Interesting Features of the Day Before the Holidays-Winners of Competitive Drill Flag and the Governor-General's Medals.

(From Saturday's Daily Edition.)

That Britain has another generation of true-hearted Canadians growing to active manlhood and womanhood, who will be ready '... bear their parts when the time comes in sharing the responsibilities and dangers of the Empire, was amply evidenced at the closing of the city schools yesterday—patriotism being the keynote of the interesting exercises everywhere, and the stirring martial poetry of the nation, together with expressions of affection for the grand old flag, being important features of the programmes in all cases. The new rule providing for annual, instead of semi-annual, examinations, having come into force, the customary voluminous promotion lists were not in evidence, and the closing exercises consisted in the main of illustrations of the practical work of the school rooms, supplemented with readings, recitations and vocal music by the pupils, all of whom entered into the proceedings with zest and evident enjoyment. The practical work of the school rooms, supplemented with readings, recitations and vocal music by the pupils, all of whom entered into the proceedings with zest and evident enjoyment. The practical work of the school rooms, supplemented with readings, recitations and recided to the assembled parents and friends of education, much encouragement to the devoted instructors being thereby afforded. Nor was the physical drill, a most important factor in the education of the men and wowen of a few years hence, in any war analysts and the life.

YOUR PUPILS, nvoluntary and enthusiastic expressions f admiration from each and all.
Until 11 o'clock the exercises were in

Until 11 o'clock the exercises were in no way apart or different from the regular work of the various classes, parents and other visitors being afforded an opportunity of seeing just how their little folk are instructed in the groundwork of a useful education. At 11 came an adjournment to the assembly room, where the appended programme was admirably carried out, the recitations being an excentionally meritorious feature of school, won by Miss Fanny Forbes Whyte; and the other, a bronze medal, won in a competition among the pupils of the public schools in this city at the annual examination for entrance to the High school, which was won by Miss May Few, a pupil of the North Ward school taught by Mr. Principal McNeill, two of whose pupils had the distinction of heading the list last midsummer.

The flag was presented by Ald. Hayward for competition in drill among the four companies of the High school, as hereunder: mirably carried out, the recitations being an exceptionally meritorious feature of the scholars' programme of entertainment. The singing, too, was highly pleasing, and exemplified great care and attention, not only on the part of the youthful vocalists, but by Mr. Sallaway, to whose instructions the excellence of the school singing is in great part due. Rev. Dr. Campbell presided and gracefully introduced the several items of the short but interesting programme; and addresses were given by the reverend chairman and by City Superintendent Eaton. Afterwards the assembled visit-

"Merry Christmas"..... "God Save the Queen." The girls of the Central also met

their respective class rooms at the usual school hour of assembly, and were examined in the routine work of their departments until 10:30, when the junior classes were massed and a very interesting programme of music and recitations carried out, the children being addressed by Mrs. William Grant and by City Superintendent Eaton, dismissing with the singing of the national anthem at 11:30. At this hour the seniors were assembled, and also addressed by Mrs. Grant, "God Save the Queen" terminating the interesting proceedings. The programme presented by the juniors—pupils of divisions V, VI, VII and VIII, was as hereunder: Opening—"Tinkle, Little Bells......

tions?

1. What amount do the promoters of this scheme propose to pay Mr. Paterson for his equity of redemption in the Victoria & Sidney railway?

2. If it is correct that the Victoria & Sidney railway is now encumbered to the amount of \$420.000, viz. \$300,000 bond issue and \$120.000 paid by the corporation of the city of Victoria and the provincial government being guaranteed interest—on said bonds?

3. Has the said railway company ever paid any interest on its bonds?

4. What was the original cost of the command of No. 4 Company."

The Girls Are Glad.—In connection with the pleasing drill competition at the High school yesterday, it will please the girls to know that Capt. Clive Phillipps. Wolley fins expressed his intention of offering a suitable prize for a calisthenic competition somewhat on the line of his suggestion in presenting the Hayward flag. The schools are announced to reopen on January 8, the second Monday in the new year.

