Make Us Prove It

We dare not exaggerate to you. We are dependent upon your patronage. To get it we must have your trust and confidence. We make the following statements with a full understanding of what they mean to us. You are safe when you believe in these statements.

For the Bowels

If you only knew as much as we and those who have used them know about Rexall Orderlies, you would be as enthusiastic about recommending them as we are. They taste just like candy. They act so easily and so pleasantly that the taking of them is a pleasure.

Even children like Rexall Orderlies; and you know that if a medicine appeals to a child, it will appeal to grown-ups.

Rexall Orderlies

help chase gloom, dispel blues and make you feel happy by their splendid tonic, cleansing and strengthening effect upon the bowels. — They act to free the system — and keep it free — from the distress and ill feeling that naturally results from irregular and inactive bowels.

Rexall Orderlies do this quietly, without griping or causing nausea, purging or excessive looseness. They act to overcome and remove the cause

of bowel ills and in a short time usually make unnecessary the continued use of physics and purgatives, thus tending to stop such unhealthy habits as may have been formed.

Make us Prove This

We do not ask you to take our word for this. We want you to make us prove it, and at no cost to you:

Buy a box of Rexall Orderlies at our store. Use them once, or use up the whole box. Then, if you are not thoroughly satisfied, just come back empty handed and tell us. Without obligating you or questioning you we will return the money you paid us for them.

Doesn't that indicate that Rexall Orderlies are at least worthy of trial? Doesn't it prove our faith in them? Doesn't it merit your confidence? Could any offer be more fair to you?

We particularly recommend Rexall Orderlies for children, delicate and aged persons. Rexall Orderlies come in convenient vest-pocket size tin boxes. 12 tablets, 10¢; 36 tablets, 25¢; 80 tablets, 50¢.

CAUTION: Please bear in mind that Rexall Orderlies are not sold by all drug-gists. You can buy Rexall Orderlies only at the Rexall Stores. You can buy Rexall Orderlies in this community only at our store:

J. W. McLAREN

Watford Ontario

The Rexall Store

There is a Rexall Store in nearly every town and city in the United States, Canada and Great Britain. There is a different Rexall Remedy for nearly every ordinary human ill — each especially designed for the particular ill for which it is recommended.

The Rexall Stores are America's Greatest Drug Stores

Distribution of Pure Bred Male Animals by the Department of Agriculture, Ottawa

Realizing that inability to secure the use of well-bred male animals is at the present time one of the greatest difficulties standing in the way of live stock development in many parts of Canada, particularly in the newly settled districts, the Dominion Department of Agriculture, through the Live Stock Branch, is this year undertaking a wide-spread distribution of pure bred stallions, bulls, rams and boars. The original cost of the animals will be borne by the Department and they will be placed in the hands of such local organizations as agree to the conditions governing the distribution. In a word these sires will remain the property of the Department, but the local associations will be responsible for their proper maintenance and management under the general supervision of the Live Stock Branch. In the case of stallions, the members of the associations will also be required to pay a fee covering an annual insurance premium.

All animals distributed will be bought from home breeder and will be Canadian bred. As far as possible, they will be purchased in the province in which they are to be placed. In this way Canadian breeders will receive encouragement at their market will be increased not only directly but also indirectly through the emphasis given throughout the country to the value of pure bred sires. It may be added that it is not the intention to place the animals in districts where suitable male animals of the same class are already owned by private individuals. The aim is rather to aid sections where pure bred sires are lacking and as well to encourage new communities in following a proper and intelligent system in breeding.

All bulls distributed will be purchased subject to the tuberculin test and only stallions which have passed a rigid veterinary inspection for soundness will be selected.

In order to take advantage of this form of assistance, it will be necessary for interested parties, in any section, to undertake the organization of a local association in whose hands such sires as are required may be placed. Complete information regarding the rules and regulations governing the distribution may be made upon application to the Live Stock Commissioner, Ottawa. Whenever possible, an Officer of the Branch will render assistance in the perfecting of the necessary local organization.

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Exterminator to drive out the parasites.

Last Thursday while M. Sadler was at work on his farm, adjoining the town, a big blowing adder came at him in a manner that indicated danger. Mark took refuge in his nearby wagon and sent out a wireless call for help. Geo. Beatty and Geo. Core came from an adjacent field and dispatched the snake-ship, which was found to be nearly six feet in length. — Forest Free Press.

A POWER OF ITS OWN.—Dr. Thomas' Electric Oil has a subtle power of its own that other oils cannot pretend to, though there are many pretenders. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

Consolidation of Rural Schools

In an admirable article in the May issue of the Canadian Magazine, Mr. J. C. Sutherland, Inspector General of Protestant Schools in the Province of Quebec, makes a strong plea for the consolidation of rural schools. The small, isolated, one-teacher, country school has, he believes failed, and must continue to fail. He asserts that the consolidated school insures a livelier local interest, better equipment, more advanced instruction, a larger school library, and a community centre for the people. It would also permit of the efficient teaching of the elementary principles of agriculture.

