Third resolution, That whereas assurances have been received from the Grand Trunk railway company, our own great Canadian road, that in the event of the Emerson and Northwestern railway charter being sustained they were willing and anxious tobuild Northwestern railway charter being sustained they were willing and anxious tobuild and operate the road, and give us a competing line as well as connection with their present system to the seaboard, the dominion government through their action in disallowing this charter are responsible for keeping the Grand Trunk railway out of the province, and therefore this meeting condemns in the strongest manner possible the action of the federal government in depriving the province of competing railway connection in opening up and developing the trade of this great country.
