Toronto. Dear Sir.-In reply to your request as to the condition of my hair, after using your preparation I would say the effect on my head has been most astouishing. In December last my hair began falling out in large quantities, I was induced by a friend of
mine to use your preparation, and for some time was very much discournged as my hair continued to come out, but as you assured me that was its natural action to clear away the weak hair which would be sup-

The Question of Spoons.
When the Government introduced the protective tariff they did so on the principle that"THEYWOULD EITHER MAKE A SPOON OR SPOIL A HORN." The great authorities in ParHiament and in the press have not yet decided which result will happen, and some consider it doubtful if it shall ever be unanimously decided. Of more importance, however, to the families of our people-when gathered at their breakfast table quaffing their tea and cofee-of uncertain price-to know that the CELEBRATED NICKELITE SILVER SPOONS are still within their reach. The Government laid their hands fearlessly upon the clothing we wear, the food we eat, and the fuel we consume; they taxed by the dollar and by the pound, ad valorem and specific, but "woodman spare that tree," they spared the Nickelite Spoons, by just leaving them among the revenue tar iff lists.
These celebrated Sheffield spoons and forks are the result of years of labour, experience and capital. They require, to produce them, heavy and expensive machinery, and they require the world for a market. They are adapted to all climates, from the extreme North to the mates, from the extreme North to the
