GOODROADS IN TEMISKAMING

Commissioner Campbell Has Told Pioneers of His Intentions.

THE NEW TOWNSHIPS OPENED—A Few Farms, held by speculators have been Confiscated and Resold—An Experimental Farm For the Testing of Grains and Fruits suggested—Charter Granted For Railway to James Bay.

Toronto, July 4.—According to Director of Colonization Southworth, there has been more progress in the Temiskaming District in the past year than there has been in the previous five. Mr. Southworth has just returned from a three weeks' trip through that country. He was accompanied by Gen. Campbell, Commissioner of Good Roads, who will remain several days longer in the country.

In previous years Mr. Southworth said there has always been some suspicion held in regard to the bush-crow growth of the district, and fears that the settlement would not be the slightest doubt on this New Lakeview village was sold at the rate of \$20 a foot. This is but an instance of the way things are prospering in that country.

While up north, a public meeting of settlers was held, at which Mr. Southworth called for an expression of opinion, and in response there was but one refrain and that was more roads. When Mr. Campbell announced that he had a 40-mile system in his mind, great satisfaction was expressed. The question of wages also came up, and it was agreed to increase the pay for road labor from \$1.10 and board to \$1.50 without board a day to \$1.25 and board at \$1.75 without board.

Ten new townships have been opened this year in the country, and it is thought that twelve miles of roads will give them easy access. Twenty-four of these townships have been surveyed, and all but three have been practically filled. A few farms have been held by speculators, but already some of these have been confiscated and resold, as the necessary obligations have not been fulfilled.

At the meeting of settlers, Prof. Sharp, late of Queen's University, who with his two sons has taken up 320 acres suggested that the Government establish a small experimental farm in the district to see what crops and fruits were best adapted to the country. In the Quebec settlements, fruit is grown and everything very prosperous. The Ontario settlers furnish them with a market, and at the present time potatoes are 80 cents a bushel, oats 80 cents and hay \$20 a ton.

The Quebec settlers are anxious to have a railway, and they have a charter for one from the head of the Ottawa river to Mattawa, on the C.P.R., to James Bay, and it is likely that the road will be built soon, as they have been receiving every encouragement.

There has been a lot of wet weather this year, which has hindered clearing and burning, but the crops have not been damaged, and everything points to an exceedingly prosperous year.

TYPICAL BRITISH LADS.

Leave Sandhurst Rather Than Face on Comrade.

London, July 4.—Twenty-nine "rusticated" cadets of the Royal Military Academy, Sandhurst, left that institution yesterday, protesting that they had not been connected with the recent incendiary fires at the college.

A time limit of forty-eight hours given by Lord Roberts, the Commander-in-Chief, to the cadets of the Royal Military College, Sandhurst, to deliver up those who have been guilty of starting the incendiary fires at the college, in default of which the "rustication" of all the cadets was to be ordered, expired Wednesday. It was then understood that a number of the cadets would leave immediately, but the War Office was endeavoring to suppress all the information on the subject.

COOK'S COTTON ROOT COMPOUND

is especially used monthly by over 100,000 Ladies. Safe, efficient. Ladies who use it are free from all diseases, and their children are healthy. Price, 25c a bottle. Sold by all druggists. Beware of cheap imitations. The Cook Company, Windsor, Ont. 1 and 2 sold and recommended by all responsible Druggists in Canada.

No. 1 and No. 2, are sold in Berlin at all Drug stores.

Superstition in Waterloo County

past the help of the most skilled, it is possible to see that men and women, in their sober senses in the 20th century, with all the means of education that we possess, should still cling to these old customs which have been proved 300 years ago to have no effect whatever. They believe in a conservatism worthy of better causes. Here is a sample of a charm for a burn or scald:

There were two angels came from the north,
One brought fire, the other brought frost.
Come out, fire, go in frost,
Father, Son and Holy Ghost.

Again, there is a section of this county where quite a number of the people believe in a certain sickness called Heaway. The guests of the village resort to exercise hospitality towards them and they were forced to the outdoors which they did under an oak tree. The guests of the village came and licked their sores. Those people believe for their uncharitable conduct in a family that village would be afflicted with the same disease for all time to come.

