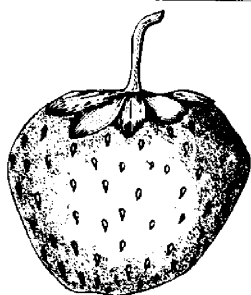

FIG. 1132.—MARSHALL.

so large a berry; only moderately productive, but worthy of further trial.

Mary (P).—
A new variety of great promise. Plants are strong and vigorous. Berry larger than any other we have ever seen: well shaped: of good

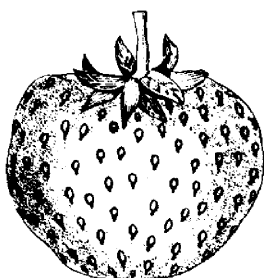

FIG. 1133 —MARY.

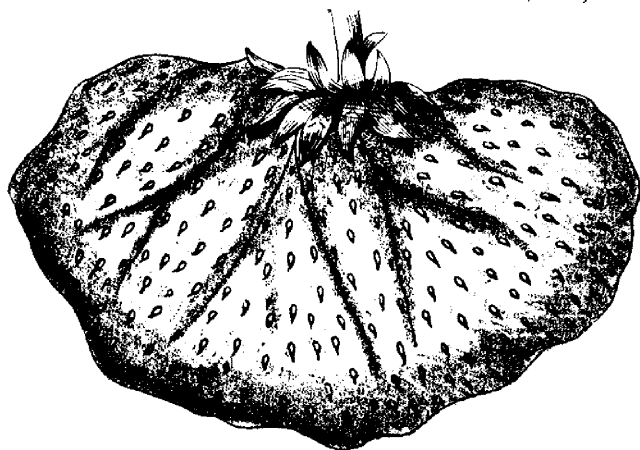

FIG. 1135.—BELLE.

dark crimson color, and quite firm. Well worthy of trial.

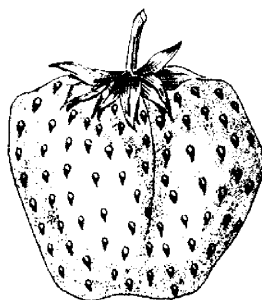

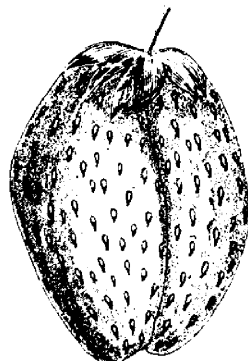

FIG. 1134.—BUBACH.

very large and of bright showy color; firm for so large a berry and of good quality; one of the best for home use or near market.

*Belle or Crawford's 51 (B).—*Plant vigorous and healthy; berries very large, irregular in shape, long, and many of them fan-shaped. The cuts are the exact size of specimens grown here. Color, bright crimson; flesh firm and of good quality. Late and very productive.

BELLE.
