The meeting was adjourned for two weeks in order to await the result of the sale. The principal creditors are in Toronto and Montreal, S. Greenshields, Son & Co. of the latter place being in for \$3095. They hold an assignment of the book accounts, notes and acceptances of the insolvents as accurity.

The assignee's meeting of creditors in the matter of Patterson & Co. of Lindsay was held in this city yesterday. The statement brought down by Mr. McClung, the assignee, shows liabilities of\$17,000, with assets amounting to about \$10,000. The reasons advanced by the insolvent for the deficit are loss on stock at Fenelon Falls, too much advertising and competition. The insolvents were visited by fire a short time ago, and although the matter is not yet adjusted, the assignee hopes to get about \$2000 insurance, which, added to \$10,000 worth of stock, will bring the assets up to \$12,000. Mr. Patterson made an offer of 40 cents on the dollar, 20 cents payable in 30 days, 10 cents in two months, and the balance in three months, the meeting being adjourned for a week in order to hear from the creditors as to their acceptance of the insolvent's offer. ordered to be destroyed.

The city got ahead of the Dominion Government in a little deal recently. At the time of the cholera outbreak the Government borrowed the city's disinfector which cost \$1500, and removed it to Gro Isle, stating that a new one could be built for the city at Government expense. The new one which was built had a few improvements on the first one and cost \$2500.

Nicholas Awrey, M.P., has asked the city to send a disinfector similar to the one used by Dr. Allen to the World's Fair.

Work on the Court House, Although the decision of the City Council leaves Mr. Lennox perfectly free to complete the Court House by day labor if he sees fit it is understood that he will call for tenders next week and give only a week's notice, so that the contract may be awarded, if upon the opening of the tenders he desires to award a contract, by the first week of March. The figures sent in by the tenderers will in effect give an answer to the query as to how the work shall be completed. If the tenders are high the architect may decide upon day labor, if low he will in all probability accept the bid of some one of the big city contractors to twhom a half-million dollar work will not prove such a big undertaking. Mr. Lennox is resolved that nothing shall prevent the work from being started up early this season and carried on vigorously. he sees fit it is understood that he will season and carried on vigorously.

26 TORONTO-STREET John J. Dixon & Co. received the following over their private wire from Allen & Co.:

The stock market has been aimost featureless to-day, though except in a few stocks the general list showed remarkable firmness considering the very many depressing factors arrayed against the market values. The uncertainties of the government's financial policy and the anxiety shown by influential bankers are naturally creating nervousness which reached beyond the confines of Wall-street and is influencing opinions in all commercial quarters. President Harrison, it is believed, will not consent to have the close of his administration distinguished by such confessions of finapcial mismanagement as would be involved in a big bond issue during the last month of his term. Many of the biggest banks in Wallstreet are calling loans, their managers being genuinely apprehensive of current conditions. Several of the trust stocks are wobbly. Sugar went off very easily and some of the other similarly situated and over-boosted securities are likely to slide downward very easily if only a general push be given.

Gossip Prom Chicago.

R. Cochran received the following despatch from Kennett, Hopkins & Co. to-day:

Chicago, Feb, 14.—Wheat—Would have weakened to-day under heavy increase on passage but for unfavorable weather. There have been several epidemics of crop damage reports past few weeks. Predictions so persistent they have made an impression on the speculative public. The rain to-day, with a predicted cold wave following, is expected to lay the foundation for another field. July wheat has been relatively weak in consequence, that month having been sold and May bought at %c difference by a prominent clique house. Undoubtedly there is money to the commission house in these transactions, but it looks a losing deal for the customer. Corn and oats were weak early, but rallied on covering by shorts in sympathy with wheat. John J. Dixon & Co. received the following despatch over their private wire from Schwartz, Dupee & McCormack to-day:

Chicago, Feb, 14.—Provisions opened and ruled lower under the influence of a decided increase in receipts of hogs. Of course a considerable part of these receipts were snowbound hogs, but they had their effect and tired holders sold quite freely. The short interest did the best buying folical and outside selling, and a lower market is probable for to-morrow morning. We look for another sharp falling off in hog receipts before threat and especially favor ribs.

In placing our Odell Typewriter on the market we are fully alive to the attack which may be made upon it by the makers of writing machines who have already a place in this market. Many persons on seeing the machine, or an illustration of it, will condemn it from sheer prejudice, saying: "Oh! it is not a key machine—it can't be any good.