There is another community where quite a number of the people believe a certain old woman is a witch. It is no matter what horse or cow dies, someone gets hurt or breaks a leg, it is all put down to the evil spells of the witch. It is a very astonishing when one such an idea takes possession of the mind what pranks the imagination plays. Nothing is too great or too small to be believed. Widespread over the county in addition to charming is the practice of using a magical charm for the cure of insanity. They have cured for all the ills that human flesh is heir to and it must have taken the mind of a genius to evolve many of them. Time will not permit to give more than two or three. Here is one given by a person who claims to be the cure of insanity. The people were to get a dog of all color; if it were black then it was white, and if it was white then it was black. They had to kill the dog, take out the brains, cook them and give them to the old man to eat.

It is a common belief with a goodly number in the county that certain individuals through some occult influence have the power of making anyone who has stolen something to return it. If something is missing they have to do some thing to find it and all behind! Next morning your property is returned; if it is not, the excuse is that the thief has not yet returned, and the charm won't work.

Now, all this reads like a history of the people of this old settled county, that has had half a century of free, public and separate schools that the people should be so willing to ignorant traditions; I cannot account for it. One would naturally think that the schoolmaster had not been advanced and that the people had made no advancement in education and intelligence. In any community where such superstition and gross ignorance abound it is fertile field for every false that comes along. No wonder the Christian Scientists have such a following and that Divine healers and Dowdites are making their converts. Some may think that it is a necessary motive that prompted this paper, but when they reflect that doctors are also teachers and are doing what they can by sanitary laws to lessen disease, I am sure they will change their minds. No, this paper is more of a protest on behalf of suffering childhood for a more common sense and rational treatment of disease.

How is this bad state of affairs to be improved?—What can we do to eradicate this evil from our midst? I see nothing for it but educate, educate, educate. We must naturally look to the instructors of our youth—the educators of the rising generation. The older people are too set in their opinions to be changed, but much can be done to disabuse the minds of the young of their ancient lore. Teachers should lose no opportunity to immediately teach against it—to cast ridicule upon it—and proclaim it as only a sign of ignorance. Ministers should preach against it. Editors denounce it in the press until there is not a vestige of it remains.

A SURE THING.
It isn't so much the size of the space in advertising as what is used in that space which means gain or loss to the advertiser when it comes to figuring the result of an advertising experiment. Most advertisers do not experiment at all. They know what experts say is the result of an action and are benefited by that action because they have planned wisely knowing as they did the natural results of that planning.

Americans Invading Canada.
New York, July 4.—A special to The Times from Tacoma says: The Tacoma Steel Company has had plans prepared and has been issued a license on Tacoma tide flats for the erection of a 250-ton blast furnace. It will be the first modern blast furnace erected on the Pacific coast from ores and limestone will be brought from the company's properties in British Columbia, while it will mine its own coal. Rolling mills and ship-building plant will be constructed by the same company, which has secured control of the largest iron deposits on Vancouver and adjacent islands.

An Editor to Trouble.
Vancouver, July 4.—A Supreme Court writ has been issued for the apprehension of William McAdams, editor of The Sandon Pay Struck, and he will be brought down to a trial in Vancouver in an article in his paper, a short time ago, charged the bench with grave crimes, and when cited to appear calmly to the court, he refused to do so. Now he will be placed under arrest.

THE MARKETS.

Liverpool Cables Lower—Grain Markets Also Easier at Chicago—The Latest Quotations.

Thursday Evening, July 3.
Liverpool was lower to-day, and corn futures had a quiet time. At Paris closed 5 to 15 centimes lower, and flour 15 to 25 centimes lower. Wheat closed 1/2 cent lower yesterday; July corn advanced 1/2 cent; July wheat 1/2 cent.

Following are the closing quotations of important wheat centres in Canada:

Chicago	75 1/2	75 1/2	75 1/2
Winnipeg	75 1/2	75 1/2	75 1/2
Edmonton	75 1/2	75 1/2	75 1/2

Butchers' Hogs—Choice heavy export hogs, \$4.00 to \$4.50; light export hogs, \$3.50 to \$4.00.

Butchers' Cows—Export cows sold at \$4.50 to \$5.00.

Butchers' Sheep—Choice picked lots of butchers' sheep, 1100 to 1150 lbs. each, sold at \$1.75 to \$2.00; medium shippers, \$1.50 to \$1.75; light shippers, \$1.25 to \$1.50.

