

Editor of the Canadian Bee Journal Retires to Engage in Gospel Work.

A bee-keeper of repute not only in Canada but throughout America and even Europe, has recently decided to give up bee-keeping and go into the Gospel work entirely.

R. F. Holtermann, Brantford, Canada, and late editor of the *Canadian Bee Journal*, will no longer be found taking an active part in the advancement of bee-keeping. He writes that he is prepared to take up special Gospel meetings anywhere, and especially in the agricultural districts. It is his intention to use plant and animal life on the farm in preaching.

It may be said that the late Sir J. M. Dawson, LL.D., F.R.S., F.G.S., Principal and Vice-chancellor of McGill University, made the statement that "Many lectures would be required to illustrate the multitude of ways in which, with inimitable truth and beauty, the animal kingdom is made to teach us of spiritual things, and to illustrate the character of its maker."

Mr. Holtermann has just completed a little work showing that the natural history of the bee is a complete illustration of the Gospel and the life of believer in God. He says it is the most complete illustration of all animal life and the truths seen are beautiful. Single copies of the work can be secured, postpaid, at his address, Brantford, for 10c., or 12 copies for \$1.00.

THE MCLAUGHLIN CARRIAGE CO

THE LARGEST CARRIAGE FACTORY IN CANADA.

ONE GRADE ONLY AND THAT THE BEST

OSHAWA ONTARIO

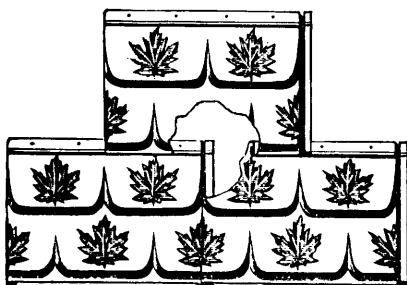

A 34-year old Cutter

We exhibit it at Toronto Fair. A Portland Cutter made by us 34 years ago. 2,500 Cutters we are now making for this winter will make as many pleased customers. Wise buyers select the best, made by the old reliable manufacturers

Sheet Metal for Buildings

Making them
Warmer in Winter
and
Cooler in Summer.

Handsome in
Appearance.
Very Durable,
and Practically Fire
and
Lightning Proof.