4. What was the original cost of Helping the Needy.—The various local

the years in which we have been associated to gether as fellow teachers, we have learned to feel for you an esteem which words seem inadequate to express. Not only have you endeared yourself to us by the deep interest which you have ever manifested in the welfare of every member of this institution, but chiefly do we treasure the memory of your gentle dignity. Your seem building at \$6,000 per annum is ster. The arrival of the steamer had not been reported yesterday, although she losen reported yesterday, although she to onstructed soon at \$200,000 was due on Thursday. There is not likely to be anything serious the matter with the vessel, but as Mrs. O'Reilly was very ill when she left here, her arival of the steamer had not been reported yesterday, although she to be onstructed soon at \$200,000 was due on Thursday. There is not likely to be anything serious the matter with the vessel, but as Mrs. O'Reilly was very ill when she left here, her arious to hear of her arival.

this institution, but chiefly do we treasure the memory of your gentle dignity, your patient unselfshness, and your sympathetic memory of your gentle dignity, your patient unselfshness, and your sympathetic methods. Never, perhaps, will your example cease to influence and inspire us, and we sincerely and unitedly pray that in the would necessarily follow in case of tense upon which you are about to enter, the blessing of heaven may rest upon you and bring to you every happiness that mind can think or heart can wish. We beg of you to accept this souvenir of our affectionate regard, and we hope that in the days to come it may often remind you of the happy hours that you once spent in the North Ward school.

YOUR ASSOCIATE TEACHERS.

Was stated to be so by Mr. Paterson at a public meeting recently?

Victorians at the Front.—Probably no British Columbia family is better represented at the front—if as well—than that the form of the victoria & Sidney railway properly ballasted and in proper shape to sustain heavy traffic we shape to sustain heavy traffic of Mrs. Blumenthal, a former and well just come to the family that one it may often remind you will be conferring a great favor on some of the unintelligent ratepayers and also assist them in deciding how to mark their or the office of the treasurer of the Havana of the Boers, at the forthcoming municipal that had been provided in anticipation of a protracted siege—this by the Boer complete. Such work yields a constant and then releved of every cop of a mixture of clay and sand—good at the office of the N. P. line, which will cause sinking and rot. The edicating how to mark their or the office of the treasurer of the edited to day at a meeting in the hands of the Boers, at the forthcoming municipal to the intention of the street wooden paved is too flat on the crown—the water lodges is too flat on the crown—the water lodges is too flat on the corne of Mrs. Blumenthal, a former and well just come to the family home being was allowed to do this by a wiser street and th

TROUBLESOME INDIANS.

called, almost with gaiety, undoubtedly with insouciance, "Come back, you fellows! don't throw that arm of mine away till I get the ring off the finger." Chilcotins Attempt to Drive White
Settlers Out of Their Country.

The Chilcotin Indians are again causting trouble in the vicinity of Tatla lake, their objection to the settlement of white men in that vicinity being the cause. Mr. B. Franklin and Edward Elkin, a brother of the man for whose murder one of the Chilcotins is serving a life term, commenced the erection of a fence around a tract of land acquired by Mr. Franklin on Tatla lake, fully 100 miles from the reserve. The Indians threatened that if the fence was built they would burn it down and drive eff the cattle, but the white men persisted until one day fhey were driven to their cabin, the door of which was broken in by the natives. Two handy rifles, howen mitting murder. The next day Franklin and Elkin started for Alexis Oreek. They were me ton the way by the Indians, who again threatened them, but after a little parleying allowed them to pass. At Alexis Creek warrants were sworn out for the arrest of the ringleaders, and constables have started out to serve them.

Chilcotins Attempt to Drive White
Settlers Out of Their Country.

In a delightful article in a London paper some months since, which, be it said, I have generously dealt with in the matter of culling from it some history—mere literary kleptomania—very common complaint—they tell the story of the death by Elizabeth of Prussia. "He was dragged to the scaffold, his wig and cap torn from him, his shirt rent, and he was bidden to lay his head on the block. Then, when he was expecting death with every heart-beat, a reprieve was announced. 'Very well,' was the philosophical reply; 'then be so good as to hand me my wig and cap again.' He inished his toilet imperturbably, and walked away as if nothing had happened." A rummy old beggar he was, as our chum. Kipling, was used to say.

Our own Prince of Wales showed not a little pluck when he turned over to sleep again while the earthquake at Naples was going on. Since, he averred, he didn't see that getting up would stop the row, he preferred to finish h

ness—comes to my mind. We will put it rather as the witty Austral-Hibernian editor did in "The Hillyars and the Bur-tons": "Sus tranquillus bibit factem."