BADLY ULCERATED LEG

Zam-Buk Cured Her When so Bad She Had to Use Crutches

For varicose sores, bad leg, or chronic ulcers, Zam-Buk is without equal as a healer. A proof of this is just to hand from Montreal. Mrs. T. Edwards, of 164 Amherst St., writes:—"Some time ago a bad sore broke out on my left leg near the ankle. For a week or two I did not heed it, but it got so bad that I could hardly walk. I sent for our doctor, and he told me that I would have to lay up with the wound. I did so for three weeks. At the end of that time the ulcer healed a little, but I could only move about by using crutches. "The sore then broke out badly, and the doctor told me that the only thing that would cure it would be an operation, and that I should have to lay up for a year. This, I knew, was impossible, as I had a family to attend to.

"My son had cured a bad cut on his finger by using Zam-Buk, and he advised me to give this balm a trial. I did so, and in less than a week's time it gave me wonderful relief. It stopped the pain, which had been so bad that many nights I did not get a wink of sleep. In a very short time the wound was so much better that I had no more sleepless nights, and was able to move about and do my work. I persevered with Zam-Buk, with the result that the wound is now perfectly cured, and the limb is as sound and strong as ever. To any person suffering from ulcerated sores I would say, 'try Zam-Buk.'"

Zam-Buk is just as good for piles, abscesses, boils, scalp sores, blood poison, festering wounds, cuts, burns, scalds, bruises, eczema, eruptions, and all other injuries and diseases. All druggists and stores soc. box, or Zam-Buk Co., Toronto, for price. Refuse harmful substitutes and imitations.

Have you tried Zam-Buk Soap? 25¢ tablet.

CHOP STUFF

A cadet corps has been formed at the Parkhill high school.

Thamesville council has courage enough to deal with the question of the chicken nuisance and has ordered the local legal machinery greased and oiled in readiness for action. In short, Thamesville poultry breeders will keep their live stock penned up or suffer the consequences.

Children Cry FOR FLETCHER'S CASTORIA

A movement has been launched that may result in the submission of the Scott Act to the entire county of Essex. The advisability of taking this step was discussed at the meeting of Citizens' League in Windsor last Thursday evening, and the general opinion favored definite action.

While engaged building a chimney on the new kiln, Alvinston, James Holme and Frank Rickett had quite an accident, the scaffold breaking and both falling to the ground with a number of brick on top of them. Frank was hurt quite badly, the ligaments being broken in his ankle and he will be unable to use it for a few weeks, while Mr. Holme escaped with a few bruises.

CAUSE OF ASTHMA.—No one can say with certainty exactly what causes the establishing of asthmatic conditions. Dust from the street, from flowers, from grain and various other irritants may excite a condition which is irradicate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

The new post office at Essex was opened for business last Monday morning and Postmaster Park has been busy all week allotting boxes and getting things going quite properly. The first postoffice in Essex was opened 40 years on Thursday, May 16th, and M. H. Hall, who is still employed in the office and as frisky as a boy of eighteen, helped to assort the first mail that was distributed in the office.

James Glover, an old and highly respected resident of Petrolia, died suddenly at his home on Tuesday afternoon, April 28th, shortly before 2 o'clock. Mr. Glover had been helping Geo. Parkinson make some repairs to a chimney, when he suddenly complained of a severe pain over his heart. He asked for a doctor, but had no sooner made the request than he dropped in a chair and expired. Dr. Calder, who was in front of the house, ran in, but was of no use as death had been instantaneous.

Hard and soft corns both yield to Holloway's Corn Cure, which is entirely safe to use, and certain and satisfactory in its action.

The daughter of a motor-boat builder at East Cowes, formerly of Goring-on-Thames, was buried in a coffin modelled in the form of a motor-boat.

Dr. Morse's Indian Root Pills

are just the right medicine for the children. When they are constipated — when their kidneys are out of order — when over-indulgence in some favorite food gives them indigestion — Dr. Morse's Indian Root Pills will quickly and surely put them right. Purely vegetable, they neither sicken, weaken or gripe, like harsh purgatives. Guard your children's health by always keeping a box of Dr. Morse's Indian Root Pills in the house. They

How Concrete Work Was Made Easy For You

UNTIL a few years ago farmers considered concrete a rather mysterious material, that could be used successfully only by experts. They knew that upon the quality of the cement depended much of the success of concrete work. They had no means of testing cement, such as big contractors employ, and so could not be sure of its quality.

Yet the farmer needed concrete. He was kept from using this best and most economical of materials by

1. Lack of knowledge of how to mix and place concrete.
2. Lack of a brand of cement upon the quality of which he could absolutely rely.

Canada Cement

has supplied both these requirements.

We employed men to make a thorough investigation of the farmer's requirements; to find out where and how he could use concrete with profit to himself; to discover all problems he might come across and to solve them. This investigation was expensive. But when it was completed we had the material for our campaign to show the farmer how and where to use concrete, and we printed a book, "What the Farmer Can do With Concrete," for free distribution. That book makes every farmer who reads it a concrete expert, as far as his needs are concerned. He finds that there is nothing mysterious about concrete—that a few simple rules supply all the knowledge required.

At the same time we met the farmer's second objection—inability to test the quality of cement—by producing cement of a quality that does not need to be tested.

The Canada Cement that you buy by the bag is the same Canada Cement that is sold by the train-load for great elevators, buildings and bridges.

There is a Canada Cement Dealer in Your Neighborhood

If you have not already done so, write for the book "What the Farmer can do with Concrete." It is Free.
