail.

Answering this question, McKay declared emphatically that although he was down on his knees in the same room he did not remember seeing any other bandit than McMullen despite the manager's testimony to the contrary.

Reading extracts from McKay's evidence at the Sarnia preliminary hearing, Attorney McEvoy questioned him if he had not stated that Miss Vera MacIntosh, clerk in the bank, was escorted by a bandit into the manager's office and compelled to lie on the floor.

Answering this question, McKay declared emphatically that although he was Mrs. Koehler walking with Faulkner in London, but was not introduced until the following day, when he met her at the Iroquois to the converse the sar witness, arrived here this afternoon, and will appear as a divine story the defence.

Chicago, June 15.—Forecasts of cooler weather in the Southwest turned wheat prices downward today after a brief display of strength at the opening. Initial gains were due to continued unfavorable crop conditions for winter wheat, but prospects for cooler temperature acted quickly as more than an offset. Good rains in the spring wheat belt counted also as a bearish factor. The opening, which ranged from ½c to ½c higher, was followed by slight further gains, and then by a setback all around to well below yesterday's finish. Corn followed the changes in wheat, and after opening %c off to ½c advance, underwent a general sag. Unfavorable crop reports gave strength to the oats market, which opened ½c to ¼c to ½c to ½c to ½c chigher, later scoring additional gains before beginning to react. 14 Toronto Trust ...210 Bonds— \$2000 Rio de Janeiro... 85
