The many friends of Edison Mills who for years has been one of the most popular and efficient policemen, on the staff of the British Empire Steel Company, at their works in Sydney, will regret to learn he is not in his usual good health. He arrived home a few days ago, and expects to be convalescent in the near future. All his friends wish for him a complete and speedy recovery, as he is too genial and pleasant a fellow to be on the sick list.

Large and appreciative congregations attended both services in the Methodist Church on Sunday last, where the Caledonia Male Quartette of New Glasgow rendered a beautiful program of music on both occasions. At the evening service the church was filled to its capacity and the service was given over entirely to song. Mrs. R. Arkwright who accompanied the quartette as pianist sang very beautifully "Nearer My God to Thee," which along with the other numbers was much enjoyed.

W.A. McKay, of Truro, the Supt of Creameries for the province of Nova Scotia, was in town on Wednesday conferring with E. McL. Blaikie the manager of the Hawkesbury Creamery. This practical and experienced official of the Provincial Department of Nova Scotia, is recognized as one of the most capable creamery experts in Canada. He has been most persistent and enticing in his efforts to help out the farmers of Nova Scotia. He must be pleased to see the excellent results accruing from his most commendable efforts as Nova Scotia has made splendid progress from year to year, under his energetic and up-to-date management in the Creamery and Dairy development. He is most enthusiastic over the continued progress of the Hawkesbury Creamery, under the management of E. McL. Blaikie.

A bumper house greeted the famous Caledonia Male Quartette of New Glasgow, at the Wonderland theatre on Monday night, on the occasion of its first visit to Hawkesbury. The quartette which is composed of Mason B. McKay, Albert Matheson, George McDonald and R. Arkwright rendered a splendid programme of music which was well received by the large crowd present. The quartette on this occasion well sustained its high reputation of being one of the finest aggregation of singers in the Maritime Provinces. Mrs. R. Arkwright who accompanied the quartette as accompanist and soloist was ably assisted at the piano by Miss Hilda Williams of this town. While in town the members of the quartette were guests at the homes of Mrs. N. H. Langley, Mrs. J. C. Bourinot and the Parsouage.

The main estimates for 1925-26 were presented to the House of Commons at Ottawa on Monday. The votes or appropriations for Inverness are as follows: Public Wharves and Breakwaters, Grand Etang \$5,000; Little Judique \$1000; Margaree \$1,500; Port Hawkesbury \$4,000. Ever since this county has been represented at Ottawa by Dr. A. W. Chisholm its interests in the expenditures on our wharves and breakwaters, dredging of our harbors and in every possible way has been splendidly looked after. The supplementary estimates will contain larger votes for Inverness. It must be remembered it was less than a year ago the Doctor succeeded in having the Inverness

Alma Clark, 22, engaged to marry the imprisoned explorer Collins, wept at the mouth of the cave which held her lover captive, as she saw the slow task of driving a shaft to save him. THE FACTS

Upper Glencoe,
Feb 10th, 1925

Editor "Journal-Bulletin,"
Dear Sir:—Permit me space in your valuable paper to clear up the atmosphere in respect to false rumors, that were circulated throughout the county during the past twelve months about a patient, Miss Mary McDonald, formerly of Glencoe, who was an inmate of the Mabou Inverness County Asylum, and who was taken to St. Mart's Hospital, Antigonish, from there to be operated on for appendicitis. The rumor stated the ailment to be something else and was repeated at the last session of the Municipal Council. In order to get at the real and true facts, I have written Dr. J. L. McIsaac of St. Martha's Hospital, requesting him to inform me as to the nature of the operation performed in his hospital on Miss McDonald. I have much pleasure in publishing in your columns the reply of Dr. McIsaac, which proves the misstatements to be incorrect and not in accordance with the facts. I regret very much not having letter of Dr. McIsaac to present to the council, at the time it was in session.

Yours respectfully
Dan T. Campbell
Municipal Councillor

Yours respectfully

Report of the Committee appointed to visit the Inverness County Asylum

Councillors, composed of the following: Warden A. K. McKay; Hugh Gilli; Constant AuCoin; Dan N. McLennan; Dan T. Campbell; Louis Moore; James McDonald; J. D. D. Aucoin and Duncan McEachern, who visited the Inverness County Asylum at Mabou on the 26th of January, beg leave to report as follows:

We visited all wards and the patients therein, and found everything clean, well heated, and found the patients well accommodated and comfortable.

We visited the basement and inspected the coal bins which a recent fire had damaged to some extent, and we recommend that all woodwork, partitions, ceilings and floorings be removed and that same be replaced by concrete work, for protection in case of fire around the boilers and coal bins.

We recommend that the out hydrants be housed to protect them from ice and snow, and that sufficient hose be housed, together with a couple of axes and a spanner, for instant use in case of fire.

We recommend that stand pipes be placed in position, with valves, hose connections and hose (4 connections in all) so that instant use can be made of same in case of fire consistent with the recommendations of the Provincial Fire Marshall.

We found the ground around the Building well graded, also properly ditched for carrying off all surface water.

We also found that the outlet from the Lake had been properly dammed, and the level of the Lake raised about three feet, we also found the water system satisfactory.

We found the old asylum building torn down, and the lumber properly piled.

We found the present barn in very poor condition, and strongly recommend the building of a new barn, and find that most of the lumber from the old asylum could be used in building a new barn.

We found 8 milk cows; 3 horses and 7 pigs all in good condition.

We found flour, tobacco, clothing and vegetables (cost about \$3,000.00) and found that same had been paid for in 1924, as shown by the Commission report.

Port Hood, N. S.
January 24th, 1925.

I am the foregoing to be a true copy of the report of the Committee appointed by the Municipal Council to visit the Asylum on the 26th day of January and adopted by said Council on the 28th day of January 1925.
