TO PLACE ALL ON
EQUAL BASIS.

Uniform Administration of Military Service Act sought by Questionnaire Method.
The great crisis through which the world is now passing has served to emphasize among a great many other things the value of the questionnaire method. Because equal privileges are enjoyed by all citizens of Canada, it is the duty of our Government to see, as far as it is able, that all are made to bear equal sacrifices. That the Dominion's War Government is not unmindful of its duty in this respect is evidenced from the fact that it is taking to ensure the equitable administration of the Military Service Act. Questionnaires are about to be addressed to all exempted men so as to permit a checking of the decisions in the case of each to the end that uniformity be established in the application of the legislation. These questionnaires must be returned promptly upon penalty of forfeiture of the exemption papers previously granted. Exempted men should notify the registrar of their district of any change of address, as non-receipt will be regarded as constituting failure to return questionnaire, property filled in as required. The Government is determined that the Military Service Act shall be administered fairly and in this determination they will have the active support of all followers of democratic ideals.

THE QUEBEC RIOTS.
It is regrettable that the young men of Quebec would so far forget themselves as to create such disturbances as took place in that city last week. No doubt much of the damage wrought was done while the rioters were laboring under great excitement, but this should be no excuse. The place for young Frenchmen to fight is in France, and against the Germans. The Militia Department should deal firmly and promptly with them, and send them where they will get "fed up" on fighting until the end of the war. We think we voice the sentiments of the better class of French residents.

On Tuesday last our ladies hockey team went to Gaspe to play a return game. They had a good trip although they did not win the game, the score was close enough to make it a very exciting game. Messrs. W. Luce, V. Arsenault, L. Caldwell, W. Huntington and W. Anderson went down with the team, and by the good cheer at the station on their return one would think the score was in their favor, so they are good losers. The young men treated the team to dinner on their return to New Cariblie.

Rev. J. M. Sutherland is inspecting schools up the line now.

DO YOU KNOW THAT.
Some of the world's most noted characters have never written more than a line; or at least no trace of such writings can be found. Some have left no writings. Shakespeare has left only a few autographs for present-day people to see.

Of the 26 barons who signed the Magna Charta, only three could write their own names.
Bishop Butler worked 20 years on his "Analogy," and then wanted to burn it because he thought it not good enough.

George Eliot read more than 1000 volumes before she began to write "Daniel Deronda."
There are 2064 languages in the world.

A STRIKING ANSWER.
An Irishman inviolated home from the war was asked by one of his relatives what struck him most about the battle he took part in.
"What struck me most?" said Pat.
"Sure, it was the large number of bullets flying around that didn't hit me."

A GOOD PLACE TO KEEP IT.
Burke once mentioned to Fox that he had written a tragedy. "Did you let Garrick see it?" inquired his friend.
"No," replied Burke, "though I had the folly to write it, I have the wit enough to keep it to myself."

FRATERNIZING WITH WORK.

An Irish gentleman parting with a lady servant-woman, was asked, with respect to her industry, whether she was what is termed afraid of work.
"O, not at all," said he; "not in writing about the death of Mrs. Rounder, I frequently lie down and fall asleep by the very side of it."

Curious Oriental Customs.
The females of India in order to keep silent fill their mouths with water.

It is a custom in Siberia that when a man is married he must prepare the wedding feast with his own hands. If the food is well cooked her credit as an accomplished housekeeper is established or vice-versa. As a result of this practical custom, most Siberian brides make good wives.

Joan of Arc Not Burned.
Recent French investigations are declared to show that Joan of Arc did not die at the stake in Rouen. Instead she lived many years after that time and was happily married in Orleans.

History Repeats Itself.
One of the old time German princes in a dream saw three rats, one fat, another lean, and a third blind. He sent for a learned Bohemian gipsy to interpret his dream.
"The fat rat," she answered, "is your prime minister. The lean rat is your people and the blind one is yourself."

HE FELT SATISFIED.
"Once in a while an error turns out to be the truth," said the editor.
"How is that?" asked the caller.
"Why," replied the editor, "in writing about the death of Mrs. Rounder, I referred to Mrs. Rounder as 'the bereaved widow,' but the compositor made it 'the relieved widow,' and it got into the paper that way, and Rounder never even called up to demand a correction."

Ancient Montessori Method.
Herdes, to overcome the extraordinary dulness of his son Atticus, educated along with him 24 little slaves of his own age. He gave each the name of a letter of the Greek alphabet. His son, in order to play with them had to learn the alphabet to call their names.

Put an end to such stomach distress now by getting a large fifty-cent case of Pape's Diarrhoea from any drug store.
