THE TRADE REVIEW.

MONTREAL, FRIDAY, NOVEMBER 23, 1866.

BANK OF UPPER CANADA—THE WINDING UP

[Continued from No. 42 of Trade Review.]

THE loss on the transactions between Sept. 30th and Nov. 9th, the date at which the statement submitted to the annual meeting was made up, was very heavy. Mr. Cassels claimed credit at the meeting for decreasing the liabilities; he made no statement of the decrease of assets.

Comparing the two accounts, we find the figures to be as follows:

LIABILITIES.	
Decrease in circulation.....	\$ 32,386
“ balances due to other Banks.....	155,114
“ deposits not bearing interest.....	133,217
“ deposits bearing interest.....	509,830
Total.....	830,597
ASSETS.	
Decrease in specie.....	65,118
“ Real Estate.....	18,997
“ Government Debentures.....	178,807
“ Bills of other Banks.....	10,834
“ Balances due from other Banks.....	10,056
“ Notes discounted.....	256,703
“ Other debts.....	760,466
Total.....	1,300,775
Less decrease of liabilities, as above.....	830,597
Loss on the October transactions.....	470,178
“ “ September transactions.....	49,532
Total loss.....	\$ 519,710

Or on the total decrease of liabilities, viz., \$1,508,269, 34 per cent.
This rate of loss, if continued, would leave nothing for the Shareholders, after paying off the liabilities.

Railway Traffic Returns.

The Returns for the month of October, which will be found in another column, shew a large decline, as compared with the corresponding month of last year. The earnings of the Great Western Railway have fallen off \$74,365, or more than 20 per cent. of the receipts for October, 1865. The Grand Trunk Railway has been more fortunate, there being an increase in its traffic of \$3,351. The average receipts of the Great Western for the month were \$321.04 per mile, while those of the Northern Railway were \$529.45, and of the Grand Trunk \$442.53.

OUR TRADE WITH THE MARITIME PROVINCES.

As considerable interest is now taken in commercial circles in the wants of the Lower Provinces, and in how far they can be supplied from Canada, the following statements of our trade with them up to the 30th of last June, as well as, by way of comparison, those of the previous year, ending at the same date, may be useful. Before giving details, we will state that the aggregate value of our exports to them for the fiscal year ending 30th last June was \$1,571,116, or fifty per cent. over that of last year, which was \$1,065,067. Although, comparatively speaking, this is not great, yet it is very satisfactory, when we consider that this increase results purely from the natural growth of trade between the Provinces, and not by any pressure emanating from the close of reciprocal trade with the United States. The returns which we give are only up to the end of last June, before which time we may say no forced expansion of intercolonial trade took