MONTREAL LIVE STOCK.
Montreal, Que., July 3.—There were about 500 head of butchers' cattle, 80 head of sheep, and a few calves, for sale at the East End Abattoir to-day. A good many cattle, calves and sheep were sold here yesterday. The butchers were present in large numbers, and there was a brisk trade in all the principal pretty good cattle.

There were no really prime cattle on the market, and only a few lots of 100 to 150 lbs. each, and the common at 3c to 4c. The best of the heavy shippers were bought by buyers at 5c to 6c per lb. Calves sold at \$2.50 to \$3.00. Sheep were sold at \$2.00 to \$2.50. Good lots of fat hogs sold at 6c to 6 1/2c per lb., weighed off carcasses. Fat hogs were sold at \$2.00 to \$2.50. East Buffalo, N. Y., July 3.—Cattle—Receipts, light; feeling better. Veals—Receipts, 100 head; top, \$6.75 to \$7; fair to good, \$5.75 to \$6.25; common to light, \$5 to \$6.

TAPS FROM THE WIRES

Wednesday the 10-year-old daughter of Charles Adley of Union, near St. Thomas, was drowned in a pond. The mother of the child witnessed the tragedy, but could render no assistance.

Police Magistrate Kingsford, of Toronto, Thursday morning sentenced Pat Downes to five years in the Kingston Penitentiary. Downes is a young man who was recently convicted of a criminal assault upon a small boy.

John C. Bann, proprietor of the Revere House, Brookville, met with an accident Wednesday night, and his recovery is doubtful. He fell from one of the windows in the rear of his hotel, a distance of about 50 feet, and was unconscious when picked up.

Do Not Fear American Invasion

Montreal, July 4.—Mr. James Henry Parks, one of the largest manufacturers of Birmingham, was here yesterday, en route for Sydney. He says that South Wales has plenty of iron, and a supply of the richest iron ore in the world, from Bilbao, Spain, and feel no apprehension of the so-called American invasion. Whenever the English markets get steel goods from the British manufacturers are too busy to fill all the orders that reach them.

Indigestion

and nervousness are often the result of hurried meals.

Abbey's Effervescent Salt

stimulates and tones the digestive organs enabling the stomach to digest perfectly.

Those who suffer will find Abbey's Salt a perfect corrective of all stomach disorders. Dyspepsia cannot be cured by doctoring the effect. Abbey's Salt removes the causes by enabling the stomach to do its work properly.—A mild laxative. At all druggists.

LETTER TO THE RECORD

MUSIC AND KIDS.

Editor News Record.
Dear Sir:—The splendid program of music rendered by the band on the square last evening was marred by its ending and noise made by small boys. The public enjoys the music as shown by the large attendance at the square. It is a pity that the boys try to get in the way of the music. It is a pity that the boys try to get in the way of the music. It is a pity that the boys try to get in the way of the music.

SIR WILFRED TO GO TO PARIS.

Will Be Requested by the French-Committee of La Temps.

London, July 4.—After the close of the Colonial Premier's Conference in London, says the Paris correspondent of The Times, a banquet will be given in Paris by French politicians to Sir Wilfrid Laurier.

The Temps predicts the failure of the conference, declaring that a British withdrawal or even permanent council would be a dangerous experiment.

The July 14 feast, says the Paris correspondent of The Times, will be on a reduced scale, owing to 100,000 francs being voted for the relief of the Martinique sufferers.

Clergus steel Rails.

Ottawa, July 4.—The first 10,000 tons of steel rails manufactured by Mr. Clergue at the Soo have been delivered to the I.C.I. authorities, and will be used in repairing the road of the Drummond County line between Montreal and Quebec. It is expected that the supply will be regularly kept up. No test has been made of these rails, as in the opinion of Mr. Schreiber the only absolute and valuable test is durability in wear.

THE SLATER SHOE

The exact words.

The real "Slater Shoe" has the words "The Slater Shoe" branded on the sole or lining.

No other words or letters except the price appear on the genuine "Slater Shoe."

On the real "Slater Shoe" the name is always surrounded with a slate frame.

Because "The Slater Shoe" brand in the Slate Frame is the wearer's protection is the reason why the discerning purchaser will insist on the genuine "Slater Shoe" and will take no shoe that looks like a "Slater Shoe" but is not one.

The name and price, \$3.50 and \$5.00, branded on every pair.

"The Slater Shoe"
